PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 79-07271

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Western** Regional Office of the department in Boise (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

•Comments: Attached is the Proof of Beneficial Use form and its instructions and the fee schedule for the department conducting a field exam. Fill out the Proof form with information for the Permit to Appropriate Water issued on this right. If you do not have a copy of the permit, let me know and I'll fax that to you also.

The individuals that do field exam work for us would be coming from the Coeur d'Alene office, will be either Wayne Baldwin, or Al Beardslee. Another examiner that has prepared some reports is Jim Zimmerman. Wayne is the most likely person to contact you to make an appointment to do a site visit, but sometimes Al Beardslee who is a water right agent and supervisor will do them. Whoever is assigned to you will contact you either by phone or by letter to schedule a visit before they come onto your property. Also, they carry Department of Water Resources photo identification with them.

Dear Ms. Killgore:

Enclosed are copies of a Proof Due Notice the department sent to Mr. Wayne Hall and the forms he has filed in response to that notice. I apologize for the department's error in the proper handling of this matter. I found the Power of Attorney in the file after receiving the forms from Mr. Hall, and I have updated our database so that in the future you will receive all notices, and forms necessary for processing this water right permit. If you can help clear up this matter, I would really appreciate it.

If you have any questions, please contact me at (208) 327-7953.

RE: PERMIT NO. 79-7271

Dear Mr. Hall:

Enclosed are the original Request for Extension of Time and the Proof of Beneficial Use forms you have filed with the Department, I am returning these documents to you since the department cannot accept them without their appropriate filing fees, and only one form is appropriate to file. During my review of the information you have supplied with these forms I understand that no water has been diverted, and I understand that you do not plan to develop the pond as described in your Application for Permit as filed with the department.

If you wish to have additional time to develop this right you should file the Request for Extension of Time, with the \$50.00 filing fee. If you have no intention of developing this water right, no response from you will lapse this permit on January 1, 2003, and the permit will have no force or effect.

Please return the appropriate form along with its filing fee to my attention **before January 1, 2003** to avoid lapsing of this water right. If you have any questions regarding the Proof of Beneficial Use process, please contact me at (208) 327-7953, or contact the regional office in Boise at (208) 334-2190 with any water right questions.

Sincerely,

Deborah J. Gibson

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 01, 2003. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Assistant
Water Allocation Bureau

-SL 1/27*

Dear Steve,

We received notice of the intent to file for water rights on an unnamed stream by Wayne Hall (79-07271). We are concerned with the effects water diversion might have on the cold water biota in these creeks. During the summer (July 15 - September 30) and fall/winter periods (October 1 - February 28), the creek is at low flows and any diversion will reduce flows important for instream biota.

In working with other landowners, we have suggested a diversion through a 1-inch diameter pipe with a gravity-feed from the point of diversion for domestic and non-consumptive purposes during the period March 1 to July 15. We recommend that all nondomestic water be returned to the creek. Furthermore, we suggest a storage tank constructed coincident with the water right development to allow water storage for use during the period of non-use (July 16 - February 28).

If the use is nonconsumptive, no more than 18 gpm (gallons per minute), and the period of diversion between March 1 and July 15; we support granting the right despite the moratorium in the Salmon River watershed on water rights.

Thank you for the opportunity to comment.

Sincerely,

Cal Groen
Regional Supervisor

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 79-07271

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

JUN 20 2001

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.
