Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Dear Mr. Enneking:

Re: Permit No. 79-7079

In response to your letter of December 5, 1985, enclosed is a copy of the above-referenced permit.

Please be advised that only a permit holder or authorized agent may take action on a water right permit since it is considered personal property. Consequently, to change the name on the permit, an assignment would need to be made. Since Joe Enneking is deceased, the personal representative for this estate can assign the permit to Joe Enneking Ranch, Inc. Enclosed is an assignment form. Please return it along with a copy of the document appointing the personal representative for our records.

Note that proof of beneficial use or an extension of time must be received by January 1, 1986 to keep the permit from lapsing. Either of these forms can be returned at the time the assignment is also sent in.

If you have any questions concerning this matter, please feel free to contact me at 334-4290.

Sincerely,

RITA I. FLECK

Dear Madame;

REC

DEC 9 1985

Department of Water Resources
Western Region

I am writing in regards to the above mentioned water permit. This had been issued to my late father-in-law Joe Enneking. Since the date of issue the farm has been incorporated to be Joe Enneking Ranch Inc. We have searched for this permit and can not find it any place. It is certainly not in any of his things. Would it be possible to re-issue this permit in the Corp.'s name as every thing pertaining to his business is all Joe Enneking Ranch Inc. If you could do this it would greatly be appreciated. We would then want a copy for our records, My husband wanted to check the permit over to see if every thing were complete
