This is a detailed map of a residential neighborhood, likely from a historical census or planning document. The map shows a grid of streets and numerous small rectangular lots, many of which are numbered. A central area is labeled "W. R. Section". The map is oriented diagonally, with streets running from the top-left to the bottom-right. The lots are arranged in blocks separated by streets. Some lots are shaded or marked with specific symbols. The map is titled "Map of the W. R. Section" at the top.

Two 525 gallon storage tanks are used in system. A 3 1/2" inlet pipe, 4" outlet pipe (mainline towards houses), and 2 1/2" pipes deliver water. 3 1/2" line goes to fire hydrant via 7 1/2 HP AURORA pump (pressure pump) found in pump house. Domestic and fire protection lines tie into pressure tank system. Static pumping level in well is 200'. Normal psi for domestic use is approx. 60 psi.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.
