RE: Water Right Permit No. 79-7062

Dear Mr. and Mrs. Blewett:

After recently speaking with Mrs. Blewett, I thought I would write to explain once again the water right situation for your property.

Ronald and Beverly Hagan are the present owners of Water Right Permit No. 79-7062 for groundwater use for domestic, stockwater and irrigation purposes. Based upon information from the Idaho County Assessor's office, you are the current owners of the property associated with this permit. Since water right permits are considered personal property until they are licensed, the Hagans must assign this permit to you via an "Assignment of Permit" form if you wish to have this permit in your name. After a water right is licensed, it is appurtenant to the land regardless of changes in ownership.

Based upon these circumstances, you have two possible options:

- 1) Locate the Hagans and have them assign Permit No. 79-7062 to you so we can issue a water right license in your name. Or,
- 2) The Department can issue a license in the Hagan's name. Once issued, the license will be appurtenant to your property.

Either situation will result in a water right license for your property. You must decide how important it is to you to have your name on the license.

I have enclosed a copy of Permit No. 79-7062 for your records as well as an "Assignment of Permit" form. As I stated in our telephone conversation, a field examination of single household domestic well water right permits is not necessary. After verifying property ownership with the assessors office, we simply complete a field report in our office.

Please let me know what action you decide to take. If I do not hear from you within 30 days, I will assume that you have decided not to locate the Hagans, and we will issue a water right license in the Hagan's name. Feel free to contact this office if you have any questions.
