Dear Mr. Lindsey:

One of the conditions of approval of your water Permit No. 79-7007 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Lindsey:

Permit No. 79-7007 will have "Proof of Beneficial Use" due September 1, 1973, and once you have submitted this proof, your permit will become a license and require no further action. A Claim to a Water Right, on the other hand, does not establish a water right. It merely records your statement as to time and place of use of the water. You can still file a claim if you wish, however, it will not be possible for us to change your permit to a Claim to a Water Right. As you are aware, we have caused your permit application to be published ~~also~~ as a Claim to a Water Right would have to be published also. The filing fee received with the application pays this publication cost.

I am enclosing forms for filing a Claim to a Water Right in the event you wish to file it.

Sincerely,

Dear Sir:

I have checked with the soil conservation service in Grangeville.

They advised me to write you, informing you that our application for a water permit (79-7007 - approved Aug. 20, 1971) are actually on the wrong form. Both these pumps and lines have been in use for many years, before the permit was applied for.

They advised that we possibly charge it over to a Claim to a Water Right, Would this be possible?
