Dear Mr. Taylor:

One of the conditions of approval of your water Permit No. 79-7003 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Taylor:

Pursuant to your letter of November 6, 1971, please find enclosed the Department's beneficial use affidavit. We wish to advise you that proof of the construction of your diversion facilities and application of the water to your proposed beneficial uses is not due until August 1, 1972. However, if your project has been completed as out-lined in your permit, beneficial use may be submitted at this time so that a field examination may be conducted and a license issued accordingly.

If you should have any further questions, please advise.

Dear Sir:

Reference to Permit # 79-7003 and
your letter of July 14, 1971

Each of the above indicate that I
must furnish proof of construction
and application of water to beneficial
use. What kind of proof do you
want? Pictures? Cost accounting?
Affidavits? Other?

Construction began in March, 1970
and was completed in July, 1971.
Costs were considerably higher
than originally estimated.

Water was put to beneficial
use in June, 1970. Water was
used for household and for 79 7003

the lawn. Since that date, further development has put the water from this source to further beneficial uses, i.e.

1. Watering limestone, yearlong
2. Watering garden plot, April 1 to Oct. 31
3. Watering orchard plot and limited pasture April 1 through Oct. 31.

Will these uses require a modification of the permit?

As noted in the application this water source was discovered and developed by me, on my own personal property. The entire flow is consumed by me, on my property. There is no overflow onto or over the property of others.

Please advise as to the above points so that I can finish my obligations in this matter.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
