RE: Claim to a Water Right No. 79-4104
In the name of Salmon River Sheep Company

Dear Mr. Gruell:

This office acknowledges receipt of your exception concerning the above referenced claim to a water right. The department will not schedule a hearing in the matter or evaluate for conformation or censure the right claimed, since Section 42-244, Idaho Code, states in part the following:

"At anytime after the filing of a claim, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources."

In your letter, you also request an application for amending the date of your water right be sent to you. The document you filed, our Number 79-7069, is an application for water right which should have been filed for the purpose of establishing a new water use. The date of priority for that application is the date on which you filed the document with this department. If there was a prior water use on your property that existed prior to 1971 and has continued to be used since that time, you may file a claim for the use of that water. If such a water use exists on your property, I have enclosed for your convenience a claim form and instruction sheet that you may wish to file with this department.

Dear Mr. Allred:

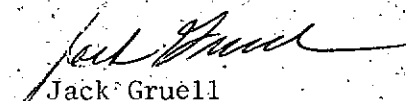

I take exception to water right claim #79-4104 as published in the Idaho County Free Press on 2/4 and 2/11/81, because I do not feel the water has been used in the manner required by law to establish water rights.

The properties covered by claims No. 79-7063 (McCoy), No 79-1081 (Nicholas) and No. 79-7069 (Gruell) are adjoining pieces of property that were originally part of the same ranch covered by the above-mentioned claim No. 79-7069. These three parcels were sold and divided in 1978 or 1979. The water from Carver Creek, which in reality is a spring, has been used on this property at Carver Creek bar for approximately 100 years. If any water from Carver Creek has been diverted to other property, it probably has not been in the last 50 years, as rotten lumber from the wooden flumes is barely visible at the bottom of the arroyos they crossed.

Assuming that the whole ranch would have the same priority water right from the same spring, the properties owned by McCoy, Nicholas and Gruell would all have rights dating back to 1880. I therefore request that an application for amending the date on my water rights be sent to me.

I would appreciate receiving written confirmation of the receipt of this protest, and request that I be notified in the event of any hearings scheduled on this matter. Thank you.

Sincerely,

Jack Gruell
