

AFFIDAVIT OF PUBLICATION

NOTICE OF CLAIM TO A WATER RIGHT
No. 79-4002

Notice is hereby given that Leslie E. Taylor, White Bird, Idaho has filed a claim to a water right established by diversion and application to beneficial use of .06 cubic feet per second of water from White Bird Creek, tributary to Salmon River with point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 14, T. 28N, R. 1E, B.M., Idaho County.

The water is claimed to be used from April 1 to Oct. 15 for the irrigation of 4 acres with a priority of April 1, 1947; the place of use is within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 14, T. 28N, R. 1E, B.M.

Any exception to this claim of water right may be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho.

STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION

CLAIM TO A WATER RIGHT
Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Leslie E. Taylor
post office address White Bird, Idaho 83554
2. The point of diversion is in NW $\frac{1}{4}$ of NE $\frac{1}{4}$ Section 14 Township 28 North
Range 1 East B.M. located on White Bird Creek
(name of source)
tributary to Salmon River in Idaho County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:
April 1, 1947 amount: 0.26 c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed 0.26 c.f.s. or _____ acre feet.
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
use irrigation period of use from 4/1/--- to 10/15/--- (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).
4. Description of diverting works:
 - a. Surface water diversion dam and/or headgate: material is composed of none
_____ ; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

 - b. Underground water diverting works: is well flowing or pumped none ; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____
capacity of pump is _____ g.p.m.; name and address of well driller is _____
_____ ;

attach well logs if available; has there been any change in pump or motor since well was first completed _____; if so, give dates and explain _____

- c. Conveying works: length of ditch to place of use is _____ feet; width of ditch at top is _____ feet; width of bottom of ditch is _____ feet; depth of water is _____ feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is _____; maximum length of pipe line to first place of use is 545 feet; diameter of pipe line is 2 inches; type of pipe metal and plastic; grade of pipe per 1000 feet is 20% up. Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible none

- d. If water is stored: name of reservoir none ;
total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet;
year construction commenced _____ ; year completed _____ ; date first used _____
period of storage is from _____ to _____ ; is reservoir drained each year _____ ;
is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity_____c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions_____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

[illegible]

Total number of acres to be irrigated 4

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____
NONE

b. Do you get water through a ditch owned by several users? _____ If yes, give the name of the ditch
_____. The other users and their respective
interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____
NONE

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied none

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use,
and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible,
giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

This is a pumping system. Water is diverted from White Bird Creek by
ditch, run 300 ft. to the pump station, then lifted to use area.

Water diversion point is on the right bank of White Bird Creek at a
point from which the North Quarter Corner of said Section 14 bears North
46° 52' West, 1391 feet.

State of Idaho

County of Idaho } ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the
foregoing claim to a water right, together with all attached information, and that the matters and facts therein are
true to the best of the affiants knowledge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or		acre feet
	June 1, 1901	amount:	0.4 c.f.s. or		acre feet
		Total claimed:	1.2 c.f.s. or		acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing a Claim to a Water Right is \$10.00. Your claim and fee may be submitted to one of the following offices:

Northern District

Idaho Dept. of Water Administration
401 Front Avenue, Room 209
Coeur d'Alene, Idaho 83814

RE: CLAIM TO A WATER RIGHT NO. 79-4002 (Amended)

Mr. Leslie E. Taylor
White Bird
Idaho 83554

Dear Mr. Taylor:

The Department of Water Administration has completed the processing of your amended claim to a water right, and no further action is authorized under Section 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your amended claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

Sincerely,

KENNETH H. FOIT, P.E.
Western District Engineer

Idaho County Free Press
Box 267
Grangeville, Idaho 83530

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Sincerely,

Bill Submitted 5-25-73

Re: Claim to a Water Right No. 79-4002

Mr. Leslie E. Taylor
P. O. Box 173
White Bird, ID 83554

Dear Mr. Taylor:

We have received your letter of April 29, 1973 in connection with your Claim No. 79-4002. Following is a quote from the provisions under which this claim has been filed. (Section 42-225b, Idaho Code):

42-225b. Recording of claims by department---Corrections-----

.....
"At any time after filing a claim under the provisions of this section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the department of reclamation (renamed department of water administration, July 1, 1970) and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the department of water administration. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the department the same as the original and for which no additional filing fee shall be required."

As set forth by the Idaho Code, you may correct your claim by filing an Amended Claim to a Water Right for which there is no filing fee required. We have taken the liberty of preparing an amended claim for you which is enclosed. Please review the claim and make any necessary changes before submitting it to this office for processing. You will note that the claim form must be signed before a notary public.

Upon receipt of your amended claim, the Department will cause notice to be published for two consecutive weeks in an Idaho County newspaper.

RECEIVED

May 1 - 1973

Department of Water Administration

Dear Sir:

Reference to "Claim to Water Right" No. 79-4002.

As explained to your office in my letter of 1-8-73, the amount of water claimed, as recorded, is in error. My 1-8-73 letter explains the problem. The amount of claimed water should have been .26 ($\frac{26}{100}$); not .06 ($\frac{6}{100}$). Again I ask, "What must I do to get this corrected?"

Since receiving your 1-11-73 letter I have taken pictures of both my irrigation equipment and of the grounds to be watered. These photographs are enclosed and are explained as follows:

Photo No. 1 — Black and white snapshot of the sprinklers that I have been using in the past. Total sprinklers, 21.

Photo No. 2 — Black and white snapshot of winter-stored plastic pipes with which sprinklers are supplied. (I have since buried lines to replace many

hundred feet of these pipes.

Photo No. 4 - Cal. Palmar showing broad view of one group of pipes.

Photo No. 5 - Cal. Pal. showing the group of sprinklers. (21)

Photo No. 6 - Cal. Pal. showing part of the yard area, small field containing nine newly planted fruit trees and more plastic pipe stored on the North fence-line.

Photo No. 7 - Cal. Pal. front yard of my home.

Photo No. 8 - Garden spot, N.W. field and part of 28 young fruit trees. (Cal. Pal.) This photo also shows D-2 crawler and T-8 tractor with which I worked my ground.

Photo No. 9 - Cal. Pal. show. part of my western fields and additional pasture land, all of which lies within my ir. plan and within the four (4) acres for which my original application was made as a claim to this water right.

Your letter of 1-11-73 states that the amount cannot be changed. If this is a fact, then what action can be taken to get the evident error corrected?

Your probable experience with areas such

lies within my irrigation plan and within the four (4) acres for which my original application was made as a claim to this water right.

Your letter of 1-11-73 states that the amount cannot be changed. If this is a fact, then what action can be taken to get the evident error corrected?

Your probable experience with areas such as ours should clearly indicate that four dry, sidehill acres could not be properly watered with .06 CFS of water. Also, as judged by some of the more recent applications being processed by your department, there is apparently no shortage of available water. (Reference to your No. 79-4020, Martin and Geraldine Downing as published in the Idaho County Free Press April 18 and April 25, 1973, calling for .15 ($15/100$) CFS for $1/4$ acre. This claim, if granted, would allow approximately forty (40) times the amount of water now shown on my water right No. 79-4002. For this reason I am taking exception to their claim and request that it be tabled until these inequities are straightened out.

This subject is very important to
— Page No. 3 — 79 4002

me and to my future and to the futures of my wife and son. I will come to Boise, get affidavits from neighbors and friends or will do anything in reason to get action on this case. Will you please personally give me the facts and advise that I need?

In my letter of 6-18-72, in reference to permit 79-2003, I requested that I be notified so that I could be here when the inspection was made. I was not notified and could not be here. Will you please have your office call me collect if they are to make any further investigation?

Hoping that I may have your personal response soon, I remain,

Respectfully Yours

Leslie E. Taylor

Re: Application for Permit No. 79-7003
Claim to a Water Right No. 79-4002

Leslie E. Taylor
White Bird, Idaho 83554

Dear Mr. Taylor:

In reference to your letter of January 8, 1973, your permit #79-7003 has been prepared for licensing. You should be receiving a letter from our department along with the details of your license in the near future.

We have put a copy of your letter requesting .26 c.f.s. instead of .06 c.f.s. in your claim file #79-4002. We are unable to change the claim, but your letter can be put in your file for record.

If you have any questions, please feel free to contact our office.

Sincerely,

GARY L. PAGE

State of Idaho, Dept. of Water Adm.

Statehouse - Annex 2

Boise, Idaho 83707

RECEIVED
JAN 13 1973
Department of Water Administration

Attention: R Keith Higginson, Director

Dear Mr. Higginson:

Reference to "Claim to a Water Right, No. 79-4002"

While checking my files, pursuant to the completion of my Permit No. 79-7003, I note that the amount of water claimed under No. 79-4002 not as it should be. The amount should read .26 (26/100) C.F.S.; not .06 as shown. Somewhere during the processing of the many documents and/or letters involved the figure two (2) has been omitted.

I operate twelve No. 25 Rainbird sprinklers and seven No. 35. I originally calculated their needs as follows:

12 ea. No. 25 @ 5 G.P.M. ea. = 60 GPM

7 ea. No. 35 @ 8 G.P.M. ea. = 56 "

Total G.P.M. 116

116 GPM = 15.46 CFM.

15.46 CFM = .2576 cubic feet per second.
(.26)

My pump is designed to deliver 130
79 4002

gallons per minute at a 130 foot total
dynamic head. (120 GPM @ 130 TDH)

What must I do to get this corrected?

Your inspector undoubtedly saw many of these
sprinklers set up for use when he was
here. I had them hoaxed up with pipe
above ground. As you can easily determine,
.06 CFS of water would run only a few
of them.

May I please hear from you?

Respectfully yours

Leslie E. Taylor

Claim to Water Right No. 79-4002

Water Permit No. 79-7003

June 23, 1971

Re: Claim to a Water Right No. 79-4002

Leslie E. Taylor
White Bird, Idaho 83554

Dear Mr. Taylor:

The Department of Water Administration has completed the processing of your claim to a water right, and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
