

Application For Permit
To Appropriate the Public Waters of the State of Idaho

79-2082

APPLICATION No. 35595
PERMIT No. 27660
DISTRICT No.

Lola Louise Gentry
Cottonwood, Idaho
211 Park St., Renton, Wash.
Renton, Wash.
State: Idaho

1. Name of Applicant: LOLA LOUISE GENTRY

Postoffice address: 211 Park Street - 7013 & 115th Seattle
Cottonwood County: Idaho

- I. If applicant is a corporation, give:
- (a) Date and place of incorporation:
 - (b) Amount of capital stock:
 - (c) Amount paid in:
 - (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bond to be issued:
- (d) Other resources:

2. Quantity of water claimed: 1/5 of 1 miners' inch - / 1/250th (.004cfs) cubic feet per second.

3. Source of water supply: Unnamed spring which is a tributary of None

4. Location of point of diversion: feet distant from the

corner of Section , T. , R. , B.M., and is in the SE 1/4 SW 1/4
of section 18 , T. 30 N , R. 1 E. , B. M., County of Idaho

5. Water is to be used for Domestic use

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T. , R. , B.M., in the of Section of , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 40.00 from orchard to house

8. Kind of works: 1/2" pipe from spring to orchard -- 3/4" from orchard to our house

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom fee; width at water line feet; depth of water feet;
dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is 1 years.

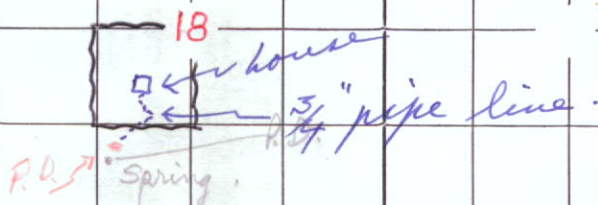

13. The time required for the complete application of the water to the proposed use is 0 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None known

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE OF PROOF APPLICATION
OF WATER TO
BENEFICIAL USE

Notice is hereby given that at 10:00 a.m. on the 10th day of June, 1959, at Cottonwood, County of Idaho, State of Idaho, before Cleo H. Forsmann, proof will be submitted of the application to beneficial use of .004 cubic feet per second of the waters of unnamed spring in accordance with the terms and conditions of Permit No. 27660 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Lola Louise Gentry, Cottonwood, Idaho.

The use to which said water has been applied is domestic.

The amount applied to beneficial use is .004 c.f.s.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) In house at NE 1/4 SW 1/4 of Sec. 18, Twp. 30 N., Rge. 1 E.B.M.

The right to take water from such work is based upon Permit No. 27660.

The source of supply from which such water is diverted is Unnamed spring at SE 1/4 SW 1/4 Sec. 18, Twp. 30 N., Rge. 1 E.B.M.

The date of priority which said user is prepared to establish is Dec. 5, 1958.

GEO. N. CARTER,
State Reclamation Engineer.

Seattle, Wash.
September 13, 1960

Mr. E. N. Humphrey, Deputy
State Reclamation Engineer
Dept. of Reclamation
Boise, Idaho

RECEIVED
SEP 16 1960
Department of Reclamation

Dear Sir:

In regard to your recent inspection
of our spring in Cottonwood Idaho.
We have complied with the law
in every respect in this matter.
We received information as to how
to proceed with this water right
application from the Dept. of
Reclamation office in Boise.

I am enclosing my affidavit
of permission. I can't understand
27060

Why there is no record of this
at the State House

It is clearly stated in the
deed between Mr. W. A. Gentry and
Clarence Lightfield that Mr. Gentry
retained exclusive ownership of
that spring. This is recorded
at the Idaho County Court House
in Shangeville. I do not know
the page number now, but if
it is necessary for you to have
it I can have my mother-in-
law find out for me. Exactly
what information does your office
require for proof of W. A. Gentry's
ownership of this spring?

I hope that this will clear
up any confusion in this matter.
If I had realized there were so
many legal discrepancies which

had not been cleared up at the
State House I would have come
to Idaho for your inspection.

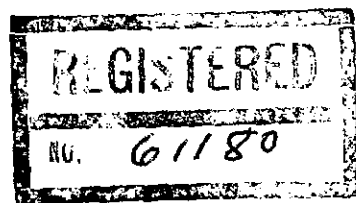

I realize that Mr. Gentry's death
complicates this matter. However
we have been working on this water
right for almost two years.

Please return my permit when
you have completed inspection
of it as I have gone to consid-
erable trouble to get this.

Very truly yours,
Mrs. Lola Gentry
7013 S. 115th
Seattle, 88, Wash.

Re: Permit No. 27660

Mrs. Lola Louise Gentry
211 Park Street
Renton, Washington

Dear Mrs. Gentry:

In checking your permit preparatory to licensing same I find that all requirements of the law have not been complied with.

The permit was issued without your having submitted a notarized "Permission to file upon Spring" by the owner of the land upon which the spring is located. Such requirement may be found in Idaho Code, Sec. 42-212.

In checking the file I find that Mr. A. J. Gentry was advised of this requirement by letter on November 17, 1958.

Next, I find the permit has been issued to you without notarized permission being sent in; but under remarks you have plainly stated that the land on which the spring is located belongs to Clarence Lightfield. Then you state further that ownership of said spring was retained by W. A. Gentry when he sold the land to Mr. Lightfield.

If you can get written and notarized permission to file on the spring by the present owner please do so and send it in right away so that we may proceed with the processing of your permit.

If you wish to claim ownership of the spring through A. W. Gentry it will be necessary to show a copy of the deed or transfer from Gentry to Lightfield, showing the reservation of the right to the spring, and then further show a copy of a legal and recorded transfer or right to the spring from W. A. Gentry to you.

I am indeed sorry that the permit was issued without this requirement having been met, and I hope you have no difficulty in securing the required affidavit.

Yours truly,

GEO. N. CARTER
State Reclamation Engineer

By:

E. N. HUMPHREY, Deputy
State Reclamation Engineer

ENH:ew

P. S. In case your permit has the affidavit properly executed, please send it in for verification after which processing may be continued.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 27660

This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant Lola Louise Gentry

2. Source of water supply: Un-named spring

3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 18

T. 30 N. R. 1 E. B.M. County of Idaho

4. Describe works as they exist, giving dimensions and capacities of same: Box in the spring was so overgrown with Himalaya berries and brush that it was impossible to see it. It was fenced in. Pipe apparently is $\frac{3}{4}$ " galvanized. A pipe line buried most of the distance lead down to a new modern house.

House has complete plumbing. Place has been sold to Leonard Vida and wife

5. Water is used for: Domestic use

6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, T. 30 N., R. 1 E. B.M.

There is one outlet outside for the yard.

An aerial photo was checked in the Assessor's Office in Brangerville. There is not sufficient detail there to be certain re location of P.D. or place of use either.

The region is extremely rough and broken (lava cliffs) and low in value. Very few surveys that have been made are certainly not standard.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Mrs Minnie Maher (mother-in-law) accompanied me on the inspection.

Spring is on property that belonged to Mr. Gentry's father, who is now deceased. Validity of the claim depends upon the legality of Mrs. Gentry's permission to file.

However, locations and everything do appear to be as represented.

This examination was made on the 22 day of Aug., 1960

(Signed) E. N. Humphrey Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mrs. Gentry:

The field engineer will be up your way some time
this summer, however we have no idea of when he can make the
trip. You will be notified of the time.

Your note will be left on his desk for his information.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Gentlemen:

Approximately one year ago I
was issued Water Use Permit

#27660. This was to be converted
to a regular water right following
your inspection of the premises.
Thus far none has made an
inspection.

Now with summer ap-
proaching I suppose the in-
spection will be coming up soon
27660

The Grave Creek road goes down to our place and there will be some one from our family there to represent us if we are notified ahead of time.

It is imperative to me to have this water right completed and issued. So will you please give me some idea as to when the North Dakota inspection trip will be made. We can have some one there on short notice if necessary, but first you must notify us of your intentions.

Hoping to hear from you soon.

Very truly yours

Mrs A. J. Hunt

RE: Permit No. 27660

Mrs. A. J. Gentry
248 $\frac{1}{2}$ Garden Street
Renton, Washington

Dear Mrs. Gentry:

Only one inspection trip was made into North Idaho this year. It came up on rather short notice and there was insufficient time to notify you and receive a reply.

We do not make an inspection without the owner or some one representing the owner being present. Thus yours was not inspected on that trip.

On a map of the county it shows a road running south out of Cottonwood and down Grave Creek. Is that the one that leads to your place? Is it a graveled road or is it impassable part of the year?

Is there some one living on your place?

Who can be there to represent you next spring or summer when the next inspection trip north is made?

These questions may seem odd to you but I assure you it is information we need ahead of time.

The delay in inspection in no way changes the permit or the license you will eventually get.

Your interest in this matter is appreciated.

Yours truly,

GEO. N. CARTER
State Reclamation Engineer

Dear Madam:

Once again I am writing
in regard to Permit #27660.
The Proof of Completion of Works
was made on April 22, 1959.

On June 10, 1959 the final
proof was made in Cottonwood,
Idaho. as I understand it,
all that is holding up the
final water right in this
case is an inspection by the

field engineer. Has a definite date been set yet for the inspection of works?

It has been almost a year since I set about getting this water right. I hope this additional delay by the state field engineer will have no effect on my water right.

I would appreciate hearing from you in regard to this.

Very truly yours,
Mrs. A. J. Gentry

Attn: Mrs Edna B. Rutledge.

Dear Madam:

Approximately one month ago I received a letter from you regarding a set of application papers on Permit # 27660. At that time, you stated an engineer from the Department of Reclamation would make an examination of the grounds.

As I understood the letter, the engineer was to notify me as to the time of inspection. I have heard nothing further on this matter and am wondering what

27660

has transpired.

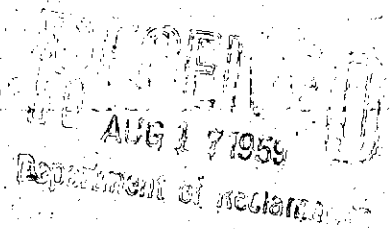

I would greatly appreciate it if someone would inform me if there have been any further developments. As our home is now quite a ways distant from the aforementioned property, it is possible no one would be available to show the engine the grounds if we do not have advance notification.

Thanking you in advance, I am

Re: Permit No. 27660

Lola Louise Gentry,
211 Park Street,
Renton, Washington.

Dear Mrs. Gentry:

We acknowledge receipt of the Deposition of Holder and two Witnesses, also Affidavit of Publication in the Idaho County Free Press, all submitted in Proof of Application of Water to Beneficial Use on Permit No. 27660.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination, so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. ✓ 27660

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ Lola Louise Gentry, 211 Park Street, Renton, Washington,
Housewife,

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. ✓ No. 27660, December 18, 1958, Date of priority December 5, 1958. ✓

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. ✓ Unnamed spring - SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, T. 30 N., R. 1 E., B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. ✓ 1/2" pipe from spring to orchard - - 3/4" pipe from orchard to house.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ✓ In house at NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, T. 30 N., R. 1 E., B. M. for domestic use.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. NA

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. .004 c.f.s.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. NA

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

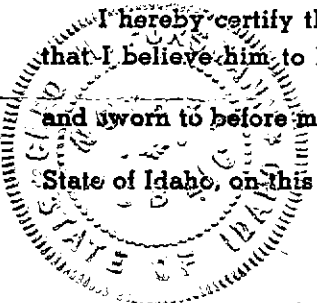

Ans. Water from this spring has been piped to our home and in constant use there for the past 5½ yrs. Pipe size, that is ½" and ¾" as mentioned previously, has been the same over the 5½ year period.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. NA

(Sign) *Lola Louise Gentry*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Cottonwood, County of Idaho, State of Idaho, on this 10th day of June, A. PERMIT NO. 27660

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Bertha Greer, Age 79, Cottonwood, Idaho, Occupation-Retired.

Ques. 2. Are you acquainted with Lola Louise Gentry, the holder of Permit No. 27660? How long have you known him and where does he reside?

Ans. Have known Lola Louise Gentry for six years. She lived in Cottonwood, Idaho, until March 28, 1959, at which date she moved to Renton, Washington.

Ques. 3. Have you read or heard read said Permit No. 27660, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is unnamed spring. Place of Diversion is SE 1/4, Sec. 18, T. 30 N., R. 1 E., B. M. Water works consist of 1/2" pipe from spring to orchard and 3/4" pipe from orchard to house.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Spring furnishes much more than the 1/2" pipe full that is conveyed to this property by the water works mentioned.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic use.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. NA

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. NA

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have lived in this canyon for 48 years. I have been to this Spring on many occasions during this time. I have seen the pipeline mentioned on several occasions since its installation in 1953 and have witnessed use of the water for domestic use many times from 1953 to date.

Cottonwood, Idaho

Dear Madam:

This acknowledges the Notice of Proof of Application of Water to Beneficial Use on Permit No. 27660. The proof is to be made at 10:00 A. M. on the 10th day of June, 1959, before Cleo H. Forsmann, at Cottonwood, Idaho.

As of this date we have mailed the Notice to the Idaho County Free Press, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, at the place, on the date and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 10th day of June, 1959,
at Cottonwood, County of Idaho, State of Idaho, before
Cleo H. Forsmann, proof will be submitted of the
application to beneficial use of 0.04 cubic feet per second of the waters of unnamed
spring in accordance with the terms and conditions of Permit No. 27660
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are
Lola Louise Gentry, Cottonwood, Idaho

The use to which said water has been applied is domestic use

The amount applied to beneficial use is 0.04 cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)
diverted at
SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 18, Township 30 N., Range
1 E. Boise Meridian, County of Idaho. Used in house
at NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 18, Township 30 N., Range 1 E.
Boise Meridian, County of Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is
unnamed - $\frac{1}{2}$ " pipe from spring to orchard - $\frac{3}{4}$ " pipe orchard to house

The right to take water from such works is based upon Permit No. 27660

The source of supply from which such water is diverted is unnamed spring at
SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 18, Twp. 30 N., R. 1 E. B.M., County of Idaho

The date of priority which said user is prepared to establish is _____

State Reclamation Engineer.

Department of Reclamation

Dear Mr. Thompson,

Enclosed are forms #10, #11, and
#6 in regard to water permit
#27660. I am now trying to
complete this water permit
into a licensed water right.

As you will notice my
address at the moment is
Renton, Washington. However
my permanent address is the
same as that on the water permit.
Cottonwood, Idaho.

27660

If any changes or corrections are
necessary on these forms I will be
glad to make them.

Thanking you for your help
in this matter, I am

Very truly yours,

Lola Louise Gentry

January 13, 1959

Re: Permit No. 27660

Mrs. Lola Louise Gentry
Route # 4
Cottonwood, Idaho

Dear Mrs. Gentry:

Answering your inquiry of January 8, 1959, stating that you are in possession of Permit No. 27660 for filing an appropriation on a spring and you wish to know what other steps are required to complete your appropriation into a licensed water right.

You state that your works are completed and you have applied the water to beneficial use, so we assume you are ready to make the necessary proofs.

Proof of Completion of Works should be made out on Form 6, enclosed, filling out the Affidavit in detail and return it to this department with a fee of \$5.00 required in connection therewith.

Proof of Beneficial Use requires publication once a week for four consecutive weeks in a county newspaper. This notice should be made out in duplicate on Form 10 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made. This proof can be made at any place convenient for you and your two witnesses and the time must be set far enough ahead to allow for four weekly publications in the newspaper. Both copies of Form 10 to be returned to this department, together with Form 11, which is the authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of depositions to be executed by yourself and two disinterested witnesses in making the proof.

If you do not wish to make your proofs at this time, you have until December 18, 1959 to make such proof. However, the proofs can be made at any time prior to that date.

Very truly yours,

GEO. N. CARTE
State Reclamation Engineer

Mrs. Edna W. Rutledge
Chief Clerk,
Department of Reclamation
Boise, Idaho

Dear Mrs. Rutledge:

I am in receipt of Water Use
Permit # 27660 approved on
December 18, 1958. I wish to
thank you and all the other
members in that depart-
ment for the work done on
my behalf.

On page four of this permit

27660

dates are given as to work beginning and completion. All the work on this pipe line has been completed and in constant use since July, 1953. I realize that this permit must be made out and followed through by myself according to legal procedure.

Would you kindly take a little more of your time and explain to me the various steps in getting this permit changed to a water right for this spring at the end of the work completion period.

I am very anxious to do the right things on this water permit, but don't know what I should do.

2.

during 1959 to be legally
eligible for ~~an~~ water right.

I hope this explanation
will not entail too much
trouble for you. Thanking
you in advance, I am

Very truly yours.

Re: Application for Permit

Mrs. Lola Louise Gentry
Cottonwood
Idaho

Dear Mrs. Gentry:

We are returning your application for correction, with attached \$5.00 check.

The description of the location of the spring does not agree with the location on the maps. The description given would locate the spring west of the house location shown on the map. The location of the point of diversion on page 1 of the application should only show the "40" acre subdivision and the map shows the location within the subdivision.

There is enclosed a blank Form No. 1 For your use in case you must show a different location of spring in the affidavit on page 3.

Very truly yours,

Geo. N. Carter
State Reclamation Engineer

Dear Sirs:

I wish to file claim to Water Rights to water that is piped to my residence.

The source in this case is a Spring which originates on another persons property and is not used for any other purpose but to supply water to the afore mentioned residence.

The water has been piped and in use in the house for the past Six years.

What is the procedure and/or forms to fillout for this claim?

Sincerely Yours,

A. J. Gentry
