BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 78-07377)
)
IN THE NAME OF JOHNSON ROEHLER TRUST) **ORDER OF**
) **REINSTATEMENT**

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted to the Department on or before May 1, 1998; and,

WHEREAS, the Department notified the permit holder on February 28, 1998, by certified mail that proof of beneficial use was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the the permit lapsed on May 2, 1998, since an acceptable proof of beneficial use or extension of time request had not been received; and,

WHEREAS, Section 42-218a, Idaho Code, provides that the Department may reinstate a permit upon a showing of reasonable cause by the permit holder within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on May 4, 1998;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 78-07377 is **REINSTATED** with an advance in priority to **September 3, 1995**.

PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 78-07377 Telephone No. 805/644-7458

2. Name(s) of Permit Holder(s): JOHNSON-ROEHLER TRUST

3. Mailing Address: 290 MAPLE CT #200 VENTURA, CA 93003

4. Source of Water: BIG CREEK If **GROUNDWATER** (well), Date Drilled: mo. ____ / yr. ____

a. Well Driller: _____ Drilling Permit Number: ____ - ____ - ____

b. **OPTIONAL:**
Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: .20 cfs OR 50 acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device:	Is a measuring device required?	Yes _____ or No _____
	Has the measuring device been installed?	Yes _____ or No _____
Flow Measurement Port:	Is a flow measurement port required?	Yes _____ or No _____
	Has the measurement port been installed?	Yes _____ or No _____

8. Fee Enclosed: \$ 50 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: WM D. FAIRFIELD Telephone Number: ABOVE

Address: ABOVE

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

PLACE OF USE: FIRE PROTECT. FROM STOR, same as RECREATION STORAGE use

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1998.
2. Subject to all prior water rights.
3. Use of water under this right may be affected by an agreement between the protestant and the right holder.
4. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
5. Use of water under this right is subject to control by the watermaster of State Water District No. 78A.
6. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diversion of water under this right.
7. The storage of water under this right is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.
8. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
9. Recreation storage under this permit shall be for non-commercial fish propagation.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

PROOF ACKNOWLEDGMENT LETTER

RE: Permit No. 78-07377

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating the permit since proof was submitted after the proof due date. Note that the priority date has been advanced to September 3, 1990, as provided in Section 42-218a.2, Idaho Code.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, you may contact the **WESTERN** Regional Office of the department in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 78-07377

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 78-07377

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

Sincerely,

Shelley Walter Keen

Re: Applications for permit nos. 78-7377, 78-7379, 78-7380

Dear David,

This is a letter to confirm our conversation concerning the recommended restrictions from Tracey Trent, Regional Supervisor Idaho Fish & Game, dated Feb 27, 1996.

It is my belief that with these restrictions will still allow us to achieve our goals and they are acceptable to us.

Sincerely,

JR Henry special trustee

Dear Mr. Henry:

This letter is to acknowledge receipt of your letter accepting the
restrictions by the Idaho Fish & Game, on the above-referenced
applications.

We will amend the applications to include these restrictions.
Since Idaho Fish & Game agreed to withdraw their protests if the
restrictions were accepted, we will now continue processing the
applications.

If you have any questions in the above-referenced matter please
call this office.

RE: Protests of Water Right Applications Nos. 78-07377, 78-07379, and 78-07380; Johnson-Roehler Trust

Dear Mr. Tuthill:

The Idaho Department of Fish and Game has recently discussed the protests of the above listed water right applications with Jay Henry, trustee for the Johnson-Roehler Trust, and we have tentatively agreed to conditionally withdraw our protests if the following stipulations are met and attached as conditions to the water rights.

In regards to water right applications 78-07379 (Thrush Creek) and 78-07380 (unnamed tributary to Thrush Creek), the Department does not object to the amount of water applied for, but the water rights should be amended to allow for diversion only during the high flow period of April, May, and June. This would eliminate significant adverse impacts to resident fish.

In regards to water right application 78-07377 (Big Creek), the Department will conditionally withdraw our protest if the amount of water applied for is reduced from 1.0 cfs to not more than 0.2 cfs and withdrawal only occur during the high flow period of April, May, and June. Again, this would eliminate significant adverse impacts to aquatic resources but still allow the applicants to achieve their goals.

On August 31, 1995, Johnson-Roehler Trust filed with the Department of Water Resources an application for permit to appropriate the public waters of the State of Idaho. The application was protested by the Idaho Department of Fish & Game.

The Department has set the matter of protest for a telephonic conference to be held on Tuesday, March 5, 1996, at 10:00 a.m. The applicant will be able to participate in the conference at either the Idaho Department of Water Resources, Western Region, 2735 Airport Way, Boise, Idaho 83705, or at the Idaho Department of Fish & Game, 555 Deinhard Lane, McCall, Idaho 83638. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 40 and 45 of the adopted Rules and Regulations of Water Appropriation of the Department of

MAY 22 1996

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) Does the applicant have sufficient financial resources with which to complete the proposed project?
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The Applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above and must provide evidence for the department to evaluate these criteria.

The initial burden of proof on issue 5 above lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant. the applicant has the ultimate burden of persuasion, however, for this issue.

PROCEDURE

The department generally conducts an informal conference with the parties to determine the issues and to try to settle a protested matter before a hearing is scheduled. If a hearing is held, the department will issue a written decision based on the hearing record.

CONFERENCE

The purpose of a prehearing conference is to provide the opportunity for the parties and the department to familiarize

MAY 22 1996

themselves with a contested matter and to attempt to resolve the matter. At the conference, the department may also formulate and simplify the issues, identify documents to avoid unnecessary proof, exchange proposed exhibits or prepared testimony, limit witnesses, discuss settlement offers, schedule hearings, establish procedure at hearings and address other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

HEARING

The department will tape record the hearing. Copies of a hearing tape are available upon request and the payment of the cost of reproducing the tape.

The hearing likely will be conducted by a hearing officer appointed by the Director rather than the Director himself. If so, the hearing officer will prepare a recommended order for the Director's consideration. Parties can file exceptions to a recommended order, briefs in support of the exceptions or may request oral argument. Parties may seek judicial review of any final order issued by the Director.

Parties may be written stipulation waive their right to a recommended order, particularly when a shortened decision process is desirable or necessary. Such a waiver does not eliminate any rights of the parties in connection with the final order of the Director and judicial review of the order.

EXHIBITS

A party who plans to offer an exhibit as part of the hearing record must provide a copy of the proposed exhibit to the parties and to the hearing officer.

AMERICANS WITH DISABILITIES ACT

Any hearing scheduled will be conducted in a facility which meets the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the hearing please advise the department within ten (10) days prior to the hearing.

Re: Applications for Permit Nos. 78-7377, 78-7379 and 78-7380

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced applications. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

Please contact this office if you have questions regarding this procedure.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

Re: Applications for Permit Nos. 78-7377, 78-7379 and 78-7380 in
the Name of Johnson Roehler Trust

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

RE: Applications for Water Right Nos. 78-07377, 78-07379, and
78-07380 in the Name of Johnson Roehler Trust

Dear Mr. Tuthill:

The Idaho Department of Fish and Game (Fish and Game) wishes to protest the issuance of pending water right applications Nos. 78-07377 (Big Creek), 78-07379 (Thrush Creek) and 78-07380 (Unnamed Stream) in the Little Salmon River drainage due to potential adverse impacts to aquatic/riparian resources including native wild fish. We **do not** object to application No. 78-07381 (Groundwater). Enclosed find our protest fee of \$75.00. We request a receipt for accounting purposes.

We do not object to development of the ponds, but we will object to the period of use stipulated as year-round if it results in complete or significant dewatering of the channels to the detriment of aquatic resources. In order to resolve Fish and Game concerns, we recommend the applicant consider modifying the period of use so water is diverted only during high flow periods or for fire protection as needed, or reasonable bypass flows are provided. Continual diversions during base flow conditions (summer, fall, and winter) could result in significant loss of habitat for aquatic species and perhaps eventual loss of these resources.

FILE JOHNSON ROSSLER
TRUST Appls.

NAME OF PARTY JAY Henry - PER office
visit

EMPLOYEE FIVE LATER

RE: Processing

① JAY Henry of Whitney Ranch is Special Trustee of J-R Trust.

② 78-07377 pond will be developed on site already irrigated by Big Creek & / or Brannan Res. water. No net change in surface water used consumptively (at least, no increase). OK to advertise.

③ 78-07378 pond not on land already irrigated. It can provide info & nature of site, i.e., already is wetted area although now-irrig. - can consider for approval. Remains on Moratorium Hold.

④ 78-07379 OK to advertise since pond size exempted. ($\leq \frac{1}{2}$ Acre surface area).

⑤ 78-07380 Runoff as available through & mid June to augment pond that will be mostly filled by well right (78-07381). Possibly could be approved since minimal impact on fisheries anticipated. OK to advertise for dept. consideration.

⑥ 78-07381 well to pond (same pond as - 7380) - OK to advertise.

will provide subd. plat soonest

RE: APPLICATION FOR PERMIT NOS. 78-07377 THROUGH 78-07381

Dear Applicant:

Your recent applications for the above-referenced five water right permits were received at this office on August 31, 1995. Two of the applications can be processed without delay but the remaining three cannot be processed now.

APPLICATIONS TO PROCESS

1. Application No. 78-07379 for a small pond on Thrush Creek can be processed as an exemption to the Salmon River Moratorium. The moratorium is discussed later in this letter.
2. Application No. 78-07381 for a well can also be processed. The moratorium does not apply to ground water development. Additional information is needed for the well proposal. The well will provide water to a pond, and the "diversion to storage" component of the water use from the source to the pond must be added to the application. This means that a rate of flow should be included on the application; up to .20 cfs (about 90 gpm) could be added based on the \$50 fee paid for this filing. If you want to pump at a higher rate from the well, you need to let me know and also to pay any additional fees.
3. For all of the applications filed, please identify the party who signed the applications (cannot read signature). Also, please provide a copy of the subdivision plat or plats since all five applications refer to uses within a proposed subdivision(s).

APPLICATIONS SUBJECT TO PROCESSING DELAY - SALMON RIVER MORATORIUM

Due to concerns about water supplies, existing water rights, and impacts of new development on anadromous fish migration, the Director of this agency declared a moratorium on approval of applications for surface water in the Salmon River drainage in May, 1992. The moratorium applies to new consumptive uses not in place prior to November, 1987. Water storage beyond a minor amount is a consumptive use subject to the moratorium.

MAY 22 1996

Johnson-Roehler Trust
October 5, 1995
Page 2

The applications subject to the moratorium include the following: No. 78-07377 for Big Creek in Section 5, No. 78-07378 for Big Creek in Section 8, and No. 78-07380 for an unnamed stream that will serve the same pond as the well application (No. 78-07381). The three moratorium filings will be held at this office pending changes in the moratorium as determined by the Director. Delays related to department decisions do not affect the date of priority of an application. You will be informed of any moratorium changes.

To facilitate processing of the two applications that can move forward, please provide your response to item nos. 2 and 3 above within 30 days. Let me know if I can help you in this matter.

Sincerely,

Steve Lester
Water Rights Supervisor
