RE: WATER RIGHT NO. 78-07375

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

JUN 10 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

ALERT 12-1
JUN 10 1968

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: Water Appropriation Permit 78-07375

Dear Doug:

Thank you for calling the other day to discuss your water right filings. This morning I received your Application for Amendment for Permit 78-07375, but the required filing fee of \$50.00 was not included. As indicated in my previous two letters, the filing fee must be paid before we can process the amendment application and issue your water right license. If I do not receive the filing fee within 14 days, I will assume you have no further interest in this permit, and I will initiate cancellation proceedings.

If you have any questions regarding this matter you may call me at 208-327-7946.

Sincerely,

Dear Permit Holder(s):

I previously forwarded to you an Application for Amendment so that you could amend your permit to depict your water right as it has been actually developed. I have not yet received the amendment. If I do not receive it within 14 days, I will assume you no longer have any interest in the permit and cancellation proceedings will begin.

Enclosed for your convenience is another amendment form. Please note that the filing fee for this amendment is \$50.00. If you have any questions, please call me at (208) 327-7946.

RE: WATER RIGHT NO. 78-07375

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that your place(s) of use is in a location other than what was described on your permit. Therefore, before a license can be issued, the permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form depicts the place(s) of use and other information as it will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7946.

Sincerely,

MEMORANDUM

TO: File 78-07375

FROM: Sharla

DATE: January 29, 1998

RE: Recommendation Adjustment(s)

The final license recommendations for Permit No. 78-07375 are based on the following:

A. GENERAL INFORMATION

3. Source: spring tributary to Little Salmon River

C. DIVERSION AND DELIVERY SYSTEM

1. Point(s) of Diversion:
T24N, R1E, S32 - NENE

As indicated by the examiner, right 78-07243A uses the same pipeline and storage tank as this permit. In fact, the diversion system is the same. A license was issued for 7243A in 1995. Part B has been reviewed simultaneously with this right. All three use the same diversion system, with a capacity of 0.04 cfs. The two rights to be licensed will be conditioned to limit the combined rate of diversion under all three to 0.04 cfs.

The source shown by the examiner for 07243A/B is a spring which rises in Alum Creek. USGS topo maps do not have a source of Alum Creek. The diversion is within what is labeled as Alum Gulch. To be uniform, a source of spring will be listed on the two rights to be licensed and a remark will note that the spring rises in an intermittent stream which is locally known as Alum Creek and is shown on USGS maps as Alum Gulch.

To be uniform in the p/d description, the legal description for the p/d will remain as the NENE as originally filed and confirmed in the exam report for parts A & B of 07243. Using the lengths of pipe identified by the examiners, the point of diversion and place of use should both be in the NENE.

E. NARRATIVE/REMARKS/COMMENTS

1. The water system consists of a diversion from Alum Creek using a buried perforated 5 Gal. bucket as an intake; a $1\frac{1}{2}$ " PVC + 1" PE (at tank) pipeline to a buried Steel Storage tank. The overflow from the storage tank is piped to the two stock troughs for this permit. Another pipeline from the bottom of the storage tank supplies domestic water to a Mobile Home for 78-07243A.
2. The flow was measured at the storage tank at 2 GPM, but the system supplies more water during the spring and summer.
3. The exam was conducted on 9-17-97 but the photos were taken later on 9-30-97, because the camera would not operate on the 17th.
4. The Mobile Home for the domestic WR # 78-07243A is owned by Ted + Peggy Wilks. It was being leased by Bob + Nancy Zuercher at the time of the exam. Doug Boggan was not available for the exam.
5. 200 Head of Stock (cattle) use the water for about 6 months / year.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 78-07375

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's WESTERN Regional Office in Boise at (208) 334-2190.

Sincerely,

JULIE L. YARBROUGH

Dear Permit Holder:

I have returned a copy of the Proof of Beneficial Use statement you submitted in connection with the above referenced water right permit. The proof as filed is not acceptable since was not accompanied by the \$50.00 license examination fee. Permits which divert 0.04 cfs or less from a ground water source are exempt from the filing fee, however, you are diverting water from a surface water source and are not exempt from the fee.

Please return the copy of the proof form along with the \$50.00 license examination fee within **30 days** of receipt of this letter. **Please address your correspondence to my attention.**

Please contact me at (208)327-7953, if you have any questions regarding this matter.

PROOF DUE NOTICE

RE: PERMIT NO. 78-07375

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 78-07375

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.
