Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Dear Mr. Higginson:

We are writing to protest Application for Permit No. 78-7368 filed by Brundage Mountain Company. The Applicant proposes to divert 0.20 cfs from groundwater for commercial and domestic use. The bases for the protest are as follows:

1. The Applicant is a permittee that operates a ski facility on National Forest lands. Forest Service policy is that water rights associated with this type of development be held in the name of the United States.
2. The Applicant identifies the property owner at both the point of diversion and point of use as being the Applicant. The Applicant is not the landowner as the lands are National Forest lands.

We recommend that no action be taken until the Forest can meet with the Brundage Mountain Company to bring the Application to conform with Forest Service policy.

Sincerely,
