CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

RE: WATER RIGHT NO. 78-07361

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

RECORDED
JUN 10 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

NOTED 1245L

JUN 10 1968

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Shelley W. Keen

MEMORANDUM

DATE: April 29, 1998
TO: File No. 78-07361
FROM: Cindy Lou Zimmerman *3.*
SUBJECT: Review of Beneficial Use Field Report

The examiner found that water is diverted from Round Valley Creek via a ditch to this off-stream pond. I recommend diversion to storage use be included on this right.

The examiner also incorrectly calculated the annual volume.

The following adjustments¹ were made on the field report to reflect department standards and licensing practises for uses developed under this permit:

G. Volume Calculations.

- a. Pond, round with sloping bottom.
 $V = \{[(\text{length} \times \text{width}) + \text{sq. ft. in acre}] \times \text{depth}\} \times 0.4$
 $= \{[(30 \times 50) + 43,560] \times 2\} \times 0.4$
 $= 0.03 \approx \underline{0.1} \text{ AF.}$
- b. Aesthetic use.
 $V = \text{cfs} \times \text{days per year} \times 1.9835$
 $= 0.20 \times 365 \times 1.9835$
 $= \underline{144.7} \text{ AF.}$

H. Recommendations.

1. Recommended amounts:

Beneficial Use	Period of Use	Rate of diversion	Annual Volume
Fire Protection Storage	1/1-12/31	---	<u>0.1</u> AF
Aesthetic	1/1-12/31	0.20 cfs	<u>144.7</u> AF
Aesthetic Storage	1/1-12/31	---	<u>0.1</u> AF
<u>Diversion to Storage</u>	<u>1/1-12/31</u>	<u>0.20</u> cfs	---
Totals:		0.20 cfs	<u>144.7</u> AF

Examiner: Dan Tomich
Examined: September 9, 1997

¹ Adjustments are bolded and underlined.

D. FLOW MEASUREMENTS

JUN 10 1998

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: At Pond outlet - $\downarrow$ 0.24' water depth
 Stoplog Control Structure
 and 24" cmp outlet pipe: $\leftarrow$ 3' $\rightarrow$

Using Rect. Weir Tables, $Q = 1.16$ cfs

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for one storage pond used for Aesthetics and Fire Protection. Although not on the permit, the pond is also used for stockwater and as a source for irrigation water.
2. The P/D on Round Valley Creek is a concrete structure with a 6' wide stoplog diversion in the creek, and an 18" cnp pipe to the feeder ditch for the pond. The pond receives water from the feed ditch through a cnp pipe under a road, and a little overflow water from another pond built under WR# 78-07350. The pond has a 3' wide x 2' high stoplog outlet with a 24" cnp pipe that drains back to Round Valley Creek. The drain ditch water can be diverted for irrigation at a concrete control structure downstream of the pond outlet. The pond also feeds another irrigation ditch on the southeast side.
3. At the time of the exam, there was no inflow from the other pond (WR 78-07350), and no flow into the southeast irrigation ditch. All the diverted water was flowing through the stoplog outlet and was measured at 1.6 cfs.
4. It is likely that the P/D structure in the creek and the feed ditch were built prior to the construction of the pond as part of the irrigation facility. ~~for~~
Have conditions of permit approval been met? ☒ yes ☐ no
JUN 10 1983
the land. The pond was built on the alignment of the ditch, and after the pond for WR 78-07350 was built. There should be an old irrigation right for this same creek diversion, but no records found.

RE: Address Change

=====

Western Region office forwarded a change of address notification they had received from the right holders. The routing slip "special notes" stated **no AJ claims** and listed the water right numbers as shown above.

I have made the corrections to each file in the WR2 screen.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 78-07361

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, contact the **WESTERN** Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 78-07361

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', with a horizontal line extending to the right.

JIM JOHNSON, Manager
Water Right Permits Section

Published in The Record 9/ 8/1994 & 9/15/1994

LEGAL NOTICE

NOTICE OF CORRECTION OF APPLICATION FOR PERMIT

Notice is hereby given that on August 4 and 11, 1994, Application for Permit No. 67-7968 in the name of John &/or Faye Weis was advertised in error.

The Point of Diversion was advertised as SENESE Sec. 25 T17N R01W in Adams County. Whereas, the Point of Diversion should have read NWSESE Sec. 25 T17N R01W in Adams County.

The permit will be subject to all prior water rights. Protests must be submitted based on the criteria of Sec. 42-203A, Idaho Code. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 on or before October 3, 1994. The protestant must also send a copy of the protest to the applicant.

S/R. Keith Higginson, Dir.
