Subject:

SPLIT RIGHT & MORATORIUM

This right results from split of appl. 78-07356 per 5/2/94 letter. Irrigation in 78-07356 remains on hold due to Salmon R. Moratorium while 78-07357 for stockwater can be processed as an exemption. Original \$45 fee in 78-07356 now covers both appls. Stock appl. ^{MY} must be re-advertised since original ad for both uses only listed one QQ in P/U (dept. error so no fee needed).

RE: WATER RIGHT NO. 78-07357

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

JAN 31 2010

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for stockwater from the Little Salmon River. The livestock are the same as for WR 78-07363, which is a well and pipe system.
2. A portable pump unit is set near the river, and pumps river water through a 2" PE pipe to a single stock trough. The pump has a 2" intake line from the river, and the 2" discharge pipe is placed on top of the ground.
3. The water is for 100 range cattle in the winter/spring, and 5 horses throughout the year. The Proof shows ~~50~~ 50 head of cows + calves - this would be the 100 head of range cattle.
4. There is only one Pile in SWSE, one stock trough, at this time.
5. This system is separate from the well system under 78-07363.

Have conditions of permit approval been met? ☒ yes ☐ no

MICROFILMED

RE: FIELD EXAM REQUESTS FOR PERMITS 78-07357 AND 78-07363

Dear Permit Holders:

This office received your request several months ago to conduct licensing field examinations on the above referenced water right permits. The request was relayed via the department's Coeur D'Alene office.

Permit 78-07357 covers river water for stock water use. Proof of beneficial use for this permit was filed last autumn. The proof filing indicates that development of the surface water system has been completed and is ready for examination.

Permit 78-07363 includes ground water for irrigation and stock water uses. An extension of time was approved to allow development of the ground water system to be completed by December 1, 1998. You may file the proof of beneficial use for this system once it is fully completed -- the proof filing should be completed by the December 1998 deadline since another extension of time would be difficult to obtain.

A field examiner from this office will contact you once the proof of beneficial use for permit 78-07363 is filed. In that manner, both of your water systems can be examined and licensed together. However, if other field work is scheduled in your area before then, the examiner might contact you to complete the field work on the river system before the ground water system is completed and ready for inspection.

Please contact this office if you have any questions about the process I have described. Also note that a proof of beneficial use form is included for your convenience if you choose to file that form before December, 1998 for permit 78-07363.

Sincerely,

Steve Lester
Water Rights Supervisor

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 78-07357

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

MEMORANDUM

TO: File No. 78-07357
FROM: Julie Yarbrough
RE: Extension of Time
DATE: October 3, 1996

On October 2, 1996, the permit holder phoned to inform me that the extension of time she filed (and was granted) for Permit No. 78-07357, was meant to be filed for 78-07363. She has completed development on 78-07357. I told her that she could submit a new extension request for 78-07363 and we would apply the filing fee from the previous extension request. She will be submitting proof on 78-07357 along with the \$50.00 license exam fee.

RE: Permit No. 78-07357

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended to **September 1, 1998**. Please note that the department has granted this extension based on **due diligence**. It is important that you work diligently toward the completion of the development during the construction period allowed since the department **will not** be able to grant additional extensions based on due diligence.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

Please contact me at (208)327-7953 if you have any questions regarding this matter

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

POLLOCK ID 835470187

PROOF DUE NOTICE

RE: PERMIT NO. 78-07357

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1996. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 78-07357

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Re: Application for Permit No. 78-07356

Dear Applicants:

As noted in a recent letter to you from this office regarding your application for water right permit for irrigation and stock water from the Little Salmon River, the application is being held due to the Salmon River Moratorium. However, a portion of the filing can be approved as an exemption.

Stock water use is approvable at this time, but the irrigation component must be held until the moratorium is revised or lifted. It is not known when such a change might occur. Unless I hear from you by letter or telephone call by May 13, 1994, I will assume that your application should be split into two parts. The stock part can be processed for approval, and the irrigation part will be held until further notice.

Should the split occur, the stock water portion will be assigned a new water right number. Irrigation will remain as number 78-07356.

I can be reached at the above address or by calling 334-2190. You can leave a message for me if I am not available.

Sincerely,

Steve Lester
Water Rights Supervisor
