SALMON RIVER MORATORIUM AND OTHER INFORMATION

Drilling permit 78-93-W-0004-000 issued to applicant for domestic well (\$35). User will need to pay \$165 balance in drilling permit before this right could be licensed.

Per well log & water right application, well is 33' deep with 6' static level and located immediately adjacent to Rapid River. Use of this well for irrigation will undoubtedly involve use of river water and eventually may need to be conjunctively managed with surface water.

The Salmon River moratorium does not explicitly cover a situation like this in which an impact most likely (undoubtedly? well cased to 31' per log) will occur for Rapid River due to ground water pumping for consumptive use. Application advertised and processed due to the preceding information.

Application probably supplemental to 4.5 acres in 78-07325, irrigation from Rapid River filed by same owner in 1991.

A 6" well equipped with a ½ hp submersible pump supplies water to a 1500 gallon storage tank via 2" buried main line. The well is located 615' West of the storage tank and P/U. From the storage tank, a 3 hp pump, a 1 hp pump, and a ½ hp pump are used to pump the storage water for irrigation of the 2 acres with a buried rainbird sprinkler system. Because less than 5 acres are irrigated and because there is sufficient pump capacity, 1.5 inches/acre were recommended for the two acres. Rush Creek water, per license 78-7325, is also licensed on the two acres. Applicant stated that he preferred to use ground water because surface water clogs his irrigation system. A separate well is used for internal domestic use. No other water rights are used.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 78-07352

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. PROOF DUE NOTICE

RE: PERMIT NO. 78-07352

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Drilling permit 78-93-W-0004-000 issued to applicant for domestic well.

Per well log & water right application, well is 33' deep with 6' static level and located immediately adjacent to Rapid River. Use of this well for irrigation will undoubtedly involve use of river water and eventually may need to be conjunctively managed with surface water.

Application probably supplemental to 4.5 acres in 78-07325, irrigation from Rapid River filed by same owner in 1991.

Date: 03/04/1994 User-ID: ZIMMERMA Subject: MORATORIUM EXEMPTION

This permit is located within the Salmon/Clearwater Rivers Moratorium; however, its groundwater source is within the acceptable parameters of the moratorium exemption.

Date: 03/04/1994 User-ID: ZIMMERMA Subject: P/D OWNERSHIP

The point of diversion is located on land owned by Cross O Ranch Inc.
