22N 01E 26

SWNW

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Subject: MISC. INFORMATION

Same P/D as A78-4002A. This is a ditch with at least one lateral that delivers water to applicants' property. Headgate is found on applicants' lateral. Pond has been dug, and return flows go to creek just below applicants' land. No new works will be installed at P/D and thus P/D owners permission/access is N/A in this case. Water from main ditch has flowed through applicants' land for at least several years. Surface area of pond is less than 1/2 acre. P/U is same as 78-07334.

(ENTER=Continue/Exit) (Gold2=Update) (Gold3=Delete) (Gold4=Prev) (Gold5=Next)

* HAS been routing water through applicants' place for several years. Dug pit so ~~water~~ goes into pond now. ~~Water~~ continues to creek. Lateral

RE: APPLICATION FOR PERMIT

Department of Water Resources

Dear David and Teri:

Based on a 1995 field examination of your Elk Creek permit no. 78-07343 (pond), it appears that additional water right coverage is required for other uses already in place or uses that are anticipated for Elk Creek water. The examiner found that a pipe from the diversion ditch can supply water to two horses and your yard, which does not exceed one-half acre.

These additional uses can be covered by obtaining an approved water right permit. Such limited use can be approved as exemptions to the Salmon River Moratorium that has been in place since 1992. The enclosed application form for yard and stockwater uses is mostly completed for your convenience. The items to complete are as follows:

#7 - time required to complete; since uses are already developed, the minimum answer of one year makes the most sense.

#13 - signature and \$50 fee are needed.

Please be sure to review the application information to see that it is accurate and make any necessary changes.

If you intend to develop irrigation beyond the one-half acre maximum that can be approved within the moratorium exemption, another filing should be made. A blank form is enclosed for this reason. You could file for .03 cfs per acre for up to five acres, or for .02 cfs per acre for more than five acres. A separate \$50 fee will cover up to .20 cfs, which is the maximum for ten acres of irrigation.

This second filing for irrigation purposes cannot be processed due to moratorium restrictions but at least a priority date could be established by filing the application. This would "reserve your place in line" should any changes occur in the Salmon River Moratorium.

Please remember that use of Elk Creek water for anything beyond the pond use must be considered as an illegal diversion unless additional water right protection is secured as already discussed. I will be glad to help you if you have any questions about these possible applications.

Sincerely,

Steve Lester
Water Rights Supervisor

* documentation a possible illegal diversion(s)
filed in Region file pending response
to this letter.

2. Measurements: Piggy Meter 090175 for no-name ditch @
high flow = 1.42 cfs.

E. NARRATIVE/REMARKS/COMMENTS

- No govt. lots were found.
- Overlaps for P/D were other sources, & the same main lateral source, only at the bottom of the lateral & dependant on water use up-line.
- Overlaps for P/U were other land ^(summering) &/or other uses.
- Use is Recreation Storage, ^(summering) Fire Protection Storage w/ a 60'x40'x7' pond, & Diversion to Storage dependant on users up-line. (1.42 cfs was measured, but stated this was a high flow). Other uses: fire protection, ~~pot~~ pump)
- The P/D is between NESW, SESW, 1/4 1/4, on the line. There is only 1 P/D.
- Other water source available: Domestic well.
- The system consists of a lateral w/ its headgate off Elk Creek; other headgates to divert off this main lateral to other users on A78-4002A, & then depending on up-line users, the rest of the flow comes down-line to the P/U of a 60'x40'x7' pond, w/ the overflow going back out to the Elk Creek.

Have conditions of permit approval been met? ☒ yes ☐ no

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 78-07343

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

Julie Jarbrough

Regarding permit # 78-07343
Proof due notice for 217

I am writing in
hopes of getting an
extension on the fee
due for field examination.
The project is fully
completed but as my
husband and I are
laid off at this time
money is really tight.
Please let me know
if this delay in
payment is possible.

Thanks for your time

RE: Permit No. 78-07343

Dear Permit Holder:

Regarding your letter to the department dated January 3, 1994, the department is not authorized to grant an extension of the license examination fee. However, there are a couple of options for you to consider.

Your first option would be to not file your proof and let the permit lapse. You would then have sixty (60) days after your proof due date to reinstate your permit before it dies. The disadvantage to doing this is that the priority of the permit would be advanced every day the proof is late.

Your second option would be to request an extension of time to extend the date in which to submit your proof of beneficial use. I have already filled out the extension request for you if you chose this route. You will need specify why the request is needed, sign the extension and return it with the \$15.00 fee. I would recommend the second option since your date of priority is crucial in acquiring your water.

If you have any questions, please do not hesitate to call me at (208)327-7953.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 78-07343

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 78-07343

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Sincerely,

A handwritten signature in cursive script that reads "Brenda L. Miller".
