E. NARRATIVE/REMARKS/COMMENTS

Previous IDWR exam located point of diversion (78-07345, exam conducted 04/23/1996). Source is unnamed stream, which applicant indicates is known locally as Sater Creek. However, statutory claim 78-04011 describes Sater Creek in sections 15 and 14, which is a drainage away from the creek identified by the applicant as Sater Creek. The applicant indicated that the creek in sections 14+15 is known locally as Bill's Creek ~~Bill's~~ (Will's Creek on application 78-07310).

Source listed on permit was not developed. Diversion in NE1/4 of S.15 is piped to cement box in SE1/4SW S.15. A black PVC pipe leaves the cement box and runs directly downhill. Water is used to irrigate lawn + garden associated with the house. Total area irrigated is 220 ft by 99 ft (21780 ft^2), $1/2$ acre.

This development is represented by SRBA claim A78-04011. The SRBA claim differs substantially from the statutory claim but the claimant has indicated that all changes took place previous to November of 1987. Changes include change in POB, change in source (see discussion above) and change in place of use.

Domestic well for internal use; permit no. 78-89-C-0005-000.

Recommend relinquishment - permit has not been developed.

Have conditions of permit approval been met? ☐ yes ☐ no

Dear Mr. Pearson:

We are in receipt of the correspondence assigning the above referenced permit to James Campbell and Sariak Enterprises in McCall, Idaho.

Because a permit is considered personal property, we carefully scrutinize forms that involve the changing of ownership. The signature on the assignment form we received does not match those we have on file for you.

I am returning the assignment form we received and enclosing another one for you to complete and return to me.

If you have any questions, please contact our office.

Sincerely,

Brenda L. Miller

PROOF DUE NOTICE

RE: PERMIT NO. 78-07310

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

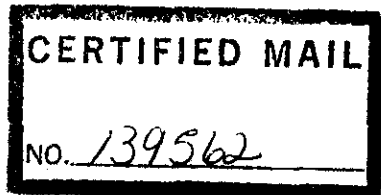

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time.
The time within which to submit proof of beneficial use is
extended to December 1, 1992.

Please note that the department has granted this extension based
on due diligence. It is important that you work diligently toward
the completion of this project during the construction period
allowed. The department may not be able to grant additional
requests.

If you have any questions or if I can be of any further
assistance, please feel free to contact this office.

Re: Permit Holder 78-07310

Dear Mr. Pearson:

In reviewing your request for extension of time, I have discovered that more clarification is needed.

If all work has been completed, can you please explain why you did not file a proof of beneficial use. When you file the proof of beneficial use accompanied by the fee, our department will then make arrangements to conduct the field exam. I believe that you need to complete a proof of beneficial use form.

Since you completed the request for extension of time, I can only assume that you wish to employ your own certified water right examiner to complete the field exam. If this is the case, please notify this office and I will complete the extension review.

I have enclosed another proof of beneficial use should you wish to file. In order to protect your priority date, it will be necessary for you to return your reply within 15 days of the date of this mailing.

I realize that this can be confusing, so if you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

RE: PERMIT NO. P78-07310

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
