EDD/EEDD

GASOLINE POWERED, SELF-PRIMING CENTRIFUGAL PUMPS

Cat. No. EDDH

495⁰⁰

Sta-Rite Engine Driven centrifugal pumps are portable. Powerful 4-cycle gasoline engines get the job done faster and more efficiently where electrical power is not available. Pumps are made of rugged cast iron.

SELF-PRIMING — New tank body eliminates the need for re-priming.

MECHANICAL SEAL — Drip-proof, corrosion-resistant seal never needs adjustment.

SEMI-OPEN IMPELLER — Provides low friction water flow and greater efficiency.

COMPACT DESIGN — Pump and engine are close coupled on all-steel base . . . only 16" long, 14" wide, and 13 1/8" high.

4-CYCLE ENGINE — World renowned, dependable, performance proven engine.

NOV 22 1989

Sta-Rite Design Series EEDDH self-priming engine driven centrifugal pumps are designed for easy replacement with any gasoline powered engine. Special design engine with threaded impeller shaft is not required.

SELF-PRIMING — Built-in check valve eliminates the need for re-priming.

MECHANICAL SEAL — Drip-proof, corrosion-resistant seal never needs adjustment.

SEMI-OPEN IMPELLER — Provides low friction water flow and greater efficiency.

4-CYCLE ENGINE — World renowned dependable, performance proven engine.

STUB SHAFT FEATURE — Allows easy replacement with any gasoline powered engine.

REPLACEABLE DIFFUSER — Allows restoring full performance without replacing entire pump body when pumping abrasive or corrosive solutions.

COMPACT DESIGN — Pump and engine are close coupled on all-steel base . . . only 18 1/16" long, 14" wide and 13 1/8" high.

Sta-Rite EEDD Series pumps are available as a "pump only" unit. Identical in design to the stub shaft pump offered with engine as described above. Ideal pump for 5/8" or 3/4" shaft gasoline engine driven applications.

WATER RIGHT LICENSE

WATER RIGHT NO. 78-07299

Priority: September 7, 1988

Maximum Diversion Rate:

0.03 CFS

Maximum Diversion Volume:

0.3 AF

This is to certify, that AL G PRESTON
PO BOX 1112

RIGGINS ID 83549 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 8, 1988; and has submitted Proof of Beneficial Use on April 1, 1991. An examination indicates that the works have a diversion capacity of 0.540 cfs of water from:

LITTLE SALMON RIVER

tributary to SALMON RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.03 CFS	0.3 AF

LOCATION OF POINT(S) OF DIVERSION:

SESE , Sec. 27, Township 22N, Range 01E
IDAHO County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
22N	01E	27	SESE	0.1		0.1

Total number of acres irrigated: 0.1

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs nor more than .3 afa for the land described above.

To provide additional time in which to submit proof
of beneficial use for a water right permit

For Office Use Only
\$15 FEE Received by
Date 10/15/90
Receipt # CD18590

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 78-07299

Name(s) of Permit Holder: Al G. Preston

Post Office Address: Box 125

Four Lakes, Wa., 99014

Telephone No. (509) 838-8164

Date Proof is Due: Nov. 1, 1990

Describe what work has been completed toward the development of this water right: The Sta-rite 3 HP pump
(This must be filled out! If no work has been completed, show "none".)

that I had bought for this project in 1989, was stolen this year, after shipping
it to the property: I purchased a new 10M Jacuzzi 5 HP, 2 in. suction & discharge
pump, have pump and pipes ready to go, but cannot finish the project this year
because of an injured back.

A 160 foot well has been drilled by Uhlenkott Drilling, firm No.: 125, Rt. #1

Box 20, Fenn, ID., 83631

Costing \$ 2046.09

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

I injured my back 6 months ago and am now recovering fairly well; I just
moved to Spokane, WA., and will now be able to finish that project in the
spring of 1991.

Permit holder(s) request an extension to Nov. 1, 1991
(1 yr. minimum)

Al G. Preston, C.F.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 78-7299, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 19 89.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

NOV 15 1995

E. NARRATIVE/REMARKS/COMMENTS

- Overlaps for P/D were other sources; overlaps for P/U were other land +/or other uses.
- No govt. lots were found.
- The system consists of ~~a SHP pump~~ 12.5' 2" PVC + 22.5' 2" ABS diverting water from the Little Salmon River ~~to~~ by means of a SHP pump, Briggs + Stratton pump, then 30' of 2" ABS pipe to a riser with a shut off valve. From the riser, garden hoses are used to water ^{the} lawn + trees area, lawn + bushes area, + 2 garden areas.
- Other water source, a domestic well (well drilled by Uhlenkott Drilling #125 9/20/89)
- Not able to take a physical measurement due to the variable no-name type sprinklers used. Recommend .03 cfs since the property is $\leq .5$ acres. + that was the permit amount.

Have conditions of permit approval been met? yes ☐ no ☐

RE: Licensing of Water Right Permit No. 78-07299

Dear Mr. Preston:

I am responding to your letter dated August 11, 1995, which was forwarded to me by Representative Chenoweth last week for further action.

In response to your letter we have located the field examination report prepared by Ms. Sandy Hemenway, who conducted the field examination for your irrigation system last year.

Please be advised that the field examination is now being forwarded to our state office for preparation of a water right license. By copy of this letter I am requesting that Mr. Jim Johnson, Supervisor of the Water Right Permits Section, expedite the issuance of your water right license.

Prior to the receipt of the letter from Representative Chenoweth I was not aware of your urgency regarding this action, and I apologize for this processing delay. I will plan to keep in touch with Mr. Johnson in an effort to ensure that your license is issued within the next three weeks.

Sincerely,

David R. Tuthill, Jr. P. E.
Manager, Western Region Office

RE: Field Inspection of Permit 78-07299

Dear Mr. Preston:

Thank you for your letter of inquiry about water right permit 78-07299. I checked with our Western Region staff, and I was told that Sandy Hemenway conducted the field inspection of your water use from the Little Salmon River last summer.

Once a field inspection is conducted, the field report is completed by the field reviewer. The report is then sent to my section in our state office for review before a water right license is issued. Due to our workload, it can often take several months for a file to proceed from field inspection to license.

In your case, the field report for permit 78-07299 has not yet been sent here from Western Region. Sandy Hemenway is a temporary employee who is not working this winter. She will return in April to complete the work she began last summer.

When Sandy completes your field report and sends it here, probably in April or May, it will be reviewed promptly. If our review reveals any problems, I will contact you immediately. Otherwise, I will notify you as soon as your license is issued. Meanwhile, if you have any questions, please contact me at 208-327-7946 in Boise.

Thank you for your patience.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

78-7299

Dear Mr. Saxton:

Greetings and Happy New Year to You and Yours.

On August 2nd, 1994, a Lady named Sandy, who told me that she was one of Your on-sight inspection Rep's, came to my place on Elk Creek Road on the little Salmon, and checked out the two pumps I have in the River for garden and lawn use. She checked the water pressure and took pictures of both set-ups.

After about three hours of checking and talking with me Sandy left and told me that she would send me the finished layout and papers in about two weeks.

I have not heard anything from Sandy or Your Department since.

I have called by phone three different times, and was assured by three different women that I would get a reply from Your Office; but to this day no reply has arrived and no phone call has been received by myself or my machine.

Would You, please reply, and let me know what is going on?!

With the Highest Regards,

Respectfully Yours,

fagp./cof.

Re: Permit No.: 78-7299

Dear Mr. Saxton:

Thank You for Your letter from 1-30-91 ! Sorry to have taken so long to answer, but everything has been very hectic. My mom died and I had to go back east to straighten things out. While I was back east my partner allowed our business to run down, and before I returned, he cleaned out the account and disappeared. I am now attempting to build up the business, again.

If I can persuade You, I would like to have You give me an extension on the permit for drawing irrigation water from the river for the purpose of growing vegetables.

If You can, please, give me until the end of August, I think I can fix the whole project ready for inspection.

I ran the 10M Jacuzzi pump on the property in September of last year, but did not have time to get it inspected, because of other matters, that came up.

I pray to hear from You with a favorable answer.

Wishing You and Yours a very "Happy Easter",

I remain,

Dear Mr. Preston:

Permit No. 78-7299

LAPSE NOTICE

The Department is required to notify you that under the provisions of Section 42-218a of the Idaho Code, Permit No. 78-7299 lapsed since the department could not approve the request for extension of time you submitted. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit cannot be reinstated unless an adequate amount of work has been completed to allow you to submit proof of beneficial use of water. If you have diverted and used water from the Little Salmon River for irrigation purposes you should complete and return the proof of beneficial use form along with the examination fee to this office within sixty days of the date of this lapse notice. If it is not received by that time, the permit will be of no further force or effect.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

AL G PRESTON
BOX 125
FOUR LAKES WA 99014

Dear Mr. Preston:

Re: Permit No. 78-7299

Enclosed is a copy of the request for extension of time which you submitted to the department in connection with the above referenced permit. Provisions of Sec. 42-204, Idaho Code, provide that the department can only grant one extension of time. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. Then, you can file a new application within one year of the time you actually intend to develop the remainder of the water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

Re.: Permit No.: 78-07299

Dear Rita:

How are You? I spoke to You this moning, concerning the Extension of my permit, so that I may finish my waterproject in the spring of 1991, and You suggested for me to send in my Request for Extension of Time, accompanied by the \$15.00 application fee.

I had a death in the family, had to execute and handle all of the papers and problems, and also injured my back; so that with all that helter skelter , did not have enough time nor money to finish my water project.

Enclosed You will find my extension for the permit, a copy of the cash sale of the new pump, and a \$15,00 money order.

My new address is the one at the top of this letter.

Who do I contact when I have the project completed, so that it may be inspected?

With the best of wishes to You and Yours,

I remain,

Thankfully and respectfully,

Yours,

Al G. Preston, C. F.

■ Features

- 1. Self-priming centrifugal pump** utilizes an elevated suction port with swing check valve which opens fully to permit unrestricted flow of water into the pump case.
- 2. Non-clogging, semi-open, cast iron impeller** easily adjusts at the brass shaft coupling to compensate for wear caused by long-term pumping of abrasive liquids.
- 3. Heavy-duty cast iron pump case** will survive even the most rugged use.
- 4. Mechanical seal** ensures leak proof fit and continuous lubrication.
- 5. 3 HP or 5 HP dependable Briggs & Stratton gas-driven engines** with manual adjusting carburetor, muffler protector, manual starter at top of engine and resistor spark plug.

PROOF DUE NOTICE

RE: PERMIT NO. 78-07299

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Dear Mr. Preston:

Re: Permit No. 78-7299

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to November 1, 1990.

Note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK

MAILED

NOV 22 1989

Sta-Rite Design Series EEDDH self-priming engine driven centrifugal pumps are designed for easy replacement with any gasoline powered engine. Special design engine with threaded impeller shaft is not required.

SELF-PRIMING — Built-in check valve eliminates the need for re-priming.

MECHANICAL SEAL — Drip-proof, corrosion-resistant seal never needs adjustment.

SEMI-OPEN IMPELLER — Provides low friction water flow and greater efficiency.

4-CYCLE ENGINE — World renowned dependable, performance proven engine.

STUB SHAFT FEATURE — Allows easy replacement with any gasoline powered engine.

REPLACEABLE DIFFUSER — Allows restoring full performance without replacing entire pump body when pumping abrasive or corrosive solutions.

COMPACT DESIGN — Pump and engine are close coupled on all-steel base . . . only 18 1/16" long, 14" wide and 13 1/8" high.

Sta-Rite EEDD Series pumps are available as a "pump only" unit. Identical in design to the stub shaft pump offered with engine as described above. Ideal pump for 5/8" or 3/4" shaft gasoline engine driven applications.

Al G. Preston
P. O. Box 751
Long Beach, CA 90801

Dear Mr. Preston:

Re: Permit No. 78-07299

Pursuant to our telephone conversation today, enclosed are two forms.

The first form, proof of beneficial use, should be submitted at the time the project is complete. That is, when you divert the water out of the Little Salmon River for irrigation purposes. Upon receipt of the form, the department will notify the regional office to conduct a field inspection to determine the extent of use.

The second form, a drilling permit, is for the actual construction of a well. It is my understanding that you intend to drill a well to supply domestic water with a diversion rate of no greater than 0.04 cfs. If this is the case, the fee will be \$10.

If you have any further questions regarding this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
