Additional Computation Sheets Attached

Measured Method:

$$H_p \text{ eq. } Q = \frac{(8.8)(.7)(.75)}{(2.31)(40) + 2.0} = .0158 = .02 \text{ cfs allowable}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses:

a) LAWN < 1/2 acre, allow .6 AF

$$b) \text{ church } \frac{35 \times 52 \times 3 \times 15}{325,850} = .25$$

$$c) \text{ schools } \frac{16 \times 32 \times 5 \times 15}{325,850} = .12$$

$$V. (.02)(365)(1.9835) = 14.5$$

(volume capacity)

$$V. (.02)(365)(1.9835) = 14.5$$

RE: PERMIT NO. 78-07283

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Dear Gentlemen or Ladies:

We inquired about the General Adjudication of Rights to the use of water from the Snake River Basin water system that we received in the mail. We checked with the state office and they couldn't find an original application for water use.

They suggested we file an application for permit which they helped us fill out and we are enclosing a check for \$30 to cover the fee.

Sincerely yours,

Reuben Beck
