RECEIVED
JUL 21 1986

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriation of the Public Water of the
State of Idaho No. 78-7175

That under the terms and conditions of said permit, work thereunder was required to be completed on or before
August 1, 19 86

That he has heretofore performed the following work described under said permit: drilled two wells,
(This must be filled out! If no work has been completed put none.)
installed pump in one, capped the other, and is using the water produced from the
one well for irrigation purposes

Costing \$ 6,142

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit:
Shortage of money has caused a slowdown of the work. The poor farm economy
and loss of farmland value have temporarily stopped progress on the work.

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations
under said permit to August 1, 19 91
(1 yr. minimum,
5 yrs. maximum)

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 78-7175, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 86.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Water used under this permit if discharged into a natural channel shall meet Idaho Water Quality Standards.

Witness my hand this 27th day of August, 19 81.

Water is discharged into ditches + furrows used for irrigation, & does not ~~go~~ reach any natural channel, but instead sinks in the residing pasture.

F. FLOW CALCULATIONS

✓ Additional Computation Sheets Attached

Measured Method:

Irrigation: Open Channel Discharge Measurement (see attachment) = .15 cfs
Domestic: Allow Domestic D/I interval .02 cfs.

Stockwater: Table 1, Recommended Diversion Rates for Stockwater Exh. 15A
 101-200 Cattle = .05 cfs

5 gallon bucket Measurement (see attachment) = .12 cfs

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 39 \times 3.0 = 117.0$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .15 \times 215 \times 1.9835 = 63.9 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{64.0} \quad 64.0$$

2. Volume Calculations for Other Uses:

Stockwater:

$$V_{I.R.} = (200 \times 12 \times 365) / 325,850 = 2.68 = 3.0$$

$$V_{D.R.} = .05 \text{ cfs} \times 365 \times 1.9835 = 36.2$$

$$V = \underline{3.0}$$

Allow Domestic D/I interval .6 Afa.

E. NARRATIVE/REMARKS/COMMENTS (CONTINUED)

The system consists of P/D #1 an artesian hot water well with a 8" casing, having a flow port, 130 degrees, with a 35'x40'x6' holding tank (that was going to have a house built on top of and used for heating but heat storage was never put into use); there are two overflows from this hot artesian well that were measured with a 5 gallon bucket measurement of 5.5 sec./5 gal. (discharging into a ditch for irrigation), and 1 min. 39 sec./5gal. (discharging into a 67.5'x23'x.5' stockwater pond with the overflow continuing down the irrigation ditch.

P/D #1 is a cold well about 30' northeast of P/D #1 that has a submersible pump in it but has not been used for a few years, and the leasee Alvin Hall (208 347-2448) does not know any information about the pump or the horsepower (he does not use it, and the electricity was not turned on to measure its capacity). P/D#1 has a flow measurement port with an ABS pipe so the overflow goes into the same stockwater pond that P/D#1 discharges into. A 5 gallon bucket measurement was 33min./5gal. This well right now besides being used into the stockwater pond is used for drinking water and washing up. There is also a spring that is in the pond that contributes to the overall flow that continues down the irrigation ditch.

Main irrigation ditches flow north and south, with furrows for gravity flow going south to east, and north to east. The entire 39 acres can be irrigated by blocking off ditches and diverting the water to a smaller number of furrows. A 2" ABS pipe is used to help siphon some of the water from the stockwater pond to different furrows. An Open Channel Measurement was calculated at .15cfs.

SUBJECT

Permit No. 78-7175

MAR 16 1990

Mr. Donald EVANS visited the office today concerning his proof of beneficial use statement for permit No. 78-7175. He informed me that he would attach a flow port as specified by port access directions you provided him. The port will be fitted at the end of a 4" open ended pipe at 6" ± 18" inches from control valve (proper distance as per your directions.) He showed me the port device he plans to install & looks fine to me. Flow can also be measured at the open end pipe by means of 5 gallon bucket & watch. The examiner will now have 2 options for measurement & will have net port requirement established by permit (over →)

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 78-07175

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

Dear Ms. Evans:

Re: Permit No. 78-7175

Enclosed is a copy of the request for extension of time which you submitted to the department in connection with the above referenced permit. Provisions of Sec. 42-204, Idaho Code, provide that the department can only grant one extension of time. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest you submit proof of beneficial use for that portion of the right established and then that you file a new application within one year of the time you actually intend to develop a water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof
of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 78-07175

Name(s) of Permit Holder: MARIE A. EVANS, ET AL

Post Office Address: P.O. Box 332

NEW MEADOWS, ID 83654 Telephone No. 347-2418

Date Proof is Due: AUGUST 1, 1989

Describe what work has been completed toward the development of this water right: _____
(This must be filled out! If no work has been completed, show "none".)

TWO WELLS DRILLED, PUMP & POWER INSTALLED, PROVIDING
SUPPLEMENTAL IRRIGATION FOR 30 ACRES.

Costing \$ 7,000⁰⁰

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

CHANGE IN THE DIRECTION OF THE ECONOMY IN THIS REGION
(AREA) HAS MADE FURTHER PLANNING IMPERATIVE. FURTHER DEVELOPMENT
OF SIMILAR RESOURCES ON ADJACENT PROPERTY MAY REQUIRE PLAN MODIFICATIONS.

Permit holder(s) request an extension to AUGUST 1, 1994. x Marie A Evans
(1 yr. minimum) (Signature)*

FEE: \$15.00

*IF OTHER THAN PERMIT HOLDER,
POWER OF ATTORNEY MUST BE SUPPLIED.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be DENIED, pursuant to Sec. 42-204 Idaho Code, which states that only one extension of time can be granted based on due diligence.

Signed this 24 day of August, 19 89.

PROOF DUE NOTICE
RE: PERMIT NO. 78-07175

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PROOF DUE NOTICE

RE: PERMIT NO. 78-7175

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE AUGUST 1, 1986. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH WHEN ACCOMPANIED BY THE LICENSE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT PREPARED BY A CERTIFIED WATER RIGHT EXAMINER MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.
