RIGGINS, ID 83549 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated March 17, 1980; and
has submitted Proof of Beneficial Use on March 11, 1982. An examination indicates
that the works have a diversion capacity of .040 cfs of water from:

PAPOOSE CREEK tributary to SQUAW CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

RE: Licensing Amendment

The licensing amendment was signed by Ruth Rhodefer. The receipt shows that the check was in the names of Ruth and Ernest, obviously husband and wife. Because several items of correspondence were recently sent to her attention, she evidently assumed it was acceptable for her to sign the amendment. I have no problem with accepting the amendment under her signature and a license will subsequently be issued.

NOTICE OF PENDING ORDER VOIDING PERMIT

Dear Permit Holder(s):

The development proposed in Permit to Appropriate Water No. 78-7153 was examined in 1987 by Department of Water Resources personnel. At the time of the examination, the Department personnel discovered that the actual place of use and/or point of diversion differed from the place of use and/or point of diversion proposed in the permit.

We have attempted on several occasions to persuade you to file an application for amendment of Permit No. 78-7153 with the Department. To date, the application for amendment of the permit has not been filed with the Department.

Enclosed is a completed application for amendment of your permit which reflects the correct point of diversion and place of use. You should sign the application for amendment, and return it to this Department accompanied by a \$20 filing fee within thirty (30) days of the date of this letter.

Should you fail or refuse to submit the application for amendment within thirty (30) days, the Department will act to void your permit. The grounds for voiding the permit are set forth in Section 42-219, Idaho Code, where it states that if the Department finds "that the applicant has not fully complied with the law and the conditions of the permit . . . [it] may refuse issuance of a license and void the permit." One of the conditions of the permit was that the point of diversion and/or place of use would be located as indicated on the permit.

Ruth Rhodefer

Dear Mrs. Rhodefer:

We received correspondence from you stating that documents had been filled out in Grangeville in 1988 concerning your domestic use and therefore, you felt an amendment of the above referenced permit was not needed. I hope to give you some clarification of this matter.

In March of 1980 Ernest Rhodefer filed an application for permit with our Department to appropriate water for irrigation and stockwater purposes from Papoose Creek. In October of 1987 a representative from our Department conducted an inspection of your water system and found that water was actually used for domestic purposes rather than the irrigation and stockwatering.

In 1988 you filed a Snake River Basin Adjudication Claim for domestic purposes. The \$25.00 filing fee covered by the check (a copy of which you sent with your note to us) was the filing fee for the claim.

The amendment form and it's \$20.00 filing fee that we are requesting at this time is to amend the permit filed in 1980 to reflect the actual use of water. If we do not receive the amendment within 30 days we will begin proceedings to void the permit on the grounds of failure to comply with the requirements of the permit.

If you have any questions, please feel free to contact us.

Dear Mr. Rhodefer:

We have received your letter dated December 7, 1989 and hope to answer your question.

Your original permit was for irrigation of two acres and stockwater use. When the field examination was conducted, however, it was found that the water was being piped into the house for domestic purposes. This represents a change in nature of use and the permit must be amended before a license can be issued.

If we can be of further assistance, please feel free to contact us.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.
