Re: Permit No. 78-7151

Dear Mr. Dobroth:

We are in receipt of the examination fee information sheet for the above-referenced water right permit. Please be advised that we note that the permit describes a rate of flow of 0.16 cubic feet per second. Thus this is the maximum rate of flow that can be licensed under this water right. The examination fee for this rate of flow is \$50.00.

Enclosed we are returning your personal money order in the amount of \$100.00. Please exchange this money order for one in the amount of \$50.00 and return it to this office within the next 30 days to protect the current date of priority of your water right permit. I apologize for the inconvenience of this exchange, but am hopeful that the refund will come as a pleasant surprise. Thank you for your co-operation in this matter, and please feel free to call this office if you have questions about the rate of flow.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Re: Permit No. 78-7151

Dear Mr. Dobroth:

We are in receipt of the examination fee information sheet for the above-referenced water right permit. Please be advised that we note that the permit describes a rate of flow of 0.16 cubic feet per second. Thus this is the maximum rate of flow that can be licensed under this water right. The examination fee for this rate of flow is \$50.00.

Enclosed we are returning your personal money order in the amount of \$100.00. Please exchange this money order for one in the amount of \$50.00 and return it to this office within the next 30 days to protect the current date of priority of your water right permit. I apologize for the inconvenience of this exchange, but am hopeful that the refund will come as a pleasant surprise. Thank you for your co-operation in this matter, and please feel free to call this office if you have questions about the rate of flow.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
