In regard to the notice I am mailing you, it seems I misunderstood the proposed change. I do not want to let this go thru. My ditch is in good shape and easy to keep in repair. It is almost impossible to appear just now, due to an accident in March. I am in wheel chair. Would it be possible to advise me by letter just what to do under such conditions before the 15th.

Respectfully

Leola Becker.

Mr. Sylvester Farrell
New Meadows, Idaho

Dear Mr. Farrell:

Your letter enclosing affidavits for change of point of diversion from Goose Creek reached the office during my absence in the Eastern part of the state, and hence the delay in answering.

These affidavits describe the new point of diversion as being in the NE¹ NW¹ Section 29, Township 19 North, Range 2 East, whereas the sketch map shows it in the NE¹ NW¹ of this section. Please advise which is correct.

The law requires that such affidavits have the approval of the watermaster of the water district in which the water is located.

We are therefore returning the affidavits, with the request that you have them approved by the watermaster, in the place indicated on each.

Very truly yours,

Dear Mr. Farrell:

As per your request, we are enclosing blanks for changing the point of diversion. We think it best that each water user fill out a separate affidavit.

Under the amended statute 41-108, Idaho Code Annotated, it is made mandatory that a notice be published in your county newspaper, giving notice of the proposed change. This publication must be made in two weekly issues of the paper, at your expense.

After the signed and notarized affidavits are received in this office, we shall prepare the notice of publication for the newspaper. A joint publication notice can be used for all three applications, thereby cutting down the cost of publication.

After publication, and provided there are no protests to the said change of diversion, a certificate authorizing such change will be issued by this Department.

The statute provides for a \$1.00 recording fee, and in this case, where each water user is filing a separate affidavit, the fee will be \$1.00 each as separate certificates will be issued.

With the return of the affidavits please give the name of the newspaper in which you wish the notice to be published, which must be in the same county as the land location.
