WATER RIGHT LICENSE

License of Water Right No. 78-7149 Priority June 18, 1980 Amount 0.14 cfs

THIS IS TO CERTIFY, that Charles F. Kohler
of Riggins, Idaho, has complied with the terms and conditions of Permit
No. 78-7149 issued pursuant to Application for Permit dated June 18, 1980,
and has submitted proof to the Department of Water Resources on April 23, 1981,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.14 cfs of water from Papoose Creek,
tributary to Salmon River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 1</u> to <u>December 1</u>	at <u>0.14</u> cfs and	<u>18.0</u> acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.14 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
18.0 acre feet per year, said waters to be diverted within the SE1/4 Section 24,
Twp 24N, Rge 1W in the County of Idaho

Description and location of place of use:

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

Dear Mr. Kohler:

We are in receipt of the assignment forms which give you ownership of the above referenced permits. We are also in receipt of your \$20.00 Check No. 92-172/1231 which you submitted as the filing fee for the amendment of Permit No. 78-7149. We are, however, returning your check since it did not accompany an amendment application form. It is the policy of our Department not to accept a filing fee for a form which has not been submitted.

Enclosed you will find an amendment form that will change the legal descriptions of the point of diversion and place of use identified on Permit No. 78-7149 to the legal description that our field examiner found when he made his inspection of the water right system. If you will sign the form on the back, where indicated, and return it to our office with your \$20.00 check we will be able to license this permit. Only you can sign this form since you are now the permit holder of record.

If you have any questions regarding the amendment form, or any of the above, please do not hesitate to contact our office.

Charles F. Kohler
Box 1128
Riggins, ID 83544

Dear Mr. Kohler:

The Department is in receipt of your correspondence dated 1/22/86 requesting additional information concerning the licensing of the above referenced water rights. The laws that govern the appropriation of water in the State of Idaho for private use are very extensive and it is impractical to provide you a complete copy of all the provisions without a considerable expense to you.

Enclosed, however, are copies of some of the sections which you may find of interest and hopefully will answer your questions. In reviewing the statutes, you will find that the previous land owner (Warrens) had filed for water rights in accordance with the provisions of Section 42-202. The Department, pursuant to Section 42-219, has made an examination of the water put to use and we are in the process of issuing a license for each right.

In Idaho a water permit is considered to be personal property and a change in ownership of the property does not change the ownership of the water right. Therefore, as the current property owner of the land on which these two water permits were filed, if you desire to have the Department issue the water right licenses reflecting the water being used on the land you own, then you should attempt to get the previous owner, Mr. Warren, to assign the water permits to you.

The Department will delay taking any further action on this matter for 30 days. If we do not hear from you, we will assume you are not interested and will take action to cancel the permits. If we can be of any further assistance on this, please let us know.

JIM JOHNSON

Dear Mr. Kohler:

We are attempting to license the above referenced water right permits which are in the name of Robert P. and Arlene M. Warren. In trying to locate the Warren's, we contacted the Idaho County Assessor's Office and found that you may now be the owner of the Warren's property. If this is the case, we would like to continue with our licensing of the permits, but we need to have some documentation for our records that you are the current owner.

Enclosed are copies of our pre-licensing letters which clearly identify each of the permits and describe how the water right licenses will be issued. If you are using these rights as described in the pre-license letters, it would be to your advantage to locate the Warren's and have them assign the permits to you. Enclosed for your convenience are a couple of assignment forms for your use in this matter.

If the Warren's cannot be located, we can license Permit 78-7148 in the Warren's name and notate that you are the present owner in our records, but we cannot license 78-7149 until the permit is amended and this can only be done by the right holder. If your property sale contract specifically lists the permits by number as part of the property purchase, we can change our records to show you as the current right holder, and we will be able to license both rights in your name. If the rights are not identified in the property purchase, the assignment forms will be required to change permit ownership to you.
