Dear Mr. Addison:

Re: Permit NO. 78-7134

Returned is the examination fee information sheet you submitted on December 27, 1988. The form is unacceptable as is because it does not provide enough information.

This permit was issued for the diversion of water from a well for domestic uses for two households at a diversion rate of 0.08 cfs (36 gpm). This permit was assigned to you from the Bowers on May 13, 1987.

Note the returned form. Starting with item 4, has the well been drilled? If so, cross out the word "river" and continue with the form. If not, make a notation to that effect and return the form.

Item 5, how many of the two domestic uses have been developed? If none, please note and return form.

Item 6, what is the rate of diversion? For one household, the maximum allowable rate is 0.04 cfs (18 gpm). For two households, the rate could be 0.08 cfs. However, the amount indicated should reflect the actual use, if possible. If the rate is greater than 0.04 cfs, however, the department will charge a \$50 filing fee to conduct the field report.

Item 7, show the date water was first used for either of the households. For item 8, indicate a contact person if other than yourself.

Return the form to the department with the necessary fee, is applicable within thirty days.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK

LICENSE EXAMINATION FEE

You are hereby notified that under the provisions of Sec. 42-217 and 42-218a, Idaho Code, the above referenced permit lapsed and is of no further force nor effect for failure of the permit holder(s) to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of Sec. 42-217, Idaho Code and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder(s) to submit either the fee or an acceptable field examination report within one year and sixty days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The department notified you of the required submittal on June 9, 1987 in a letter from Jim Johnson.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the department within sixty days, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the department to keep the permit in good standing. If you have questions, please contact any office of the department.

Sincerely,

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

MICROFILMED

JUL 09 1987

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is available from the department upon request. A listing of certified water right examiners is also available.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The license examination fee schedule, on the back of the enclosed information sheet, shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be returned to this office. If you have questions or concerns please feel free to call at (208) 334-2190, or to visit the office at our new location near the airport, at 2735 Airport Way.
