IDAHO County

PLACE OF USE: FISH PROPAGATION

TWN RGE SEC

24N 01E 32

SWSE

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The right holder shall provide the Department, upon request, information showing volume changes per hour necessary to maintain an adequate environment for the fish propagation facility. Volume changes per hour shall be based upon actual fish production.
6. The right holder shall comply with all fish screening requirements of the Idaho Department of Fish and Game.

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 78-07132)
IN THE NAME OF JOSEPH A. AND BARBARA) **ORDER ADVANCING**
J. GALLI)
) **DATE OF PRIORITY**
)
_____)

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 78-07132 for the issuance of a license, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. On January 29, 1980, the Department approved Application for Permit No. 78-07132 to appropriate water with a date of priority of November 15, 1979.
2. On April 10, 1987, the department sent the original permit holder an Examination Fee Notice and informed him that he had sixty (60) days to submit the required examination fee.
3. On June 9, 1988, the permit holder submitted the \$50.00 examination fee. The fee was submitted 365 days late, however, the department did not issue an order advancing the date of priority.

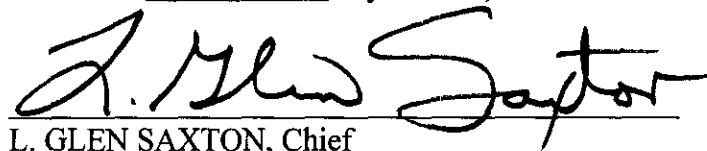

CONCLUSIONS OF LAW

1. The Department should issue an order showing that the priority has been advanced to November 15, 1980.

ORDER

IT IS THEREFORE HEREBY ORDERED that the date of priority of Permit No. 78-07132 is advanced to November 15, 1980.

RE: WATER RIGHT NO. 78-07132

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

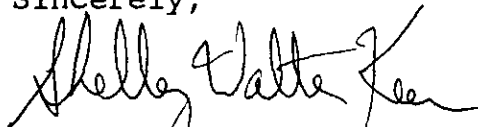

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Also enclosed is an Order Advancing Date of Priority.

If you have questions, please contact me at (208) 327-7946.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shelley W. Keen".

MEMORANDUM

TO: File 78-07132

FROM: Sharla

DATE: June 24, 1998

RE: Annual Volume for Fish Propagation Use

Per a memo dated 1/15/88, volume is calculated this way:

1. Calculate changes per hour:
total flow into facility x 3600/facility volume(cf) = changes
2. Calculate annual volume:
facility volume(AF) x changes x 8760 = AFA
3. Calculate volume given by permitted flow:
flow rate(cfs) x 1.98 x 365 days = AFA
4. Recommend lower figure

-
1. 0.20 cfs x 3600/ 140,086 cf = 0.00514
 2. 3.2 AF x 0.00514 x 8760 = 144.1 AFA
 3. 0.20 cfs x 1.98 x 365 days = 144.5 AFA

RECOMMENDATION: 144.1 AFA

E. NARRATIVE/REMARKS/COMMENTS

- Other WR: A 78-07132 fish propagation (same P/D, same P/U); 78-07239 (groundwater), 78-04269 (groundwater)
- Other water available: the subdivision has an irrigation ditch that runs along the north side of the property, flowing west to east.
- Use is Fish Propagation for 2000 rainbow trout. Other use aesthetic.
- The system consists of a 16" culvert 78' long from the Rapid River, this splits into (2) 6" culverts 60' long that go into Pond #1 (102.5' x 117.5' x 3.75'), w/overflow going directly to pond #2 (225' x 67.5' x 3.75'), w/overflow going directly to pond #3 (150' x 67.5' x 3.75') w/direct flow back into the Rapid River. From the P/D inlet to the outlet, there is a natural drop in elevation, but no lines are detectable from the USGS Topo. maps to calculate the actual drop. (Direct gravity flow-through system)
- No govt. lots were found.
- Overlaps for P/D are other sources; overlaps for P/U: are other land +/- or other uses.
- The combining of (2) USGS Topo. maps has caused some distortion to the size of the section.

Have conditions of permit approval been met? ☒ yes ☐ no

MICROFILMED
NOV 21 1998

F. FLOW CALCULATIONS

☒ Additional Computation Sheets Attached

Measured Method:

Open Channel Discharge Measurement (see attachment) = .15 = .20 cfs
(between Pond #1 + Pond #2)

Rectangular weir Measurement @ Outlet (see attachment)
= .212 cfs = .21 cfs

Allow .20 cfs for fish propagation.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$ _____

2. Volume Calculations for Other Uses: (see attachment)

Pond #1
(S.A) surface area = .3 acres
capacity = (S.A) $\times$ 3.75 (max. depth)
= 1.1 Af

pond #2
(S.A) = .4
capacity = 1.5

pond #3
(S.A) = .2
capacity = .8

pond #1 (1.1) + pond #2 (1.5) + pond #3 (.8) = 3.4 Af

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Fish Propagation	1/1	12/31	.20	3.4 Af
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
Totals:			.20	3.4

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

Dear Permit Holder:

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on June 9, 1988, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on April 10, 1987.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before August 8, 1988, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.

Sincerely,

L. GLEN SAXTON, Chief
Operations Bureau

April 10, 1987

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

RE: Permit Nos. 78-7132 & 78-7239

Joseph A. & Barbara J. Galli
HC 69, Box 180
Riggins, ID 83549

Dear Mr. and Mrs. Galli:

This office acknowledges receipt of the Assignment of the above referenced permits to you.

Enclosed for your records are copies of the permits. Be sure to note the special conditions of approval on the fourth pages that identify requirements necessary for developing the permits into licensed water rights.

In reviewing the permits, we find that the requirement for submitting proof of construction of works and application of water to beneficial use has been met, and a field examination has been conducted. We will correspond with you regarding the licensing of these permits when final recommendations are made.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Dear Mr. Smith:

Re: Permit No. 78-7132

Pursuant to your letter of February 1, 1983, enclosed is the Statement of Beneficial Use postcard along with instruction which is used to fulfill the requirement of beneficial use.

Also, as per your request, I've enclosed an Amendment form. However, please be advised that it is not necessary to file an amendment for a change in the design of the diversion works. Usually, an amendment is used for a change or addition to the point of diversion or changes in the place of use or in the nature of use.

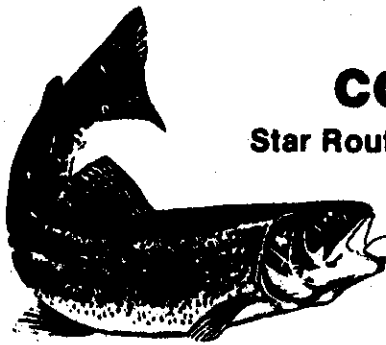

If you have any questions concerning your permit, please feel free to contact this office.

Sincerely,

RITA I. FLECK
