License of Water Right No. 78-7121 Priority June 13, 1979 Amount 0.02 cfs

THIS IS TO CERTIFY, that Charles D. &/or Virginia A. Beardsley
of Riggins, Idaho, has complied with the terms and conditions of Permit
No. 78-7121 issued pursuant to Application for Permit dated June 13, 1979,
and has submitted proof to the Department of Water Resources on July 14, 1980,
that he has applied water to a beneficial use, an examination by the Department indicates that the works have a
capacity for the diversion of 0.02 cfs of water from a spring,
tributary to Rapid River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic (1 Unit)	from <u>January 1</u> to <u>December 31</u>	at <u>0.02</u> cfs and	<u>0.6</u> acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.02 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
0.6 acre feet per year, said waters to be diverted within the Gov. Lot 7 (SW $\frac{1}{4}$ SW $\frac{1}{4}$)

Dear Mr. Beardsley:

✓ Re: Permit No. 78-7121

According to your Permit No. 78-7121 for 0.04 cfs for domestic use of the waters from a spring tributary to Rapid River, Ferman Gottzinger is named as the owner of the property at the point of diversion. As stated on the permit under limitations and conditions d, 1., the issuance of Permit No. 78-7121 in no way grants any right-of-way or easement across the land of another. Therefore, your responsibility as the permit holder is to obtain the necessary right-of-way or easement.

Water originating from springs arising on private lands is considered to be public waters when the water leaves the lands of the owner via a natural stream which is then subject to appropriation. A riparian owner (one whose land is adjacent to water) does not have a water right in Idaho simply by virtue of his land ownership and therefore must file an Application for Permit with this department.

Water rights of junior appropriators are subject to all prior rights of senior appropriators from the same source with water allotted in order of priority dates under the premise of "first in time is first in right." In the event of time of low water, you are entitled to receive your water prior to any appropriations after June 13, 1979.

Since proof to beneficial use was received in a timely manner for Permit Nos. 78-7121 and 78-7120, all that remains is that a field examination must be conducted before licenses can be issued in accordance with the findings of our agent.

MICROFILMED

January 5, 1981

Your permits, 78-7121 and 78-7120, are valid and in good standing; and use of the water may be continued in compliance with the permits.

I hope this answers your questions in your letter of December 22, 1980. If not, please feel free to contact us here at State Office or Western Region in Boise, Idaho.

Sincerely,

Roberta Garrett

Dear Lisa

When we filed our two water permits

70-7121
77-7160
Sent. no. 78-7121 on June 18-1979, we did not know if they were on Paul Boyer's land or Fernie Gottzinger's. This past week a survey has been run and the two water permits are on Gottzinger's land.

Paul Boyer is planning on buying this strip of land that does take in the Spring Lane mining. Boyer has plans the water rights now. If he buys this land - he will want water from this Spring for a house to be built next year.

1- We are the first to use this Spring. Will our permit give us the full right of this spring over Boyer if he buys the land?

2- So far as we know - no one has come to check our Spring and irrigation system - if our permits are not final without this, it is then unclear - standable that we need to have our water claims checked as soon as possible, before the above mentioned land changes hands.

The Spring is too small to take care of two households properly.
