RE: CHANGES TO EXAMINER RECOMMENDATIONS

DATE: 20-MAR-1989

The rate of diversion and volume have been changed from the examiner's recommendations. The rate of diversion for .14 acre should be .03 cfs, not .04 cfs; this is the maximum rate allowable for less than 5 acres. The volume has been changed to 0.4 afa from 0.6 afa, to reflect the rounding .14 acres to .1 acres, and the resulting reduction in the calculated volume.
