Dear Mr. or Mrs. Evans:

One of the conditions of approval of your water Permit No. 78-7050 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application for Permit No. 78-7050

Dear Mr. Evans:

We have received your application for permit and filing fee.

We need additional information before we can proceed to process your application. We are enclosing a copy of a map of Section 5, Twp. 23 N., Rge. 1 E., B.M., and ask that you mark the point water is taken from the river and the place it is used.

Question 9a states that Idaho County owns the property at the point of diversion. Line 9c asks what arrangement was made to enable you to make the filing. You did not answer 9c and we need to know what arrangements were made with the county to provide access to the river for diverting water.

Please supply us with the above information and we will then be able to process your application.

Sincerely,

Robert W. Hamilton

9c. The County Commissioners asked us to drive under the black top on the county road to get to the river. However this may not be possible on account of the road and some other arrangement will have to be made in that case. We will have to put a culvert under the road.
