One of the conditions of approval of your water Permit No. 78-7047 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Higginson:

We have your letter of December 1, 1975 regarding the need for proof of beneficial use of water referred to in Permit No. 78-7047.

Due to delays in getting a road into the property our scheduled plan of development has been set back a year. This year in May we were able to put in a temporary diversion of the water and piped it to our building site. During the months of May through November we made beneficial use of the water for culinary purposes. We do plan at this time to have the permanent structure in for the culinary water by the end of 1976.

Please advise as to how we should go about requesting an extension of time to complete the development and provide proof of beneficial use.

We would also like to know how to meet the requirements of proof in measuring the amount of water used. Is it required that water used for culinary purposes be measured as is the case of water used for irrigation purposes?

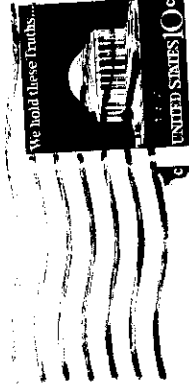

Your advice regarding this matter will be greatly appreciated.

Sincerely yours,

LOREN A. NELSON
