Gentlemen,

Your letter of September 19, 1972, acknowledging receipt of our affidavit, stated that it was necessary to make a field examination before a license could be issued. We have received no further information regarding this field examination.

We feel that this should be taken care of so that this matter can be completed. There should be someone in the campground continually during the next three months, therefore it would be a good time for your representative to stop during this period.

Gentlemen:

One of the conditions of approval of your water Permit No. 78-7022 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
