May 10, 1973

Idaho Power Company
P. O. Box 70
Boise, Idaho 83707

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 78-7013 and has found the following:

Quantity of water diverted: 18.6 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 18.6 cfs

The maximum quantity diverted shall not exceed 4,464 acre feet per year.

Beneficial use: Fish rearing purposes within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 12, Twp. 23N, Rge. 1W, B.M. and NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 7, Twp. 23N, Rge. 1E, B.M.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 12, Twp. 23N, Rge. 1W, B.M.

Priority date established: August 1, 1969

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR

Dear Sirs:

We have received your request to remove the requirement of installing measuring devices as a condition of Permit No. 78-7013.

It is hereby ordered that the condition under which Application for Permit No. 78-7013 was approved be modified to remove the requirement of a measuring device to be installed and maintained at the point of diversion; however, we reserve the right to require a measuring device installed at this point in the future if conditions change and make further measurements necessary.

The requirement of a measuring device at the point of return is still a condition of this permit.

Dear Mr Allred:

In accordance with the recent discussion we had with you in your office regarding the above numbered permit, we hereby request that the condition pertaining to the permanent installation of a measuring device at both the point of diversion and point of return be eliminated from the permit for reasons which have been discussed with you; that is, the impracticability of installing such a device at this particular location.

Should further information be required,
please let us know.

Gentlemen:

One of the conditions of the approval of your Permit No. 78-7013 was that proof of application of the water to beneficial use be submitted to this office on or before December 1, 1970.

Enclosed is an affidavit form which must be used to submit proof of beneficial use. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended.

Either the proof affidavit or a request for extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Application for Permit No. 78-7013

This application was reviewed by Paul Cuplin, Fisheries Dept., Idaho Fish and Game Department, and was found to be well within reasonable standards. The application covers an expansion to Idaho Power's Rapid River facility and is now being used as said application proposes. The filing of this application was at the Idaho Fish & Game Department's insistence.

Dear Mr McEldowney:

This is in reply to your letter regarding the application for Permit No. 78-7013 - Rapid River Fish Facility. This hatchery has been expanded in 1969 to accommodate approximately 3,000,000 juvenile salmon to seaward migrant size from a previous capacity of 1,500,000 like juveniles. Though some water, available through prior approved application, can be re-used in this fish rearing operation, the amount of additional water required, (as requested in Permit Application No. 78-7013) is based upon Idaho Fish and Game Department criteria. These are available to you from that agency.

Enclosed you will find Engineer Drawing No. 20 D - 18025, on which all original and expanded facilities are shown with appropriate measurements.

Gentlemen:

In reviewing the above application for permit, we find that the Department will require some additional information in order to justify the quantity of water you have requested.

If you could supply information concerning the volume requirements of your facilities and the dimensions of the raceways, etc., it would be most appreciated. If you have information concerning your requirements for water in relation to the volume of water needed per pound of fish and the total pounds of fish, we could also use information of this nature.

Your assistance in this matter will be appreciated.
