Dear Mr. Carlisle:

The following information is provided in response to your request of 5/18/78 concerning the water transmission ditch in the S1/2 S27, T24N, R1W, B-M.

According to our records, Mr. Don Whiteman paid Special Use fees on the water transmission ditch for which you are applying from 1971 - 1978. Prior to 1971 there was no charge for the permit.

The permit was transferred to Mr. Whiteman from George Boodry in 1959. Our records beyond that are not on the district, although we do know that Mr. Boodry was issued the permit in 1947 and possibly held a permit previous to that.

If you need additional information, please call on us.

PROTEST TO CLAIM OF WATER RIGHT

STATE OF IDAHO)
County of IDAHO : ss.

JOHN W. BETZOLD, being first duly sworn, deposes and says:

THAT affiant owns 15 acres in Section 24, Township 24 North, Range 1, West of the Boise Meridian, and resides at: PEGGUM, ID 83549.

THAT affiant does hereby protest and object to the claim of IVAN J. CARLISLE and MAXINE G. CARLISLE, No. 78-4087, for the following reasons:

1. THAT this affiant is informed by reliable source, and so believes, that there has been no appropriation of water, nor the application of such water, from Papoose Creek special use permit to any beneficial use from about 1962 to the present time as claimed by said claimant CARLISLE.

2. THAT at no time has claimant CARLISLE nor any predecessor in interest for the past 15 years in fact diverted any water for diversion, agricultural or domestic use from said Papoose Creek, and said Section 27, Township 24 North, Range 1, West of the Boise Meridian, as it flows through said section. That said Section 27 is Federal lands and CARLISLE and predecessors have no special use permit to divert.

3. THAT this affiant's right to downstream waters is prior to applicant CARLISLE's claim, and affiant's water permit number is No. 78-7011.

4. THAT affiant is informed and believes that the said water originating in Section 27, Township 24 North, Range 1, West, and as the same flows through said Section, is a source of other springs, percolating waters, including downhill stream and to the east of said point of diversion. That a claim of 5.0 cubic feet per minute is many times more water than in fact flows at intended point of diversion at any time of the year.

FURTHER, the affiant sayeth not.
