DEPARTMENT OF WATER ADMINISTRATION

CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Riggins Water District
post office address Riggins, Idaho

2. The point of diversion is in # 1 NW ¼ of NE ¼ Section 28 Township 24 N
Range 1 E # 2 SW B.M. located on NW # 1 Little Salmon River # 2 Squaw Creek
(name of source)

tributary to Salmon River in Idaho County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

1 December 3, 1909 amount: 8.0 c.f.s. or _____ acre feet
2 _____ 1907 amount: 4.0 c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed 12.0 c.f.s. or _____ acre feet.

b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

1 use irrigation period of use from April 1 to October 31 (both dates inclusive)
2 use irrigation period of use from April 1 to October 31 (both dates inclusive)
2 use domestic period of use from supplemental use (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of concrete reinforced with steel; length is 83.5 feet; height is 9 feet; width at bottom is 2 feet; with at top is 1 feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known extending 6' below surface
replacing old in 1959. First and second headgate lost to flood.
Four concrete wing braces on downstream side - 8'x10'x1'.

b. Underground water diverting works: is well flowing or pumped _____; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____ capacity of pump is _____ g.p.m.; name and address of well driller is _____

attach well logs if available; has there been any change in pump or motor since well was first completed _____; if so, give dates and explain _____

- c. Conveying works: length of ditch to place of use is immediately ~~feet~~; width of ditch at top is 7 feet; width of bottom of ditch is 6 feet; depth of water is 2 feet; grade of ditch per 1000 feet is 1½ feet; material through which ditch passes is varying solid rock to sand; maximum length of pipe line to first place of use is none feet; diameter of pipe line is _____ inches; type of pipe _____; grade of pipe per 1000 feet is _____.

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible ditch has been widened to 7' in some places in cleaning.

- d. If water is stored: name of reservoir _____; total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet; year construction commenced _____; year completed _____; date first used _____; period of storage is from _____ to _____; is reservoir drained each year _____; is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

b. Do you get water through a ditch owned by several users? _____ If yes, give the name of the ditch _____ The other users and their respective interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____ name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

This claim is being held in connection with permit # 78-2013 which is in the process of being cancelled for failure to submit evidence of beneficial use on December 3, 1978. The above referenced permit was in the name of Charles M. Clay, who turned the permit over to the Riggins Water District for their irrigation needs.

Due to the fact that the above referenced water developement serves approximately 150 seperate parcels of land and due to the sand and gravel characteristics of the soil, we have at times used in excess of 2" of water per acre.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s.</u> or <u> </u>	acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s.</u> or <u> </u>	acre feet
		Total claimed:	<u>1.2 c.f.s.</u> or <u> </u>	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Gentlemen:

The Department of Water Administration has completed the processing of your claim to a water right, and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we can be of further assistance, please feel free to call upon us.

Re: Notice of Claim to a water right
No. 78-4016, Riggins Water District

Dear Mr. Higginson:

Mr. Stewart Aitken and Mr. Roy D. Wisdom of Riggins, Idaho, both owners of land irrigated by use of water of Squaw Creek, in behalf of themselves and other owners of land irrigated from Squaw Creek (including the Nez Perce National Forest) have requested that I notify you of their intent to file exceptions to the claim of Riggins Water District of a right, established by diversion and use of Squaw Creek Water. Such exceptions will be prepared and filed as soon as all pertinent information can be assembled.

To me, the notice is not entirely clear as to the respective rights claimed in Little Salmon River and Squaw Creek, but I interpret it as asserting claims to,

8 cfs from Little Salmon River, priority December 3, 1909; and

4 cfs from Squaw Creek, priority of 1907.

Protestants have no exceptions as to amount or priority of water claimed from Little Salmon River. They are concerned only with claims as to Squaw Creek water.

In brief, protestant's exceptions are based upon the grounds that,

a. Applicant's diversion works, ie, canal from Race Creek north to Riggins, will not carry 12 cfs of water, its maximum capacity is more likely about 6 cfs and that 12 cfs has never been appropriated or beneficially used by applicant.

Re: Notice of claim to a water right
No. 78-4016, Riggins Water District

b. By actual appropriations and application to beneficial use, protestants and other land owners along Squaw Creek have acquired water rights with priorities dating back to 1900, or earlier, to all the late season water flow in Squaw Creek. These named protestants plan, at an early date, to file their claims for such established water rights:

c. Water from Squaw Creek, as claimed by Riggins Water District is not available for the right claimed, and that such claimed right has not been, and can not be, conveyed through applicant's canal to the claimed places of use.

If the Administration has available the Affidavit forms mentioned in Section 42-225^{1/2}, Idaho Code, I will thank you to forward to me Six (6) such forms.
