Department of Reclamation

**NOTICE OF PROPOSED
CHANGE IN POINT OF
DIVERSION**

Notice is hereby given that the Brundage Ditch Company, by L. W. Whitney, President, of Mead-State Reclamation Engineer of Ows, Idaho, has applied to the Idaho for a certificate authorizing them to change their point of diversion from Goose Creek, by the addition of a second point of diversion located in the Southwest Quarter of the Northeast Quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 28, Township 19 North, Range 2 East, B. M. The water rights diverted from said Goose Creek are storage reservoir rights from Brundage Reservoir.

And that at 10:00 o'clock, A. M., January 28, 1949, at Room 107 State House, Boise, Idaho, before the State Reclamation Engineer or his authorized agent, the opportunity will be given to any and all persons to appear and present, for his consideration, any reason or reasons why a certificate should not be issued authorizing such change in point of diversion.

NOTICE

Notice of Proof of Completion of Work and Application of Water To Beneficial Use

Notice is hereby given that at eight p. m. on the 24th day of June, 1946, at New Meadows, County of Adams, State of Idaho, before Carl G. Peterson, Notary Public, proof will be submitted of

the completion of works for the diversion of 3538 cubic feet per second of the waters of Brundage Creek and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. R-612 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Brundage Meadows Reservoir Company, New Meadows, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of use, in accordance with the plans accompanying the

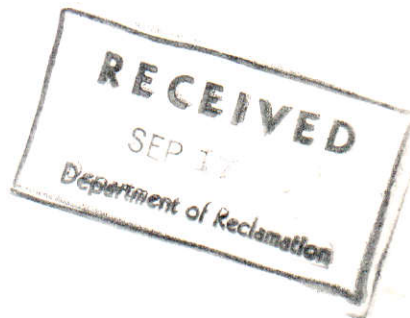

application for such permit, is 3538 Acre Feet cubic feet per second.

3. The use to which said water has been applied is Irrigation and domestic purposes, and the amount applied to beneficial use is 3538 Acre feet per annum.

4. The place where said water is used is 4520 acres situated in Sections 5 and 6 Twp. 18 N. Range 2 E. B. M. Sections 19, 20, 29, 30, 31 and 32 Twp. 19 N. Range 2 E. B. M. and Sections 24, 25 and 36 Twp. 19 N. Range 15 E. B. M.

5. The date of priority which said user is prepared to establish is May 25, 1936.

THIS IS TO CERTIFY THAT BRUNDAGE DITCH COMPANY, of Meadows, Idaho, is the owner of a portion of the water stored in Brundage Reservoir and delivered via Goose Creek, said water right being in the amount of

3538 acre feet per annum with priority of May 25, 1936.

said water right being evidenced by License No. R-612, issued to the Brundage Meadows Reservoir Company on March 14, 1947, and recorded in the State Department of Reclamation at Boise, Idaho, in Volume 7 of Licenses, at page 4346.

And that now, upon the application of Brundage Ditch Company of Meadows, Idaho, for a Certificate of Change of Point of Diversion, made before the State Reclamation Engineer of the State of Idaho, and said application having been granted, the right to change such point of diversion is HEREBY GRANTED.

That the water right above described has heretofore been diverted from Goose Creek with point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 28, Township 19 North, Range 2 East, B.M.

That the water right above described will hereafter be diverted from Goose Creek with two points of diversion, including the present point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 28, Township 19 North, Range 2 East, B.M. and an additional point of diversion in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 28, Township 19, North, Range 2 East, B.M.

That said water right is appurtenant to all the lands irrigated from the Brundage Ditch, and said additional point of diversion shall not modify in effect said license and place of use. Said water is to be limited at any time to an amount actually needed and beneficially used for such purposes.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the Department of Reclamation of the State of Idaho, to be hereunto affixed, at Boise, Idaho, this 10th day of March, A. D. 1949.

Affidavit for Change of Point of Diversion of Water Right

 Permit No. R-612

STATE OF IDAHO,

County of Adams,

ss.

Brundage Ditch Company, being first duly sworn, deposes and says: That his postoffice address is Meadow, Id. That he is the owner of and using a certain water right, for 3,538 Acres ~~of~~ the water of Brundage Reservoir, and delivered via Goose Creek. Idaho, County of Adams, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. R-612, issued by the Department of Reclamation, License dated, 3/14, 1947, bearing date of priority of May 25, 1936 for the purpose of irrigating the following described lands, situate, lying and being in Water District No. 75-A, in the County of Adams, and State of Idaho, to-wit: All lands irrigated from Brundage Ditch, by the Reservoir Company.

and is the person (or representative of the person or persons) to whom such right was so issued, (or has become the owner thereof in the following manner:) By virtue of Permit No. R-612

That said waters are now diverted from said stream in the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 28, Twp. 19.N., Range 2.E., and conducted to the above described lands through the Brundage ditch, as per map filed herewith and of this affidavit made a part;

to include That affiant desires to change the point of diversion of said waters from the point above described to a point located in SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 28, Twp. 19N., Range 2E., and thereafter conduct same to the above described land through the Same ditch, Brundage ditch, as per map above referred to; Supplemental diversion to same, Brundage ditch.

That his reasons for desiring to make such change are as follows: That the lower diversion point will be more advantages to the water users under said ditch to divert all or part of their water from Goose Creek, into said ditch at a lower point on Goose Creek. The old diversion point was once used for power purposes, and the Power Co. is no longer in existence.

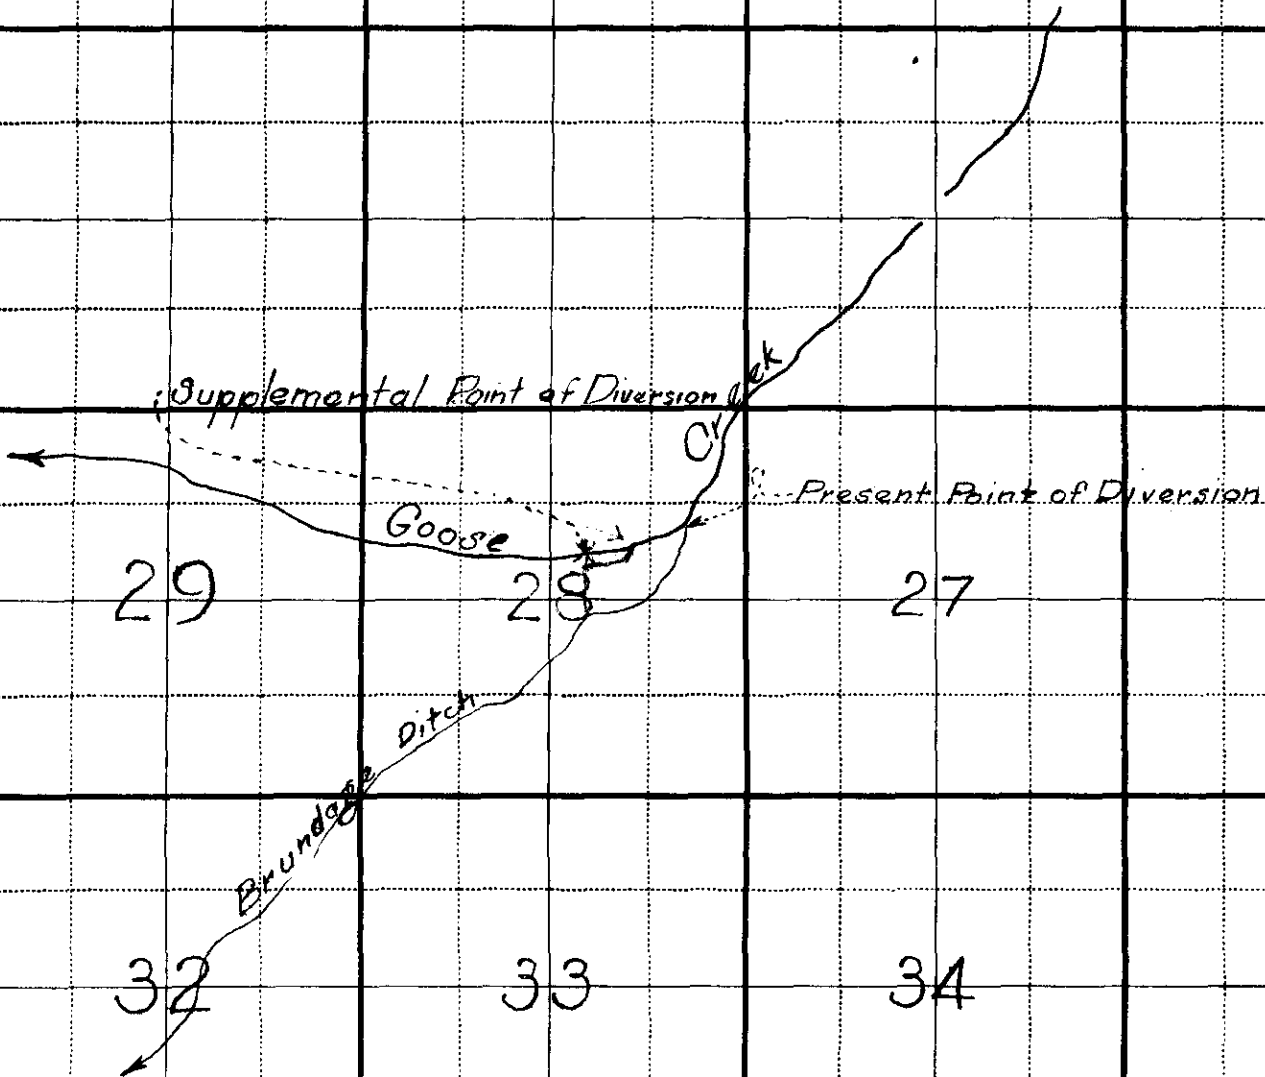

That no one will be injured by such change and that such change will be made at affiant's own risk.

Brundage Ditch Co.
I M. Whitney - Pres. Affiant.
Subscribed and sworn to before me this 20 day of Nov, 1948.

Carl S. Stewart
Notary Public for State of Idaho

NOTE:—If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

APPLICATION FOR PERMIT

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

Application No. R 25546
Permit No. R 612

1. Name of Applicant: BRUNDAGE MEADOWS RESERVOIR COMPANY

Postoffice address: New Meadows County Adams State Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation: about August 18, 1935, New Meadows, Adams County, Idaho
(b) Amount of Capital Stock: \$ 25,000.00
(c) Amount paid in: \$ 3,250.00
(d) Names and addresses of directors: Sylvester Farrell, New Meadows, Idaho; Blake Hancock, New Meadows, Idaho; Fred Riggs, New Meadows, Idaho; Charles Wyman, New Meadows, Idaho; J. E. Freeman, McCall, Idaho.

II. The financial resources of the ^{applicant} ~~corporation~~ are:

- (a) Cash on hand: \$ None
(b) Treasury Stock: \$ 21,750.00
(c) Bonds to be issued: \$ None
(d) Other resources: We sell stock to our local landowners whenever we need money. This we can do.

2. Quantity of water to be stored: 3538 acre feet per annum.
3. Source of water supply is Brundage (Creek) ~~XXXX~~ a tributary of Goose Creek ~~XXXX~~.
4. The outlet of the proposed reservoir is located S. 77° 30' W. 1710 feet, distant from the 1/4 corner of Sections 29 & 30, Township 20 N., Range 3 E., B. M. and is in the NW 1/4 of SE 1/4 of Section 30, Township 20 N., Range 3 E., B. M. County of Adams
5. Fill out either (a) or (b).
(a) The reservoir is located in the channel of Brundage (Creek) ~~XXXX~~.
(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from the corner of Section, Township, Range, B. M., and is in the 1/4 of 1/4 of Section, Township, Range, B. M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.
6. (a) The area of the high water line of the reservoir is 355.6 acres.
(b) The reservoir capacity is 3538 acre feet.
7. Height of reservoir dam 25 feet, length at top 450 feet, length at bottom 50 feet, size of outlet 24" steel pipe ~~XXXX~~ by feet. The dam is to be constructed of materials as follows: Concrete

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of Brundage (Creek) ~~XXXX~~? No
(b) Water stored in reservoir will be carried in the channel of See Remarks (Creek,) (River,) a distance of 6 miles to point of diversion located N. 46° W. 600 feet, distant from the E 1/4 corner of Section 28, Township 19 N., Range 2 E., B. M., and in the SE 1/4 of NE 1/4 of Section 28, Township 19 N., Range 2 E., B. M.
9. Amount of water claimed from (Creek) (River) (Spring) in addition to that stored in reservoir cubic feet per second.
10. Water is to be used for Irrigation and domestic purposes.
11. If for mining, milling, power or manufacturing purposes give:
(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range, B. M. and is in the 1/4 of 1/4 of Section, Township, Range, B. M.
(b) Amount of power generated: H. P., under feet head.
(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet distant from the corner of Section, Township, Range, B. M., in the 1/4 of 1/4 of Section, Township, Range, B. M.
12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. , which is hereby referred to and made a part hereof.

13. Kind of diversion works: Loose Rock Dam and Canal
(Dam, canal, flume, pipe, etc.)
14. Height of diversion dam: 5 feet, length at top 20 feet, length at bottom 20 feet. The dam is to be constructed of materials as follows: Loose Rock and Earth

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width 5 feet, Height 4 feet.
16. Diversion Canal: Width at bottom 4 feet, width at water line 5 feet, depth of water 2 feet, Dimensions of Flume
Diameter of Pipe inches; Length of Conduit 11 to 15 miles. Average grade per mile 30 feet.
17. Estimated cost of Works: Storage Works: \$ 20,000.00 Diversion Works: \$ 5,000.00
18. Time required for completion of work 5 years.
19. Time required for complete application of water to proposed beneficial use is 6 years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and store and appropriate the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

BRUNDAGE MEADOWS RESERVOIR COMPANY

Applicant.

By

T. L. Martin

Agent.

Date of first receipt at office of Commissioner of Reclamation 10:00 A. M. May 25, 1936

Returned to applicant for correction May 26, 1936

Corrected application received June 25, 1936

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is R 612

Recorded in book R 2, page 612

Approved June 27, 1936

This is to certify that I have examined the within application for a permit to construct a reservoir and store and appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$, to be filed on or before

Work to begin on or before August 26, 1936

and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One fifth of the work above specified to be completed on or before December 27, 1938

The whole of said work to be completed on or before June 27, 1941

Beneficial use of water stored in accordance herewith, to be made on or before June 27, 1947

Witness my hand this 27th day of June

, 19 36 .

R. W. FARIS

Commissioner of Reclamation.

PERMIT NO. R-612
 CERTIFICATE OF COMPLETION OF RESERVOIR AND RIGHT TO STORE WATER

Amount: 3,538 Acre Feet

Priority: May 25, 1936

To All Whom it May Concern:

This is to certify that BRUNDAGE MEADOWS RESERVOIR COMPANY, of New Meadows, County of Adams, and State of Idaho, the holder of Permit No. R-612, issued upon Application No. R-25546, bearing date of priority of May 25, 1936, authorizing the construction of a reservoir and the right to store the waters of Brundage Creek, a tributary of Goose Creek, County of Adams, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works as set out and described in said Permit;

That said works are adequate for the storage of 3,538 acre feet of water per annum;

That the location of the outlet of said reservoir is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 30, Township 20 North, Range 3 East, B.M.

That the right to store the said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer, and entered of record in Volume R-3 of Permits, at Page 612, Records of the Department of Reclamation, on the 14th day of March, 1947;

That the right hereby confirmed dates from May 25, 1936, and that the amount of water to which said right is, by this certificate, entitled to store annually, shall not exceed 3,538 acre feet.

WITNESS the seal and signature of the State Reclamation Engineer of the State of Idaho, affixed at Boise, Idaho, this 14th day of March, A. D. 1947.

RE: Brundage Meadows Reservoir Company R-612

Mr. Geo. N. Carter
State Reclamation Engineer
Room 107, Statehouse
Boise, Idaho

Dear Mr. Carter:

Referring to your letter written to Mr. Bailey Armacost on July 12, 1961 wherein some 3 items were set out as being essential for the future preservation and safety of the dam, as follows:

Item 1. It was noted that removal of trees from embankment has been substantially done.

Item 2. Construction of a boom in front of the spillway section would be costly, and that booms are not 100% effective; it was suggested that the logs be removed from the pool as being less expensive and more effective; also clean up the debris on the downstream face of the dam.

Item 3. The downstream face of the dam should be refaced as carefully as the upstream face has been refaced.

The writer, on October 16, 1961, accompanied by Messrs. Dryden, Rainey, and Moore, board members of Brundage Meadows Reservoir Company, R. W. Parks, District Forest Ranger, C. A. Stowell, Payette Forest Service Engineer, Levi Allen, Forest Service Area Engineer, his assistant, Jim Vandal, and A. E. Everts, Area Engineer for the Soil Conservation Service, visited the Brundage Dam.

The purpose of this visit was to confer with the above named parties concerning a betterment program, in view of the foregoing items, for the preservation and safety of Brundage Dam. There is nothing to add to reports in the files about the condition of Brundage Dam except, perhaps, that the down stream slope of the concrete section is somewhat more than 1 on 2, and the mass of concrete is more than would be required for a uniform slope of 1 on 2. This of course adds somewhat to its stability. The reservoir was empty.

on

R-612

Geo. N. Carter - continued
page 2

It is generally admitted that the concrete is not of the best quality. It is subjected to severe temperature stresses, but has withstood the test of 25 years service.

Several repair items have been made, notably refacing the upstream side, and filling out, raising and riprapping the earth embankments at each end of the central concrete structure.

There is some spalling on the downstream face, more perhaps than is desirable, and several spots show traces of slight seepage through the concrete. There are also traces of leakage at construction joints. Slight seepage has been reported as appearing at the foundation. The foundation is granite, one of the strongest rocks and perhaps the least subject to erosion. Seepage under the concrete is not a matter for great concern.

We have no specifications, but we do have a plan drawn by the Works Progress Administration, dated July 1, 1936, from which the dam is reported to have been completed. There have been sundry and various reports about the condition of it, and fear of its failure has been expressed. The Reservoir Company has been instructed to keep a watchman at the dam when the reservoir is being filled, and not to fill it until the end of the run-off each year. A reconstruction program has also been indicated as imminent.

In conclusion it is my opinion that the downstream face should be refaced as a measure which would insure durability to this structure and present a more reassuring appearance. A refacing job similar in quality, thickness, design and workmanship to the upstream face would give a fine job. Care must be taken to provide weepers for any seepage water that may appear. Contraction joints with water seals should be installed at least on 20 foot intervals and at sharp changes in the ground profile. The use of flash boards should be limited to the spillway notch and be designed to break at some predetermined water level in the reservoir. In the event of this breakage the matter of aerating an overflowing sheet of water must be provided beforehand.

R-672

Geo. N. Carter - continued
page 3

I believe that all parties concerned in this matter have concluded that this "refacing" is finally essential for the safety and durability of this dam.

We believe that further study should be made before a final plan is adopted; first, an inspection when the reservoir is full; second, determine if the volume of seepage has any relation to the height of water in the reservoir and whether this seepage passes through the dam, this preparatory to beginning a betterment program in August, 1962.

There are several items which have to do with good "house-keeping" that have been mentioned, such as removal of trees from embankments; of logs and debris from the reservoir and at the toe of the dam. In addition to this I suggest that a waterproofing paint be applied to the upstream face, and particularly to fill any honeycombed areas such as might appear along the contact of concrete and bed rock. These items should be done before the 1962 run-off has commenced.

Very truly yours,

CARL E. TAPPAN
Consulting Engineer

Messrs. Donart & Donart
Attorneys at Law
Weiser, Idaho

ATT: Mr. James B. Donart

Dear Mr. Donart:

Mr. Fred Mitchell of New Meadows inquired about Brundage Reservoir water rights and we sent you a copy of our reply at his request. The essential information as to the amount, priority and appurtenance of the appropriated waters under License and Certificate of Water Right No. R-612.

This right was initiated under the statutory procedure by application to appropriate and store the public waters of the State of Idaho, and completed to license by the statutory procedure.

The license makes the appropriated water appurtenant to certain lands, but the Department of Reclamation has no information as to how the Brundage Meadows Reservoir Company divides the water among the members or shareholders who presumably are owners of decreed rights to waters of Goose Creek under an adjudication decree or perhaps an adjudication decree on Big Creek and Little Creek.

In the delivery of water the watermaster of the water district (Water District No. 75-A) is appointed special deputy of the Department to deliver the stored water and the special deputy delivers the stored water according to the orders of the owner of the reservoir.

It is possible that the Brundage Meadows Reservoir Company, to which the license water right was issued is not the Brundage Reservoir Company which issued stock.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

GEORGE DONART
JAMES B. DONART

May 28, 1953

RECEIVED
MAY 29 1953
Department of Reclamation

Honorable Mark Kulp
Commissioner of Reclamation
State House
Boise, Idaho

Dear Mr. Kulp:

We are in the process of probating an estate which has among its assets land in Adams County near New Meadows, Idaho, and stock in the Brundage Reservoir Company.

An examination of the corporate records of the Brundage Reservoir Company discloses that it is an ordinary corporation and that its stock is freely transferable at the will of the owner and is not in any way appurtenant to the land.

It has been represented to us, however, that there is information in your office to the effect that the rights accruing by ownership of the stock in the Brundage Reservoir Company and the stock itself is appurtenant to the lands and that it is made to conform to and be a part of the decreed rights which, of course, are appurtenant to the land.

By way of clarification, I believe this land and a substantial portion of the land in Meadows valley depends upon decreed rights and the Brundage Reservoir storage as well. The decreed water which irrigates these lands comes from Goose Creek.

We would appreciate it if you could tell us whether there is any such record in your office and if there is, upon what set of facts it is based. The Articles of Incorporation and By-Laws of the company indicate clearly to the contrary.

Yours very truly,

DONART & DONART

RE: Permit No. R-612

Mr. Fred Mitchell
Box 262
New Meadows, Idaho

Dear Mr. Mitchell:

Reference is made to your letter of May 27, 1953, which we assume refers to License and Certificate of Water Right No. R-612, issued to the Brundage Meadows Reservoir Company.

This license is for the storage of 3,538 acre feet of water from Brundage Creek with point of outlet in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 30, Township 20 North, Range 3 East, B.M., for irrigation and domestic use on 4,520 acres located in the following sections:

Sections 5 & 6, Township 18 North, Range 2 East, B.M.
Sections 19, 20, 29, 30, 31, 32, Township 19 North, Range 2 East,
B.M.
Sections 24, 25 & 36, Township 19 North, Range 1 East, B.M.

The priority date on this license is May 25, 1936.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROPOSED CHANGE IN POINT OF DIVERSION

Notice is hereby given that the Brundage Ditch Company, by L. W. Whitney, President, of Meadows, Idaho, has applied to the State Reclamation Engineer of the State of Idaho for a certificate authorizing them to change their point of diversion from Goose Creek, by the addition of a second point of diversion located in the Southwest Quarter of the Northeast Quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 23, Township 19 North, Range 2 East, B. M. The water rights diverted from said Goose Creek are storage reservoir rights from Brundage Reservoir.

And that at 10:00 o'clock, A. M., January 28, 1949, at Room 107 State House, Boise, Idaho, before the State Reclamation Engineer or his authorized agent, the opportunity will be given to any and all persons to appear and present, for his consideration, any reason or reasons why a certificate should not be issued authorizing such change in point of diversion.

November 29, 1948

Mr. L. W. Whitney
Meadows, Idaho

Dear Mr. Whitney:

We wish to acknowledge receipt of the affidavit signed by you as president of the Brundage Ditch Company for application for change in point of diversion by the addition of a second point of diversion for the Brundage Ditch.

We have sent publication notice to the Adams County Leader to be published for two consecutive weeks, with date of hearing set as of December 17.

Providing no protests are filed, certificate changing point of diversion will be issued. However, it will be necessary for you to secure an affidavit of publication from the publisher of the Adams County Leader and mail the same to this office prior to the granting of said certificate.

Very truly yours,

MARK R. KULP

Re: Permit No. R-612

Mr. Blake Hancock, Secretary
Brundage Meadows Reservoir Co.
New Meadows, Idaho

Dear Mr. Hancock:

We now have on file the report of our field engineer on examination for completion of works and beneficial use under your Permit No. R-612.

A Certificate of Completion of Works and License can, therefore, be issued for 3,538 acre feet of water from Brundage Creek as applied for, upon receipt of the statutory fee.

The fee for completion of works amounts to \$6.50; the fee for beneficial use proof is at the rate of \$2.00 for each legal subdivision in which the land is located. In this case there are 115 legal subdivisions, which would amount to \$230.00. This with the \$6.50 fee for completion of works makes a total of \$236.50.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

REPORT OF ENGINEER

PERMIT NO. R-618

REPORT ON PROOF OF Completion of works and Beneficial use

3538 a. j. 2.

R-612

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. R-612

This proof is for Completion of works and Beneficial use In Water District No.

1. Name of applicant Brundage Meadows Reservoir Co., Blake Hancock, Sec'y., New Meadows, Idaho

2. Source of water supply: Brundage Creek
outlet

3. Location of point of diversion: Is in the NW¹ SE¹ of Section 30

T. 20 N. R. 3 E. County of Adams

4. Describe works as they exist, giving dimensions and capacities of same: A Combination Concrete and Earth, Gravity type Dam. The Concrete section is 220 feet long, and 29 feet high, with a Spillway notch 60 feet long X 1.4 feet deep. Vertical type Gate, with screw stem control, and 24 inch pipe outlet. Total length of Earth sections, 490 feet, long, X 25 feet Max. height. Main Canal 4 feet wide X 2 feet deep; Diversion Dam 20' long X 5' high.

5. Water is used for: Irrigation and domestic purposes

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): 4520 acres situated in

Sections 5 & 6, Twp. 18 N., Range 2 E., B.M.

Sections 19, 20, 29, 31, 32 Twp. 19 N., Range 2 E., B.M.

Sections 24, 25 & 36, Twp. 19 N., Range 1 E., B.M.

(Submit map on attached plat, showing location and details of above description.

8. What large stream would the water here appropriated finally reach? Salmon River

Remarks: Irrigation is principally for pasturage, and hay crops.

This Dam was built in the year 1935, and the aggregate used therein was obtained in the immediate locality of the reservoir, and was of a poor quality. The present condition of the concrete section is poor; both the upper, and lower faces show considerable spalling and disintegration, largely due to frost action, and the need of early repair is very evident.

This examination was made on the 7th. day of October, 1946

(Signed)

Red J. Johnson
Examiner.

Dear Blake:

On Saturday, August 24, I contacted Mark R. Kulp, State Reclamation Engineer, informing him of your plan to have the Brundage Meadows Reservoir empty by September 10, and therefore the dam would be available thereafter for inspection.

Mr. Kulp informs me that he will be out of Boise the week in which September 10 falls but could possibly arrange to make the inspection of the dam the week beginning September 15. He and I agreed tentatively to make a joint trip to the dam some time between September 16 and 22. Mr. Kulp will select the date and notify you accordingly.

Very truly yours

Re: Permit No. R-612
Brundage Meadows Reservoir Co.

Mr. Blake Hancock, Secretary,
Brundage Meadows Reservoir Co.
New Meadows, Idaho

Dear Mr. Hancock:

We acknowledge receipt of the depositions of yourself and two witnesses in proof of completion of works and beneficial use under the above numbered permit.

However, Question 6 in your proof of completion of works should definitely state that the works were so completed prior to June 27, 1941, the date required by the permit-which we understand to be the case.

Also, in your deposition in proof of beneficial use, Question 6 should describe more definitely the land on which the water has been applied, instead of just the total acreage. It will be sufficient to state that this land is within the several sections as described in the notice.

We are withdrawing these depositions for the above corrections, and in returning same please also send the affidavit of publication, which the Adams County Leader was instructed to furnish you, and which is a necessary part of the proof.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, June 14, 1946

Re: Permit No. R-612
Brundage Meadows Reservoir Co.

Mr. Carl G. Peterson
Notary Public
New Meadows, Idaho

DEAR SIR:

completion of works and

I enclose herewith the following forms to be used in connection with proof of/beneficial use of water under Permit No. R-612.....

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 24, 1946....., the date set for proof, the enclosed forms ^{separate forms for each proof} (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at New Meadows, Idaho..... before Carl G. Peterson, Notary Public.....

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Re: Permit No. R-612

Mr. Blake Hancock, Secretary-Treasurer,
Brundage Meadows Reservoir Co.
New Meadows, Idaho

Dear Mr. Hancock:

We acknowledge receipt of duplicate notice, and your authorization for us to have same published in the Adams County Leader, all in connection with completion of works and beneficial use proofs to be made under the above numbered permit.

We think there was a slight error in the notice, as it states that the proof is to be made on May 24th- but we assume this should be June 24th, and have changed the notice accordingly.

A copy of the notice has been sent to the new paper, with instructions to publish it once a week for four consecutive weeks, commencing with their issue of May 31st- and to send the affidavit of publication to you, together with statement of costs.

About ten days prior to the date set for proof we shall send to the Notary Public, Mr. Carl G. Peterson, the necessary forms of deposition, consisting of one for the holder and one for each of two witnesses- for each proof.

At the time set you should appear before Mr. Peterson, with two disinterested witnesses, who are familiar with the terms of the permit, and the works constructed thereunder, for the purpose of executing the depositions.

Very truly yours,

R-612

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at Eight P.M. on the 24th day of June, 1940, at New Meadows County of Adams State of Idaho, before Carl G. Peterson, Notary Public, proof will be submitted of the completion of works for the diversion of 3536 cubic feet per second of the waters of Brundage Creek and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. R-612 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Brundage Meadows Reservoir Company, New Meadows, Ida

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of use, in accordance with the plans accompanying the application for such permit, is 3536 Acre Feet cubic feet per second.

3. The use to which said water has been applied is Irrigation and Domestic purposes, and the amount applied to beneficial use is 3536 Acre Feet ^{annum} cubic feet per second.

4. The place where said water is used is 4520 acres situated in Section 6 & 3 Twp. 18 N. Range 2 E. B. M. Sections 19, 20, 29, 30, 31 & 32 Twp. 18 N. Range 2 E. B. M. and sections 24, 25, & 36 Twp. 18 N. Range 1 E. B. M. The date of priority which said user is prepared to establish is May 24, 1936

Re: Permit No. R-612

Mr. Blake Hancock, Secretary-Treasurer,
Brundage Meadows Reservoir Company,
New Meadows, Idaho

Dear Mr. Hancock:

We have received no reply to office letter addressed you on August 17th, requesting additional information in order to complete the notice of proofs of completion of works and beneficial use to be made under the above numbered permit.

As it stands, the notice reads that the proof is to be made at New Meadows, on November 1st, but it does not give the hour, nor does it name the Notary Public before whom the proofs will be made.

As it is necessary that this notice be sent promptly to the newspaper in order to get in the four weeks' publication before the date set for proof, will you please advise us as to the above items as soon as possible.

We shall then complete the notice, and send same to the Adams County Leader for publication; and when this has been done, we shall send to the designated Notary Public the proper forms to be used for making these proofs.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Chief Clerk

R-612

August 17, 1945

Re: Permit No. R-612

Mr. Blake Hancock, Secretary-Treasurer,
Brundage Meadows Reservoir Company,
New Meadows, Idaho

Dear Mr. Hancock:

We acknowledge receipt of duplicate notice of your intention to make completion of works and beneficial use proofs under the above numbered permit on November 1, 1945; also depositions of yourself and two witnesses in connection with completion of works proof.

The notice is not quite complete, as you should name the Notary Public before whom these proofs will be made at New Meadows, and also the hour set for making same. Please advise us as to this, in order that we may complete the notice, and at the proper time send a copy of same to the Adams County Leader, with instructions in regard to publication.

Perhaps Mr. Thompson did not explain to you fully, or you may have misunderstood him, in regard to the depositions in proof of completion of works. These proofs cannot be made until the date set in the published notice. We are returning them herewith, and shall send other forms for making both the completion of works and beneficial use proofs about ten days ahead of the date set- consisting of depositions for yourself and two disinterested witnesses.

In this connection, we call attention to the fact that Question 4 in the depositions should describe the land to be irrigated, and give an estimate of the amount of water required for its profitable cultivation; also Question 6 should describe the works of diversion, as well as give an estimate of their capacity; Question 2 should state the length of time the witness has known the permit holder. The returned depositions are incomplete in these particulars.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. R-612

Mr. Blake Hancock, Secretary,
Brundage Meadows Reservoir Co.,
New Meadows, Idaho

Dear Mr. Hancock:

We are writing in regard to the statutory proofs required to complete Permit No. R-612, in the name of the Brundage Meadows Reservoir Company, for the storage of water from Brundage Creek.

As stated in our recent conversation, the proof of completion of works was due on or before June 27, 1941, but has not been made. The final, or beneficial use proof is due on or before June 27, 1947.

In filings the size of yours, the law requires publication once a week for four consecutive weeks prior to making completion of works proof; and since this four weeks' publication is also required for the beneficial use proof, we wonder if you would not like to make both proofs at this time, and thus save the cost of two separate publications.

We enclose duplicate forms of a notice covering these proofs, partially filled out, to be completed by you, filling in the place where the proofs will be made, the name of the Notary Public, and the time which should be sufficiently far ahead to allow for the required four weeks' publication.

Both copies of the notice should be returned to this department, together with Form 11, also enclosed, which is your authorization for us to have the notice published at your expense, in a newspaper to be designated by you, in the county where the water is located.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. R-612

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before June 27, 1941. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

E. V. BERG.

Commissioner of Reclamation.

T. L. MARTIN
Attorney at Law
Boise, Idaho

Dear Mr. Martin:

Pursuant to your letter of April 12th, I have made a notation upon the office record of Permit No. R-612 to address all communications to you with regard to the proofs that will later be due under this permit.

However, proof of completion of works will not be due until June 27, 1941 and beneficial use proof will not be due until June 27, 1947, in which case it will be many years before any notice is mailed from this office with regard to these proofs. It is therefore suggested that this fall, at such time as you are ready to make the proofs, you notify this office of your intention so that the proper forms can be furnished you.

Very truly yours

Deputy Commissioner of Reclamation

Re: Brundage Reservoir Company
Permit No. R-612

Dear Mr. Faris:

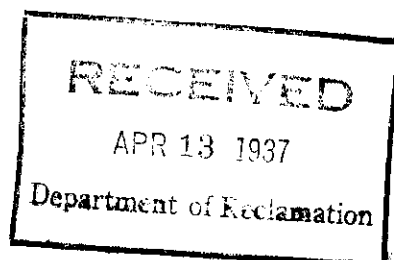

I wish you would note on your records that I am to act as attorney and agent for the above Company in connection with their proof of completion of works and application of the water to beneficial use.

As you know, the water from this reservoir will come down Goose Creek and then be diverted through a ditch around the south side of New Meadows Valley. The ditch is practically completed and the water will be used this year, and sometime this fall we would like to make proof of completion of works and application of the water to a beneficial use and secure the license.

Very truly yours,

T. L. Martin

Re: Permits No. R-513 & R-612

THOMAS L. MARTIN
Attorney at Law
Boise, Idaho

Dear Mr. Martin:

I have your letter of March 16th relative to the notice of cancellation which was served under Permit No. R-513. You are correct in your understanding that the Brundage Meadows Reservoir Company made a new application to cover this permit. Such application was filed on the 25th of May, 1936, and Permit No. R-612 was issued thereunder.

Inasmuch as the quantity of water claimed under Permit No. R-612 is sufficiently large to require a publication at the time when proof of completion of works is offered, it would be well for the company to offer both proof of completion of works and beneficial use proof at the same time so that a combined publication could be made. Then too, the department could make one examination to cover both of these proofs, and thus greatly expedite the issuance of a license under the permit.

Will you kindly advise us as to whether or not you wish to act as agent for the company in making these proofs? If so, we shall be glad to furnish the proper forms upon request. If you do not propose to act in this capacity, will you kindly advise us as to whom the forms should be sent?

These proofs will not be due for some time, but inasmuch as the works have been completed, proof might just as well be offered immediately.

Very truly yours

Deputy Commissioner of Reclamation

Re: Permit No. R-513.

Dear Bob:

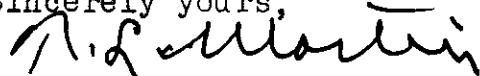

I received your notice of March 10 that the above permit is noticed for cancellation because of the failure to make Proof of Completion of Works.

As I understand, this is the permit issued to the Water Conservation Board. If this is correct we have no objection to its being cancelled.

About the 25th or 26th of May last year I filed an application for Brundage Meadows Reservoir Company for a permit to store water on Brundage Creek. You are perfectly familiar with this entire set up. The works were completed last fall and I am wondering when we should make application for Proof of Completion of Works. I wish you would let me know and I will take it up with the Brundage Meadows Reservoir Company as we would like to get this done.

We are storing water now and I am wondering if we can make Proof of Completion of Works and Application of the Water to Beneficial Use at the same time so as to get a license. This might save the Company a little money.

Sincerely yours,

T. L. MARTIN

MR. T. L. MARTIN
Attorney at Law
Idaho Building
Boise, Idaho

Dear Mr. Martin:

The above application to appropriate 3538 acre feet per annum of the waters of Brundage Creek in Adams County, which you filed in this office on May 25, is herewith being returned for completion, and the necessary maps.

Will you kindly give the information required under Paragraph 1, sub-paragraphs I and II? The application seems to be complete except for this information. When this has been supplied, please return the application with a tracing and a blue print showing a survey of the proposed project.

You may have sixty days from this date to return the application in the fully completed form.

Very truly yours,

Chief Clerk & Office Engineer
