Re: Permit No. 32477/78-2077

Idaho 83549

Dear Mr. Campbell:

One of the conditions of approval of your water Permit No. 32477/78-2077 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 13, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 32477/78-2077

Mr. Paul Albert Campbell
Riggins,
Idaho

Dear Mr. Campbell:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

We would like additional forms to keep.

RE: Permit Nos. 32408, N. O. Taylor
32476, Arvid Fredlund
32477, Paul Albert Campbell
32478, Dale E. Astle
License No. 15844, C. M. Clay

Arvid Fredlund
Box 24
Riggins, Idaho

Dear Mr. Fredlund:

We received your request in regard to water rights out of Papoose Creek and also a protest to proofs under Permit No. 32408.

This office cannot make a survey with instruments, of acreage irrigated under water permits. The area of land is estimated by pacing or taken from recent maps in the S.C.S. Office.

Water License No. 15844 was issued to C. M. Clay, priority of June 26, 1924, for 2.64 c.f.s. out of Shingle and Papoose Creeks for irrigation of 132 acres in the NE¹/₄SW¹/₄, Sec. 25; E¹/₂SW¹/₄, NE¹/₄, Sec. 36, Twp. 24 N., Rge. 1 W., B.M.

Permit No. 32408 was issued to N. O. Taylor, filed June 18, 1965, for 0.12 c.f.s. out of Papoose Creek for irrigation of 6 acres in the NE¹/₄SW¹/₄, Sec. 17, Twp. 24 N., Rge. 1 E., B.M.

The other three permits all have the same priority, being filed August 11, 1965.

The water code in Idaho provides that the first in time has the first right to the available water up to the amount used beneficially. The District Courts have decreed in other cases that when undisturbed water in a stream will not reach a prior right on account of sinking, the next right upstream has the right to use the water.

B32477

Arvid Fredlund, page 2

Use rights obtained by diversion and beneficial use of the water without a permit from this office are legal in this state. Such rights are not recorded and can only become recorded, dating back to first use, by action in the District Court. This office has no record of such rights to use the water.

This office cannot assume division of the waters of any stream until the rights of the various users have been decreed by the District Court.

The records of this office are shown above. If the users of the water cannot agree as to rights to the water, the only recourse is to take the matter to the District Court.
