IN THE MATTER OF PERMIT NO 28176/78-2063)

in the name of (Mrs.) Lillian E. Osborn)

New Meadows, Idaho)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law;
and,

WHEREAS, these changes raised questions as to the procedures to be followed by
holders of permits issued prior to the effective date of the amendments, May 31, 1967;
and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice
and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No 28176 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are
hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42,
Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit
holders expense for two weekly issues in the official newspaper of
the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of
works as originally specified, but will be required to submit proof
to the Department of Reclamation of the application of the water to
beneficial use on or before October 1, 1964. The permit holder
should be aware that failure to complete one-fifth (1/5) of the works
within one-half (1/2) of the time originally set for completion of
works may be grounds for cancellation at the instance of the department.

Dear Mrs. Osborn:

A representative of this department has made an examination of the works covered by your Permit No. 78-2063 and has found the following:

Quantity of water diverted: 0.02 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 0.02 c.f.s.

The maximum quantity diverted shall not exceed 0.57 acre feet per season.

Beneficial Use: Domestic purposes within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 11. T.
21 N., R. 1 E., B.M.

The priority date established is : February 19, 1965

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Very truly yours,

BOBBY D. FLEENOR

Permit No. 28176/78-2063

This proof is for b/u In Water District No.

1. Name of applicant Mrs. Lillian E. Osborn, 150 W. Midway, Broomfield, Colorado 80020

2. Source of water supply: unnamed spring,
~~unnamed stream~~, trib. of Little Salmon R.

3. Location of point of diversion: Is in the ~~N 1/2~~ and SE 1/4 of Section 11
T. 21 N R. 1 E County of Adams and Idaho

4. Describe works as they exist, giving dimensions and capacities of same: pipe lines
1/2 and 1 inch pipes, .75 conduit

5. Water is used for: domestic

6. State whether or not water has been turned into works of diversion:

yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

T. 21 N, R. 1 E, Sec. 11 NE 1/4 SW 1/4

Mrs. Osborn applied for 2 P.D.s but sold part of their land and are using only the P.D. in the SESE Sec 11. 21N-1E.

Next, the person who bought some land from Osborn will probably apply for the P.D. in the NE SW Sec 11 21N-1E

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Water comes from an unnamed spring through a 1" pipe to an 800 gal storage tank. a 1" pipe comes from the tank to the house. Water is used for domestic purposes for one family.

(domestic only)

Re: Permit No. 28176/78-2063

Mrs. Lillian E. Osborn
New Meadows,

Dear Mrs. Osborn:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Dear Mrs. Osborn:

We are enclosing a copy of your permit and the map that you submitted with your original application. Previously you submitted an affidavit forwarded to you in connection with establishing the type of system you installed, and this resulted in a Certificate of Completion of Works.

However, in order for you to obtain a license for this water and establish a water right, it will be necessary for a beneficial use affidavit to be submitted on or before March 23, 1970. We are enclosing an affidavit and instructions for your use.

As to your question concerning the location of the spring, the map would indicate that this permit covers both a spring on the east side, as well as a diversion from an unnamed stream on the west side of the Salmon River.

If we can assist you further, please contact us.

Dear Mr Higinson:

We have your letter of Feb 10,
Re: Permit No - 28176/78 - 2063.
We are in Denver at the present
time, but plan on being home
by the 1st of April. We do not
have the description of our property
with us, so we are not sure
of the location of this permit.

When we made application
it was for ~~two~~ springs, one
on the east side and one on
the west side of the Little Salmon
River. As we sold the piece of
property that we wanted the
spring for on the west side
of the river, we just let that go.

17-2-70
28176

But for the spring on the east side of the river and east of the house, we thought we had that all taken care of, as we had filled out all the papers sent to us and returned them.

We have put in 2100 ft of pipe, a 500 gallon storage tank and piped the water down to the house and yard.

If permit no. 27176/78-2063 is for the spring on the east side, would you please let us know at once, just what we need to do, as we do not want it to be cancelled.

Dear Mrs. Osborn:

Under the terms of your Permit No. 28176 you are required to complete your diversion works on or before October 1, 1964. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
