MR. HENRY WILSON

Dear Sir:

This will acknowledge receipt of your notice in duplicate for publication in connection with final proof under the above permit and also your authorization to have the notice Published in the Adams County Leader at Council.

You set the date for proof as 3:00 P. M. on May 6th. However, upon examining the records, we find that this proof is due on March 14th and in order to prevent any more loss of priority than is necessary, we have set the date ahead to 3:00 P. M. on April 4th. This will allow sufficient time for the publication and the necessary depositions will be mailed to Mr. Highley in ample time for the proof. You should appear at his office with two witnesses on the date specified for the purpose of executing the depositions.

We trust that this change will meet with your approval.

Very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

HENRY WILSON
Meadows, Idaho

Boise, Idaho, **January 10, 1935**

Dear Sir:—

Under the terms of your permit No. ~~18834~~.....you are required to complete your diversion works on or before **March 14, 1935**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
