Re: Permit No. 14883

Mr. Charles A. Campbell,
New Meadows, Idaho.

Dear Sir:-

In our letter to you of November 4 an error was made in the amount of fees. The letter should have read \$16.00 instead of \$6.00, as there are eight legal subdivisions included in the proof and the statutes provide a fee of \$2.00 for each 40-acre tract or fraction thereof. This would leave a balance due amounting to \$10.00 which please send at your early convenience. We regret very much that this mistake occurred.

Mr. Lee Highley,
New Meadows,

Dear Sir:

Reference is made to your communication of March 13th, transmitting two application to appropriate water and asking for information concerning the transfer of permits Nos. 14883 and 14884 to the "Circle C Ranch."

In order that title to the said permits may be vested in the ranch company, it is only necessary that simple assignments of all right, title, and interest in and to the said permits be prepared and signed by the present owners. Upon receipt of certified copies of these assignments we will then place them of record with the permit.

Trusting this will give you the necessary information, I am

BOISE, IDAHO, **July 1, 1924**

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works under Permit No. **14883**

DEPOSITION OF PERMIT HOLDER.

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On **July 12, 1924**, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at **New Meadows, before Geo. S. Mitchell, notary public.**

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

W. G. SWANSON,

Gentlemen,

Referring to your letter of April 30th, I am enclosing notices for publication for permits 14883 and 14884 issued to Charles A. Campbell. There is also enclosed an application for extension of time as to permits R-173 and 14858, by the Goose Lake Reservoir Company.

Concerning permits R-320 and 14820 no further action will be taken. An extension of one year would not avail, and Mr. Campbell will rely on making a new filing at some future time should occasion demand.

Yours very truly,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Chas. C. Campbell,
New Meadows, Idaho.
Dear Sir:—

Boise, Idaho,
May 14, 1924

Under the terms of your permit No... *14883*.... you are required to complete your diversion works on or before *Aug. 24, 1925*. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

V. G. BENDIS.

Re: Permits Nos. R-173-R-226
Permits Nos. 14883-14884
Permits Nos. 14883-14884

Mr. Lee Highley,
New Meadows, Idaho.

Dear Sir:-

Referring to your letter of the 25th inst. would say that we have filled out notices for proof of completion of works for Permits 14883 -4 and enclose the same to be completed as to the time, the date, the place and the name of the notary public before whom you desire to make proof. These notices should then be returned to this office and one copy will be mailed to the paper designated by you upon the blank accompanying the notices.

In order to get an extension of time under Permit No. R-173, it will be necessary to publish application for extension two weeks, two consecutive issues of the paper, prior to the date set for the hearing on such application. If no protests are filed against the application for extension, it will not be necessary for the holder to appear at this office for the hearing or to submit further affidavits in the matter. The extension will be granted in regular order. Two years extension may be granted under this statute, copy of which you will find on the back of the blank.

Under Reservoir Permit No. 226, one year's extension may be granted by simply making application upon the blank enclosed for this permit, inasmuch as only four years have already been granted. The statutes allow five years from the date of the approval for completion of works. These blanks should be completed and returned to this office as soon as you can conveniently do so.

Very truly yours,
W. G. SWENDSEN,
Commissioner of Reclamation.

Dear Sir,

About June 1920, I made up two applications for C A Campbell or his son Albert Campbell, for water filings.

One of these applications was for about 500 inches of water from Goose Creek to be applied on lands on the east side of the Little Salmon river in section one, Twp 19 N., R 1 E, and Sec 36, T 20 N, R 1 E.

The other application was for about 300 inches of water from the Little Salmon river to be applied on lands on the west side of the Little Salmon river in the same two sections mentioned above.

Mr Campbell is unable to find the copies of the filings which were returned to him, and we do not remember the time fixed for completion of work. However the work has been completed and it is desired to proceed with the proof.

It seems to me that the necessary thing to do in this case is to secure a copy of the filings from your office. Is it permissible for you to send these papers to me for a few days until I can make copies, or can some one in your office make the copies and send them to me with his charges for the work. Either plan would suffice, and we should thank you for the kindness.

Please advise the course to pursue.

Yours very truly,

Lee Highley
