Re: Permit No. 14574
Frank Del Baere & W. H. Campbell

MR. L. C. HICKEY
New Meadows,
Idaho

Dear Sir:

In reply to your inquiry of September 28rd we wish to inform you that Permit No. 14574, to which you referred, was issued to Mr. Del Baere individually, for 2 second feet of water from SIX MILE CREEK. Beneficial use proof was never made under this permit.

The permit, to which you refer, is No. 14574 which was issued jointly to the above mentioned parties for 2 second feet of water from BROWN CREEK and 5 tributaries. The plan of appropriating this water contemplated discharging the water into Six Mile Creek and later diverting it by means of a private ditch, to the lands to be irrigated.

Beneficial use proof was offered some time ago and the required field examination was made. The permit holders were notified that a fee of \$8.00 was due but the fee was never paid, which is, as you suggested, the reason that a license was not issued.

You say that a party by the name of Gilderoy purchased Mr. Del Baere's place in 1928 and is now desirous of obtaining the final certificate to the water right. In view of the fact that this permit at present stands in the names of two parties it will be necessary for the license to include both of them unless it so happens that Mr. Gilderoy has purchased Mr. Campbell's right. However, the first thing Mr. Gilderoy should do is to have his deed recorded in this office so that the records will show the true situation.

Very truly yours,

Gentlemen,

*Permit
#14575*

A few years ago Frank DelBar and W H Campbell filed (#14575) on the water of Brown's Creek on the west side of Granite Mountain, delivering the same into Six Mile Creek, thence by ditch to their land some four miles away.

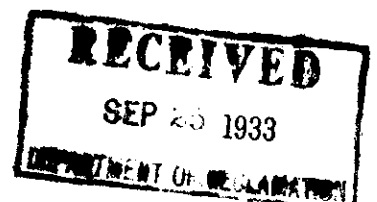

In 1928 Mr Delbar sold his land to R E Gilderoy who is now applying for a Federal loan on the land. It appears that Mr Gilderoy never received a certificate of title to the water under this filing, and there is a question as to whether or not the final fee of \$3.00 was ever paid to the Department.

Will you please advise me how the matter stands. If there is a payment to be made before title can issue, the filers wish to make it and get final papers.

Thanking you for the information, I remain,

Yours very truly,

Lee Highley

Dear Sir:-

Referring to your letter of the 18th inst. would say that the notice sent you should have been for beneficial use of water and not completion of works, as you have already made proof for completion of the works and received certificate for same. You then had five years additional time for beneficial use of the water hence only one year's extension could be given for this proof. However, the proof of beneficial use of the water will be accepted if made at a later date than specified in the permit but the date of priority will be brought down accordingly.

Blank is herewith enclosed for extension of time for beneficial use of water for the one year's extension,

Commissioner of Reclamation,
Boise, Idaho.

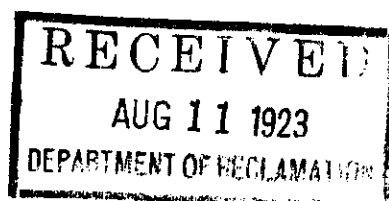

Dear Sir,

Messrs. Frank DelBar and W H Campbell who have a filing to take water from Brown's creek and tributaries, divert it to Six Mile Creek, reclaim it in Sec 30 T 20 N R 2 E and use it for irrigation in Sections 13, 14, 23 and 24 T 20 N R 1 E, desire to get sixty days' extension of time for completion of the lower end of ditch.

Will you please send direct to Mr DelBar the necessary blanks to be used in making request for extension of time. This extension is asked because of the unusual wet weather of this Spring and for the further reason harvest is now pressing.

Yours very truly,

Lee Highley
