In Re: Permit No. 13954.

Mr. Gus. E. Meyer,
New Meadows, Idaho.

Dear Sir:-

Referring to your letter of the 10th inst. would say that, under the provisions of section 5579 of the Compiled Statutes of Idaho, the Commissioner of Reclamation is required to fix the date of priority of a licensed water right from the date of the application for permit and has no authority for giving an earlier date, regardless of when the water might have been used on the land. If an earlier priority is required, it would have to be established by court decree.

Very truly yours,
W. G. SWENDSEN,
Commissioner of Reclamation.

Dear Sir: Please let
me know if I could
have my rights dated
back to the time when
I actually used the water,
I believe I can get witnesses
that helped me do work
on the ditch. I filed on
this ranch in 1904, and
started to work on the ditch
that summer. Since then I
have always had water on
the ranch. Yours Truly

PROOF OF BENEFICIAL USE

BOISE, IDAHO, **April 26, 1920.**

Gustav E. Meyer,
c/o J. Edwin Thmert,
New Meadows, Idaho.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under Permit No. **13954.**

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On **May 10, 1920,** the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to at ~~New Meadows, before the above named notary public.~~

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice. When these have been received, together with report of examining engineer, you will be further advised as to fees due before issuing license.

Yours truly,

E. G. Swendsen,

State Engineer.

Re Permit 13954.

Mr. Gustav H. Meyer,
New Meadows, Idaho.

Dear Sir:--

Replying to yours of the 24th inst., in which you enclose affidavit of holder for proof of completion of works, with check for fees in the sum of \$5.00, and notice of final proof, would say that your proof of completion of works has already been made and certificate issued to you. I am, therefore, returning your affidavit and check for \$5.00.

I have set the proof of use of water at 10:30, A. M., May 10th, at New Meadows, before J. Edwin Emmert, notary public. If this is not satisfactory to you, please to advise us at once and make the change desired, in order that notice may be mailed out for publication.

This will bring your priority down to October 10, 1919, instead of March 31, 1919.

Very truly yours,

W. G. SWENDESEN,

Commissioner of Reclamation.

In making the filing papers Mr. Lucas put in for 190 acres
it should be for just 100 acres, and I really don't know how to

Dear Sir:—

Under the terms of your permit No. 13954 you are required to complete your diversion works
on or before Oct. 10, 1919 I enclose herewith blank affidavit to be filled out, sworn to by you
before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date,
or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon
receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works
substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of
Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for
which application was made, as it only confirms the completion of works of a capacity to divert and convey
to the place of intended use a certain amount of water. The law requires that another proof be submitted
when the water has been fully applied to a beneficial use, at which time license is issued for the amount
of water actually in use. Information in regard to this last proof will be furnished on request.

Dear sir:

Replying to your inquiry under date of May 21st, you are advised that you have the right to change the course of your ditch or the construction thereof, provided you show upon proof of completion of works that it is still capable of carrying the permit amount of water. If the point of diversion of the water is to be changed, then in that case you must make application for such change on a blank furnished by this office.

As to the second portion of your letter, I take it you desire to obtain water from a private ditch; if this be true it is a question to be settled between the owner of the ditch and yourself.

Dear Sir.

I wish to know a few things
in regard to my ditch.

The number of application is
19816. and the permit #213954
I have been using this ditch
for years and would like to
prove up. Does it make any
difference if I make some
changes. I started ~~work~~ last
fall to put in a cut off which
will do a ^{with} major trouble I
have about the ditch going

a cross the pullie, and it
goes across the road twice in
about 250 ft. this cut off will
shorten the ditch and be less
trouble on account of autos
breaking the embankments and cattle
on the road breaking the ditch.
Please let me know if I can
turn up now and what I
have to do.

P.S. Dear Sir. I wish to know if I can get
a right if I used the water last year which came
from the Hick. Kansokut & Farrel ditch. there is
lots of water left in the stream where they take
it from. it seems as if they won't give me any
right. Could I get some one to inspect it. I just
need enough for 5 acres years ago the person who
