RE: License No. 77-7384 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

Secretary**

MICROFILMED

JAN 24 2002

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

77-7384

1. skeen 9/20/2001 License Review

Comment: License review begun 9/20/2001 by S. Keen. Rights 77-07383 and 77-07384, both for uses in the Boy Scout Camp, are the only water right filings diverted or used in the SW of S. 2, T12N, R11E.

2. skeen 9/24/2001 Annual Diversion Volume

Comment: The field examiner recommended an annual diversion volume of 12.4 AF based on continuous diversion for 8 hours each day for 120 days. This does not quite compute because it would take a diversion of 70 gpm (0.16 cfs) to reach 12.4 AF within that time.

The permit limited the use to 13,000 gallons per day. I am recommending a volume of 4.8 AF based on 13,000 gallons per day over 120 days.

3. SLESTER 2/25/2000 ADDITIONAL INFORMATION

Comment: APPLICANT'S: Hot water collected via 3 shallow groundwater collectors. Domestic use is for showers at the camp. IDWR'S: See Comments in companion application 77-07383. Both filings meet the same processing criteria. Heat value of the source in 77-07384 is for the camp showers, and domestic use in this case appears to meet the requirements of I.C. Sec. 42-233.

4. SCURTIS 5/4/2000 CORPORATE OFFICERS

Comment: The officers of the Snake River Area Council of Boy Scouts of America are: Coulson Parrish Al Nickels

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NOS. 77-07383 & 77-07384

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use forms and field examinations submitted for the above referenced permit. The next step in the process of developing a water right is for the department to review the field examinations for licensing.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

Sincerely,

Deborah J. Gibson

Re: Beneficial Use Field Report-Boy Scouts of America -Camp Bradley
77-07383 and 77-07384

Dear Mr. Spackman:

Enclosed please find Proof of Beneficial Use forms and Beneficial Use Field Reports for water rights 77-07383 and 77-07384 for the Boy Scouts of America, Snake River Area Council at Camp Bradley. These examinations are for wells providing drinking water and for low temperature geothermal water providing warm water for showers and laundry.

Thank you for your prompt processing of the permit applications.
Please call if you have any questions on the field exams.

Thank you.

Sincerely,

Charles E. Brockway P.E. PhD.
Certified Water Rights Examiner

Beneficial Use Exam - Water Right 77-07384

Exam Completed For: Boy Scouts of America-Snake River Council
August 21, 2000

A field examination to verify beneficial use of water under water right 77-07384 was conducted on August 21, 2000 by C.E. Brockway P.E.

This non-consumptive right is for 0.13 cfs for use in showers at the Bradley Memorial Camp in Custer County. The water is diverted from three ground-water collectors, consisting of 5 ft diameter corrugated metal pipes installed vertically into the gravels. Hot water flows from the three collectors through PVC pipes into a fiberglass tank. A pump near the tank boosts the water to the boys and girls shower rooms and laundry facilities. The ground water collectors are located in the SE ¼ SE ¼ Section 2, T12N, R11E and the place of use is within HES #79.

The pumped water is about 95°F at the pump station. Flow from the collectors was measured with a 90° v-notch flume. Total discharge was 56.14 gpm or 0.125 cfs. The camping season on Camp Bradley is approximately 120 days and assuming water use 8 hours per day average, the seasonal use is estimated at 12.4 acre feet per year.

Recommendations:	Diversion Rate	0.125 cfs
	Annual Volume	12.4 acre feet

No water meter installation is required.
All other conditions of the permit have been met

Signed,

Charles E. Brockway, Ph.D., PE

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of application of water to beneficial use shall be submitted on or before May 1, 2002.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
5. The domestic use authorized under this right shall not exceed 13,000 gallons per day.
6. Three points of diversion are located within SESW, S2, T12N, R11E.
7. Domestic use is for showers at Bradley Memorial Camp.
8. Place of use is located within H.E.S. #79.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

8th day of May, 2000.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 77-07384

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

MICROFILMED

JUN 20 2001

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley Keen".

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

CERTIFICATE OF SERVICE

All documents intended to be part of the Department record in connection with a preliminary order shall be served upon the representatives of each party of record. Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate.

I HEREBY CERTIFY (swear or affirm) that I have this day of _____, served the foregoing (name(s) of document(s)) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).
(Signature) _____

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when (a) the petition for reconsideration is disposed of; or (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

RIGHT TO HEARING

Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department is otherwise provided by statute, any person aggrieved by any decision, determination, order, or action of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the Department, who is aggrieved by a denial or conditional approval ordered by the Department, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Department to contest the denial or conditional approval upon filing with the Department, within fifteen (15) days after receipt of the denial or conditional approval, a written permission stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

If a preliminary order becomes final, any party aggrieved by the final order or orders previously issued in the case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which (a) a hearing was held, or (b) the final agency action was taken, or (c) the party seeking review of the order resides, or (d) the real property or personal property that was the subject of the agency action is located. The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. See Sections 67-5270 through 67-5273, Idaho Code.

FROM: Steve Lester 

MAY 4 - 2000

Department of Water Resources

DATE: May 2, 2000

RE : Conditions of Approval for 77-07383 and 77-07384

These applications for the Bradley Memorial Boy Scout Camp should be approved as noted. The site is located in the Marsh Creek drainage near Cape Horn. This is just upstream from the south boundary of the Frank Church-River of No Return Wilderness Area. Both applications include ground water sources for non-consumptive use within the limits of I.C. § 42-111(1)(a). Due to these factors, the "request to process" form and the "wilderness moratorium" issues within Basin 77 are not applicable.

Consultant Chuck Brockway is handling the water right process for the applicant. Brockway provided the following information about the applicant: signatures are by Coulson Parrish, property manager, and the president is Al Nickels. Brockway said that he has authority to sign for the applicant and approved the application amendments prior to advertising (no extra fees required). The only substantial change to the filings was to clarify the P/U in two tracts instead of one. This was a minor mapping point and should not advance the priority dates. During his 2-24-00 office visit, he stated that no yard etc. irrigation would occur from either system.

Application No. 77-07383 includes two pre-1987 cold water wells. One well log was found and is attached. Two P/D are in the same tract. Domestic use is for drinking and washing water at the camp.

Application No. 77-07384 covers three existing ground water collectors from a low temperature geothermal source. Three P/D occur in the same tract. The heat value will be used for showers in the domestic context. I suppose an argument could be made that the use of water should be called heating, but I think the domestic term is acceptable in this context. The requirements of I.C. § 42-233 appear to be satisfied for this application.

Both proposals are within portions of H.E.S. #79.

I recommend approval of the applications with standard conditions plus the following for each case:

- Allow two years to complete development to allow time for system modifications as needed.
- Use is non-consumptive ... yard etc. irrigation is not authorized.
- Use is limited to 13,000 gallons per day.
- No new well drilling activity is approved at this time.

Re: Application for Permit Nos. 57-07681 in the Name of Sunrise Alpha Water Co., 63-12570 in the Name of Hope House, and 77-07384 and 77-07383 in the name of Boy Scouts of America.

Dear Sir:

Enclosed are copies of the above-referenced applications for permit which may be of interest to your agency. Please review the applications and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter. However, if your agency desires to file a formal protest against the approval of this application(s), your written protest along with the \$25.00 protest fee must be received in this office by April 3, 2000.

If you have any questions regarding the applications, please contact this office.

Sincerely,

A handwritten signature in black ink that reads "Gary Spackman".

Gary Spackman
