PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 77-07367 Telephone No. SUMMER (208) 636-2005
OTHER (850) 482-2005
2. Name(s) of Permit Holder(s): GERALD L. AND MYRA G. CHATWOOD
3. Mailing Address: P.O. BOX 613 MARIANNA, FL. 32447
4. Source of Water: UNNAMED STREAM If GROUNDWATER (well), Date Drilled: mo. ____ / yr. ____
 - a. Well Driller: _____ Drilling Permit Number: ____ - ____ - ____
 - b. **OPTIONAL:**
Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): 1 Stockwater (No. and type of stock): _____
Irrigation (No. of acres): _____ Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: .04 cfs OR _____ acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device:	Is a measuring device required?	Yes _____ or No <u>✓</u>
	Has the measuring device been installed?	Yes _____ or No _____
Flow Measurement Port:	Is a flow measurement port required?	Yes _____ or No <u>✓</u>
	Has the measurement port been installed?	Yes _____ or No _____
8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: GERALD CHATWOOD Telephone Number: (208) 636-2005
Address: HC 66, SOUTH FORK STAR ROUTE, McCALL, ID 83638
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Permit To Appropriate Water

NO. 77-07367

Proposed Priority: November 20, 1997 Maximum Diversion Rate: 0.04 CFS

This is to certify, that MYRA G CHATWOOD
GERALD L CHATWOOD
PO BOX 613
MARIANNA FL 32447-0613

has applied for a permit to appropriate water from:
UNNAMED STREAM tributary of SALMON RIVER, SOUTH FORK

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
DOMESTIC	01/01 to 12/31	0.04 CFS
FIRE PROTECTION	01/01 to 12/31	0.04 CFS
	Totals	0.04 CFS

LOCATION OF POINT(S) OF DIVERSION: Lot 2(NWNE), Sec. 2, Township 21N, Range 07E
VALLEY County

PLACE OF USE: DOMESTIC

TWN RGE SEC

21N 07E 2 Lot 2(NWNE)

PLACE OF USE: FIRE PROTECTION, same as DOMESTIC use

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 2001.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. The right holder shall comply with all fish screening requirements of the Idaho Department of Fish and Game.
5. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 77-07367 AND 77-07368

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **WESTERN** Regional Office of the department in Coeur d'Alene at (208) 334-2190.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

Re: Field Examinations of Water Systems

Dear Water Right Owner:

You are one of five water right owners of individual water right permits serving property in Trails End Subdivision. I plan to conduct field exams of completed water delivery systems right after Labor Day of this year. The purpose of the field exams is to verify the completed development in order for this department to issue water right licenses, which represent the end product of your water right process.

Seven water right permits for five owners are involved. I already conducted the exam for Keithley's cabin (#77-07346). I also conducted the field work for the community system several years ago, so I am familiar with the site.

A field exam can be done for a permit in which the proof of beneficial use has been filed by the owner. The proof filing is your statement that the development has been completed. For domestic situations, you do not necessarily have to finish building the cabin. As long as you have completed a water delivery system and have made beneficial use of that water in a domestic setting such as camping etc., your domestic use will be recognized in the licensing process.

For example, a diversion system and a delivery line ending at your domestic site -- whether it be a cabin, an occasional use of a trailer or camping set up, or something similar -- can be licensed within your domestic permit.

Proof has been filed for three permits. Proof is due within the next two years for three other permits. For the latter group, you may choose to file your proof right away if your development is completed as discussed above. The proof filing fee is \$50. Early filing of the proof of beneficial use will allow me to conduct all of the field exams at once, which will save the taxpayers quite a lot of money in the long run. Do not file your proof if your development is not completed as discussed above -- instead, use

MICROFILMED

JAN 31 2000

August 4, 1999
Page 2

your remaining development time to complete your system before filing proof.

Please review the attached table and diagram and send your response to me as soon as possible. That will help me complete the necessary field work to advance your permit into a license, which will protect your water right and enhance the value of your property. Please call me at 334-2190 if you have any questions or concerns about this arrangement. Thank you very much for your help in this matter.

Sincerely,

Steve Lester
Water Rights Supervisor

Leland Kelly

MIKROFILMED
JAN 31 2000

Table 1. Trails End Subdivision Permits.

<u>Owner</u>	<u>Right #</u>	<u>Proof filing</u>	<u>Comments</u>
Keithley	77-07346	filed 1996	Lot 22, field exam done 1997
Cross	77-07339	filed 1998	Lot 13, river water, exam can be done
Cross	77-07363	filed 1998	Lot 21, unnamed stream, exam can be done
Kelly	77-07364	filed 1998	Lot 43, unnamed stream, exam can be done
Hartung	77-07357	due 2/2000	Lot 16, unnamed stream, file proof if development done
Chatwood	77-07367	due 3/2001	Lot 12, unnamed stream, file proof if development done
Chatwood	77-07368	due 6/2001	Lot 12, river water, file proof if development done

If you have filed or are filing proof now so exams can be done:

- 1) See attached diagram with your lot(s) shown.
- 2) Send me a brief diagram that describes what your cabin or site looks like.
- 3) Include directions of how to locate your diversion point once I get to your lot. Indicate how water is conveyed from the diversion point to your cabin or other place of use (i.e., 50' of 2" buried pipe).
- 4) If your diversion is a portable pump, list the brand name, horsepower (hp) and serial number of the pump. If the portable pump is stored at the site but I will not be able to see it to read the pump tag, please provide your best recollection of at least the hp of the pump.

If I can identify your point of diversion, type of diversion, conveyance system from the diversion, place of use (cabin, camping spot etc.) and any hp etc. specs for pumps, the field exam will be completed and your license will be issued.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 77-07367

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

MAR 11 1998
MAR 03 1998

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

77-07367/Chatwood (Unnamed Stream, trib. to SF Salmon River)

Dear Mr. Lester:

We have reviewed the above pending water right applications from the South Fork Salmon River mainstem, tributary, and adjacent spring, and we offer the following comments for your consideration.

The above water right filings amount to a cumulative total of 0.28 cubic feet per second. We do not anticipate significant adverse effects to native fish populations (chinook salmon, steelhead trout, westslope cutthroat trout, bull trout, mountain whitefish) or fish habitat as a result of permitting these applications. At this time, we do not recommend any conditions based on fish or wildlife concerns.

Thank you for the opportunity to comment. Questions should be directed to Scott Grunder, Natural Resources Biologist.

Sincerely,

Al VanVooren
Regional Supervisor

CONVERSATION MEMORANDUM

DATE 12/8/1997FILE 77-07367NAME OF PARTY Gerald ChatwoodEMPLOYEE TJ. Trinacchi

RE: Mr. Chatwood ~~after~~ ~~return~~ returned my call regarding ownership of the point of diversion. He will move to diversion point to LOT 12, which he owns. A small stream runs through his property (new since flooding occurred last year). This stream is tributary to Salmon River, S.F.

We also discussed the influence of the Governor's Bill Trout Plan. I indicated IDWR was getting close to finding language that IDFG could agree to, and that he would receive a letter from IDWR explaining the State's position.

Mr. Chatwood requested another Application for Permit form for ~~a~~ possible submission for a backup domestic use from Salmon River, S.F.

Finally Mr. Chatwood indicated that his property was served by the community system (77-07241) before it was destroyed by the floods last year. However the field exam for licensing does not show LOT 12 B15 ~~3~~ as part of the system.
