TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: License Amendment

Date: May 1, 2002

.....

Erlene West called me this morning in regard to our request for licensing amendment. Mrs. West told me she had contacted the Idaho County Assessor's office in regard to the location of their property. Leah, at the assessor's office (983-2742), told Mrs. West that their property was located in the SWSW, Sec. 1, Twp. 25N, Rge. 9E. I told Mrs. West that if she would send me a copy of their metes and bounds description I would compute their location with our Deed Plotter program and see what I came up with.

Mrs. West also stated that they have sold their outfitter's business and that they only use the water for their cabin and bathhouse now. They may rent their cabin out to different parties but will not use it for outfitter's business. She also stated that they only have 6 head of stock now, rather than 25 as found by the examiner.

Mrs. West is going to make changes on her amendment form and return it to us along with a letter that includes all the information she gave me over the phone, a copy of their metes and bounds description and the amendment filing fee. She also gave me a new address to contact them. I told her to include that in her letter to us and then we would change our records.

RE: Water Right Permit No. 77-07330

Dear Permit Holders:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

Place of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 208-327-7944.

Sincerely,

KAY WALKER

E. NARRATIVE/REMARKS/COMMENTS

- Use is Domestic for an outfitter's base camp and stockwater for 25 horses or mules. (internal/external)
- No govt. lots were found.
- Recommend amending P/U to read:
T25N R9E S1 NESW, per exam + previous exam 77-07282, + this WR being on the water-side of the road past the Whitewater Ranch after the road splits, + one road goes towards the river + the other towards the landing strip. The landing strip is above the road, the P/U is between the road + the river.
- Per Steve Lester 11/1/88 on WR 77-07282 77-07282, the map is an unsurveyed area, boundaries are approximated from the Nez Perce Nat'l. Forest Recreation Map, + should assume equal sizes per tract within short section such as S1.
- No other water sources available. No other WR's.
- The system consists of ^(20')1 1/4" PVC w/ a screened area over it laid in Robertson Creek, then converts to 1 1/4" ABS buried + runs next to WR 77-07282 storage tank, but this WR does not have a storage tank, it is 2220' of 1 1/4" ABS buried to P/U; ~~to~~ flow is gravity flow, w/ a shut-off valve 50' from the P/U. The system is piped to an outside sink, the bathroom, kitchen, + hose bibs for external use.

Re: Permit No. 77-07330

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use Robertson Creek (surface) for your source. Therefore, a license examination fee of \$50 applies to each permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson
Senior Secretary
