ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

RE: WATER RIGHT NO. 77-07326

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

Water from a spring is diverted through a 3/4ths" pvc 150' to a cabin for domestic use. Applicant also included mining as a use but acknowledged on the proof form that the mining use = domestic applications at the mill site, such as washing tools. With 25' head (per applicant and topo), The attached pipe flow theoretical calculated flow rate at .0005 cfs. Because of this diversion's remote location and incidental uses, I notified the applicant to send photos of the diversion works and place of use.

Have conditions of permit approval been met? X yes no

Re Water Rights Permit no. 7707326 (for water use at the Mammoth Mountain mines in the Dixie Mining District of Idaho County)

Dear Ms. Graves,

In accordance with our agreement last July I am enclosing pictures and a markup of your map. I am afraid it has taken me a long time, between forgetting the camera and running out of film.

If I remember correctly the pictures and the map are all that you require to complete the water permit.

I should point out that the 3/4 inch pipe does carry a full volume of water with about a 25 foot head when the intake screen is cleaned out once a year or so.

As noted on the map the spring is about 150 feet NE of the cabin and about 1250 feet due north of Mineral Marker 3371. A good volume of water comes from the spring (actually two springs within about 50 feet of each other), but the stream goes underground just past the cabin and there is no visible water in the stream bed for about a half mile.

Yours truly,

Robert C. Painter

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 77-07326

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

Post Falls, ID 83854

RE: Permit No. 77-07326

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it can not be accepted as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use a spring (surface) for your source. Therefore, a license examination fee of \$50.00 applies to the permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

Please return the original proof and license exam fee within thirty (30) days of receipt of this letter.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 77-07326

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 77-07326

Dear Permit Holder:

The Department is in receipt of your correspondence sent in connection with the above referenced permit.

In that correspondence you have requested that the proof of beneficial use due date be extended. However, after looking at the permit, I find that the proof due date is May 1, 1994 not 1993 as I suspect you thought.

From the information in your letter, I understand that you plan to have the system working by the end of this summer, which will be within the time frame allowed. When your system is up and running and you are beneficially using the water, you can submit the proof of beneficial use form. If, for some reason, you are not beneficially using the water by next spring, you can then request an extension of time. Please note, that the Department will notify you by certified mail 60 days in advance of the proof due date.

In the mean time, if you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Statehouse Mall
Boise, Id 83720-7866

Dear Ms. Chapman,

In regard to Water Permit No. 77-07326:

I will not be able to apply the water for beneficial use until June or July--the area will not be accessible very early this year. I probably misunderstood the question on my application--at any rate it appears that I should ask for the date of proof of beneficial use to be extended until I can definitely have the system working: September 1st would be much better in that case.

Perhaps I should point out the system was first installed about 70 years ago, but the old iron pipes are clogged up. I plan to replace them with plastic pipes in order to obtain "beneficial use". I will check with the Dept of Health and Welfare as you suggest in case I should do something a little differently than before.

Please advise me if there is a problem.

Sincerely,

Robert C. Painter

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 77-07326

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Sincerely,

A handwritten signature in cursive script that reads "Brenda L. Chapman".

Re: Application for Permit No. 77-7326 in the name of Robert
C. Painter

Dear Sir:

Enclosed is a copy(s) of the above-referenced application(s) for permit which may be of interest to your agency. Please review the application(s) and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter, however, if your agency desires to file a formal protest against the approval of this application(s), your written protest must be received in this office by March 8, 1993.

If you have any questions regarding the application, please contact this office.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
Manager, Western Regional Office
