NOTICE OF APPLICATION FOR AMENDMENT NO. 77-07310 ✓

Notice is hereby given that application
No. 77-07310

Notice is hereby given that application
No. 77-07310 in the name of CSC Mining
Co. was filed on 7/29/1991 for the
diversion of surface water from
unnamed stream with a point of
diversion within the NESW, Sec. 18
T22N R07E, to be used for mining
purposes from 1/1 to 12/31 within
portions of T22N R06E Sec. 13 NESW.

The applicant now proposes to amend
the application by changing the point of
diversion (a single point of diversion on
quarter quarter line) to the SWNESW,
NWSESW, Sec. 12 T22N R06E. The
place of use to NESW and SESW, Sec.
12 T22N R06E and the source to an
unnamed stream tributary to Warren
Creek.

Any protest against the approval of the
proposed amendment must be filed with
the Department of Water Resources,
Western Region, 2735 Airport Way,
Boise, Idaho 83705 on or before
November 4, 1991.

APPLICATION FOR

APPLICATION FOR AMENDMENT OF ^V PERMIT

To change the point of diversion and/or the place of use.

APPROVED

Comes now CSC MINING CO. Phone 752-5171

of (address) Box 1086 WALLACE ID. 83873, and represents to the

Director of the Idaho Department of Water Resources:

OF APPLICATION FOR

That he is the owner and holder ☒ Permit to Appropriate the Public Waters of the State of Idaho
No. 77-07310, and requests that the ^{APPLICATION} permit and permit map be changed as follows:

- Point of diversion: SW-NE 1/4 SW 1/4, Section 12, Township 22N, Range 6E, B.M.,
County of Idaho. Other points of diversion: NWSESW 5.12 T22N
R6E (a single point of diversion on quarter-
quarter line)

- Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)

- * Amount .01 for MINING purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)

* changed with applicant's approval on 8/5/91 per office visit by
applicant's agent.

- Place of use or land to be irrigated:

TWP	RGE	SEC	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
22N	6E	12									M			M					

Total number of acres to be irrigated = _____

- Who owns the property at the point of diversion? RESCUE MINE PARTNERSHIP
 - Who owns the land to be irrigated or the place of use? " " "
 - If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: Applicant has a lease for use of property.

SOURCE of water is from mining tunnel & shall be identified as a spring tributary to Warren Creek. This site is known as the Rescue Mine.

Complete the following map by showing land and point of diversion as proposed by this amendment.
 Show 40-acre subdivisions, townships, ranges and ditches.

That no one will be injured by such change, and that such change will be made at permit holder's own risk.

Signed at Walla Walla, Idaho, this 28 day of Sept, 19 91.

RE: CSC MINING - RESCUE MINE EXPANSION OF A SETTLING POND

Dear Sir or Ms.:

This comment letter is in response to your November 25, 1996 letter regarding expansion of a settling pond at the Rescue Mine located in Section 12, T22N, R6E near Warren, Idaho. The mine is operated under the name of CSC Mining Company.

The mine currently has one water right for mining use, Permit No. 77-07310 for .01 cubic feet per second (cfs) from an unnamed stream tributary to Warren Creek (see enclosed copy). Idaho Department of Water Resources (IDWR) records indicate that this water system was inspected on September 6, 1995 for water right licensing now in progress.

The water right remains a permit until a license can be issued. The field exam indicated that .01 cfs from the unnamed stream, a diversion near the "Troll Tunnel" in "Troll Gulch", is diverted via a 1" pipe located southeast of the mine to a tank, thence to the mine site. Field details indicate that up to 0.8 acre-feet (af), or about 260,000 gallons, from this source can be used annually for mining activities, including a settling pond(s).

Expansion of the pond(s) served by this source would be authorized within the rate and volume limits already described. Any use from this diversion beyond these limits would require additional water right approval from this agency.

However, the field exam information also indicates that most of the water serving the site comes from a larger diversion from a mine tunnel uphill (more south or southwest rather than southeast) from the mine. Diversions from mining tunnels are normally classified as springs rather than streams. This "other water" apparently is diverted from a mine tunnel via a pipe(s) larger than the one used from the unnamed stream covered in right no. 77-07310.

No water right record of this "other water" can be found in IDWR files. It appears that an additional water right filing is required for the larger system that is not considered part of Permit No. 77-07310.

Based on this summary, IDWR recommends that CSC Mining contact this office to explore the remaining water right questions. It appears that most of the water diverted for the mining use remains unprotected by any recorded water right. IDWR cannot provide a favorable recommendation to the Payette National Forest for the settling pond expansion until the water right issues are resolved. Likewise, Permit No. 77-07310 cannot be licensed until this issue is settled.

December 23, 1996
CSC Mining Co.

Date: November 25, 1996

Dear Interested Party:

The Payette National Forest has received a proposal from CSC Mining of Warren, Idaho to amend the approved Plan of Operations for the Rescue Mine and Mill Site. The company currently operates an underground mine on the unpatented Rescue Mining Claim. The Rescue Mine has operated intermittently for nearly a century, with production records dating back to at least 1900. In 1990, the Forest Service approved a Plan of Operations for the mine surface facilities, including a mill site, settling pond, waste dump, and associated roads.

The proposed Operating Plan Amendment includes reconstruction of approximately 100 feet of existing road to access a new portal, and would expand the existing settling pond. The pond expansion would increase the capacity of the current pond by adding an area approximately 60' X 240' to the existing pond. The settling pond expansion is needed to manage excess water from the underground workings and mill. Both of these proposals would take place on lands administered by the Payette National Forest.

The Rescue Mine is located approximately 1/4 mile east of Warren, Idaho and about 40 miles northeast of McCall, Idaho, in Section 12, T22N, R6E, Boise Meridian.

The Forest Service is evaluating this proposal under the National Environmental Policy Act (NEPA) and public comments should be sent to the McCall Ranger District before December 20, 1996. Written responses should be sent to Payette National Forest, PO Box 1026, McCall, ID 83638, Attn: Minerals Program Manager. For additional information please contact Jim Egnew, Minerals Program Manager, Krassel Ranger District, McCall, ID 83638, or phone (208)634-0614.

Sincerely,

Cynthia Grinde

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 77-07310

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 77-07310

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P77-07310

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Dear Mr. Higginson:

We are writing to protest Application for Permit No. 77-7310 filed by CSC Mining Company. The applicant has an approved operating plan for his mining claim but there are some discrepancies between that and the Application for Permit.

The Application for Permit indicates the source to be an unnamed spring tributary to Mayflower Creek. The operating plan shows the source to be drainage water from an existing adit, tributary to Warren Creek. The points of diversion are also different.

We have not been successful in contacting the Applicant to resolve the differences between the operating plan and the Application for Permit. Until we do, please defer action on the Application.

Sincerely,

Gray F. Reynolds

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
