WATER RIGHT NO. 77-07283

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Two points of diversion located on or near line between NESW and NWSW, S14, T22N, R05E.
6. This right when combined with all other rights shall provide no more than 0.02 cfs nor more than 1.5 afa for the land described above.
7. Single domestic place of use located on or near line between NESW and NWSW, S14, T22N, R05E.
8. Domestic use is for 1 home.
9. Domestic use does not include lawn, garden, landscape, or other types of irrigation.
10. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

1. Name of applicant William A. Sears Phone (208) 476-3386
Post office address 2630 Grangermont Rd. Orofino, Id. 83544
2. Source of water supply Sesach River which is a tributary of Snake River
* in NW 1/4 SW 1/4
3. Location of point of diversion is _____ 1/4 of _____ 1/4 of _____ 1/4, Govt. Lot _____
Sec. 14 Township 20N Range 5E B.M. Idaho County; additional
points of diversion if any: _____

4. Water will be used for the following purposes:

- Amount 0.10 cfs for Irrigation purposes from Mar. 1 to Oct. 30 (both dates inclusive)
(cfs or acre-feet per annum)
- Amount 0.22 cfs for Domestic purposes from Jan. 1 to Jan. 1 (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 0.10 cfs and/or (b) 0.04 cfs
cubic feet per second acre feet per annum

6. Proposed diverting works:

- a. Description of ditches, flumes, pumps, headgates, etc. _____

- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.

- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

- d. Is ground water with a temperature of greater than 90°F being sought? NOV 22 1989

7. Time required for the completion of the works and application of the water to the proposed beneficial use is
_____ years (minimum 1 year).

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- ✓ Domestic; show number of households. _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

RE: WATER RIGHT NO. 77-07283

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit along with a copy of your approved Application for Amendment. Should you have any questions regarding these documents, please contact me.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

Shelley W. Keen

RE: WATER RIGHT NO. 77-07283

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the actual use of water found by a representative of our department at the time of the field examination. The enclosed Application for Amendment contains this information. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

2. **Measurements:** ① Domestic/stuck/tire uses - closed system prior to pressure tank, can't measure. Lift ~ 5', assume normal domestic psi ~ 20.

River pump → ② Irrig/stuck/tire - System put away for season, not operating in summer, can't measure. Normally: 5' lift, open discharge from pipe (2") to flood irrig or can hook large hose to pipe for fire etc. Difficult to know what p (30, 20, 5-10 for open discharge?). Is a low pressure use system.

E. NARRATIVE/REMARKS/COMMENTS

While conducting nearby exam 77-07207 (Jim Sears), Bill Sears dropped by & asked me to conduct his exam. While I had many files for exam trip, did not have his with me. He had copy of his pump filing but not permit. Conducted exam & told him would complete with office review of his files. Told me used water for D/I, S/I mixed, irrig & fire protection. Located per mapping done in 77-07207.

Found: P/D #1 - 10' deep, 6" csg. with adjacent 1/2 hp pump, 1" intake & 2 garden hoses outlet leading to pressure tanks. Water used via 2 hose outlets from tanks, not piped to cab or shed. Intermittent domestic (1 unit) uses by filling containers, shower use etc. Can provide stock water & fire prot. also. About 10 mixed stock, probably max use for any animals c 1/2 yr. Assume 12 gal (horses, cattle) ~~etc.~~ Technically ground water source ~~but~~ depth & location - must assume this is immediately trib. to Secor River, which is only c 100' away. ✓ Thus, not expanded to river source if that's only source on permit.

P/D #2 - Has 2 portable river pumps, generally uses 2" pump while 4" backup is for major fire needs. Pump from river via 2" pipe to flood irrigate yard, can provide stock use & fire prot. as needed. Irrig. includes scattered ornamental lawn grass, flowers, shrubs that are not native - rest of site not considered irrig. since is native species. Estimate visually c 1/2 acre total irrigation occurs.

for office following: permit uses? ✓ irrig + dom (1) - .10 cfs + .04 cfs → .14 cfs

F. FLOW CALCULATIONS

Measured Method:

P/D #1 "groundwater" (assume typical 20 psi, est. 5' lift)

$$Q = \frac{(8.8)(.7)(.5)}{(2.31 \times 20) + 5} = .06 \text{ cfs w/ 1" pipe}$$

* P/D #2 River (est. 5' lift, not sure psi to use?)

$$Q = \frac{(8.8)(.7)(2)}{(2.31 \times 30) + 5} = .17 \text{ cfs w/ 2" pipe}$$

* TOTAL .23 cfs compare to .14 cfs total

Additional Computation Sheets Attached
EXPECTED PIPE FLOW
 $Q = VA$ where
 $V \sim 5 \text{ ft/s}$
 $A = \pi r^2$

1" $\rightarrow .03 \text{ cfs}$
2" $\rightarrow .11 \text{ cfs}$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \left(\frac{1}{2}\right)(3) = 1.5$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .02 \times 184 \times 1.9835 = 7.3$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 1.5$$

2. Volume Calculations for Other Uses:

Domestic - 1 interval only, allow .6 af
Stock - 10 mixed & 12 gpd, assume @ 1/2 yr. actual use

$$(10)(.0134)(.42) = .067 \text{ } \left. \begin{array}{l} \text{allow min. amount of 0.1 af} \\ \text{per d'base limits} \end{array} \right\}$$

$$\text{VS. } (.02)(365)(1.9835) = 14.5$$

Fire prot - vol. N/A per B.U. Rules/Regs.

H. RECOMMENDATIONS

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 77-07283

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

MEMORANDUM

TO: File
FROM: Karen L. Gustafson
DATE: January 6, 1993
RE: Proof versus Extension

After receiving the last piece of correspondence concerning this water right, I realized that Mr. and Mrs. Sears still did not understand that there was a question concerning the need to drill on a surface water source. I telephoned Mrs. Sears and explained that we were concerned with the surface water permit and not the groundwater permit. Mrs. Sears apologized for the confusion. She stated that they had been beneficially using the water from the river for quite some time. I explained that she would then need to submit proof of beneficial use. Mrs. Sears also stated that she would complete one of the Proofs of Beneficial Use already mailed and submit it ASAP. I explained that since she had already submitted \$15, she need only submit an additional \$35.00. I would apply the first \$15 to the proof of beneficial use when it is submitted. She must submit the proof on or before February 1, 1993 in order to meet all of the necessary requirements.

Re: Permit No. 77-07283

Dear Permit Holder:

On December 11, 1992, the Department corresponded with you and explained the need to provide further clarification for the need for an extension of time requested on the above referenced permit. At that time, we asked that you submit the information within 15 days of the date of mailing.

As of this date, the Department has not received this information. The Department will allow an additional 10 days for you to respond. If the Department has not received the requested information at the end of this 10 day period, we will prepare your file for film and destroy. I want to remind you once again that since the permit lapsed on December 1, 1992, it is of no further force nor effect.

If you have any questions or if we can be of any further assistance, please feel free to contact the Department.

Sincerely,

Karen L. Gustafson

Re: Permit No. 77-07283

Dear Permit Holder:

The Department is in receipt of the Request for Extension of Time submitted in connection with the above referenced permit. However, before the Department can proceed with the analysis of the request, some clarification is needed.

The request indicates that you are "in process of drilling". This indicates you are drilling a well. However, your permit has been issued for the diversion of 0.14 cfs of water from the Secesh River irrigation of 5 acres and domestic use of 2 homes. I have enclosed a copy of the permit for your convenience. The Department records indicate that you also possess water right license number 84-07188 for which you have already filed proof of beneficial use. However, the Department cannot locate any permit for which you should still be drilling a well.

Since this permit lapsed on December 1, 1992, it is of no further force nor effect. Please contact the Department by phone or letter within 15 days of the date of this mailing and clarify the situation relative to this permit.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

LAPSE NOTICE

RE: PERMIT NO. 77-07283

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated September 30, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 77-07283

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

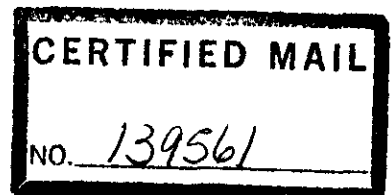

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P77-07283

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Water Right Application

Dear Sir:

Upon reviewing your recent application, a few questions occurred that need to be answered before the application may be approved. Please respond to the following within 30 days to avoid jeopardizing your potential water right.

1) The county assessor's office describes your property in the N1/2 of SW1/4 of S.14, T.22N., R.5E. I need to know where the point of diversion and place of use occur. Please mark these on the enclosed map.

2) The normal irrigation season for that area is 4/15-10/15. You listed irrigation from 3/1 to 10/30. Without a justification documented by you, we will use the normal season.

3) How much time is required to develop the system and put the water to a beneficial use? The range of acceptable choices is from one to five years. If the system is in place and is already used, we will indicate one year for the development period.

4) How many homes are included in the domestic use? Does the irrigation include yard or other external uses around the home(s)? *(2) Homes*
yard & other external use of irrigation

Please contact this office for additional help.

Steve Lester
