IN THE MATTER OF PERMIT NO. 77-7188 IN THE
NAME OF ART H. AND BETTY JO FENWICK
ROLAND AND KATHERINE TABOR

ORDER OF REINSTATEMENT

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before August 1, 1988; and,

WHEREAS, the Department has notified the permit holders by certified mail that proof was due and instructed the permit holders as to the steps to be taken to make said proof; and,

WHEREAS, on August 1, 1988 the permit lapsed for failure of the permit holders to submit proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of lapsing; and,

WHEREAS, the permit holders have provided a reasonable showing as to why said permit should be reinstated by submitting proof of beneficial use on September 22, 1988;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 77-7188 be REINSTATED and the priority advanced to March 25, 1983.

Dear Water Right Holder(s):

I have enclosed a copy of the Amended Water Right License issued for Right No. 77-07188. The amendment was necessary to show use for two homes and to correct the point of diversion and place of use descriptions. Should you have any questions regarding this document, please contact me.

Also, during our review process we realized that we incorrectly solicited an amendment of your permit prior to issuing your license. The amendment fee will be refunded to you under separate cover.

=====

On September 6, 1996, we received a change of ownership form and in pursuing information of water right ownership it was discovered that license #77-07188 was issued for one home while the water right permit and supporting information in the file indicated that water was being supplied to two homes. This addition was confirmed by a phone call to Betty Jo Fenwick. In my conversation with Mrs. Fenwick, she said a line was connected to a tank that gravity feeds to a house on lot #111.

In addition, the license needs to be amended to correct the legal description of point of diversion and point of use.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Water Right No. 77-07188

Dear Water Right Holder:

I have enclosed your copy of Water Right License No. 77-07188, which was issued on July 29, 1996. I have also enclosed a copy of your approved Application for Amendment and your receipt for the filing fee.

I appreciated receiving your note indicating that ownership of part of this water right has changed. I have not yet changed the water right record because we require a copy of a deed or other legal document as evidence of the change of ownership. For your convenience, I have enclosed the form developed for notifying IDWR of a water right ownership change. The water right ownership information in our database will be changed when you complete the form and return it to IDWR with the required supporting documentation.

Please note that under the provisions of new legislation that took effect on July 1, 1996, water right owners are **required** to record changes of water right ownership and changes of mailing address with IDWR. If you acquired a water right or changed your mailing address prior to July 1, 1996, you have until July 30, 1998, to notify IDWR. If you acquire a water right or change your mailing address after July 1, 1996, you must notify IDWR within 120 days of the change. Failure to comply with these requirements could result in a \$100 late filing fee.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen

RE: WATER RIGHT NO. 77-07188

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Exam Map	18N 17E S22 SESE	18N 17E S22 SWSE

When errors were discovered in the original application for permit, it was re-advertised. However, the data base still shows the original information.

When the examiner contacted the Lemhi County Assessor's Office, it was confirmed that the locations were in Section 18. Because it is an unsurveyed area, the information was based on the subdivision plat map. (a copy of the plat map is in the file)

With so many discrepancies I wanted to check with the Assessor's Office again. At first, the gentleman assisting me agreed with the subdivision plat map. When I explained that Rams Creek ran by the subdivision and that I couldn't find it in Section 18, he decided to refer to a forest service map. He stated that the subdivision plat map was indeed incorrect, and that the subdivision is actually located in Section 22. He said it appeared that the subdivision was entirely in the SWSW^{1/4} of Section 22.

Because of this information, I would like the examiner to re-assess the recommendations.

Dear Mr. and Mrs. Lenwick:

Re: Permit No. 77-7188

This office acknowledges receipt of your letter dated August 5, 1988. In your letter you advise of the date the proof due notice was received by you.

The department did sent the notice on May 31, 1988 to the address of record as required by the Idaho Code, however, it was no longer your current address and was returned. We later checked with the County Assessor's Office obtained their most recent address. Consequently, you received the notice on August 5, 1988.

On August 1, 1988, the permit lapsed. It loses a day of priority for every day the proof submittal is late. Enclosed for your convenience is the proof of beneficial use form.

If you have any further questions, please feel free to contact this office.

Re: Permit 1077-7188 - Draft Rev Notice

Your letter dated May 31, 1988 just reached us today. Please note our change of address. I would have assumed that was the delay in our receiving it, but the envelope was post marked "Aug 4" from Boise - as per enclosed copy.

Up to this time we had thought everything was in order and we had sent a form stating spring was complete. If not, of course we will abide by your instructions - but first, may we explain the ~~microfilmed~~ situation.

DEC 16 1988

The spring we accessed is far

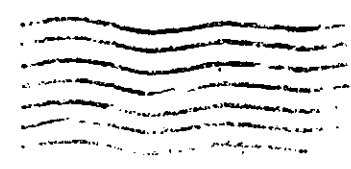

our (Taba & Lenwick) vacation property and is used only for household (no yards; no washers) and then only as a "back up" when the subdivision water is not running properly and/or is being worked on. Our estimate for bath families is that we use 4,000 to 5000 gallons per year.

At the present time we work for the forest service (summers) and are on fire lookout and can't get away to complete the Proof of Beneficial Use Form 227 217 until after Labor Day.

In light of receiving your letter 2 months late, we hope that ^{the above} time frame will be satisfactory, and ^{we} possibly communicate with Taba.

RE: Permit No. 77-7188

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

Re: Water right application; Fenwick & Tabor
at Ramshorn Ranch, Challis

This is in reply to your letter of May 6 regarding a discrepancy in the legal description of the spring near Ramshorn for which we are applying ^{for} a water right. The description in question was arrived at through maps, written correspondence, and telephone calls with people at the Salmon Forest Service. Since that time the District Ranger sent us an Aerial photo showing the exact location of the spring. A copy of this map is enclosed.

Also enclosed is a survey map of the subdivision on which the spring location is marked, showing it 50 ft from the subdivision property line on Big Horn drive. We trust this information will answer questions so that the application can be processed. Please let us know if you need anything further. Thanks!

Dear Mr. and Mrs. Fenwick:

In further review of your application, we have checked our topographic map and found a discrepancy in your legal description.

You list SE $\frac{1}{4}$ SE, Sec. 22, Twp. 18 N, Rge. 17 E, as the point at which the spring lies. However, on our map this shows the spring as being approximately 1,000 to 2,000 feet below your proposed place of use in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17, Twp. 18 N, Rge. 17 E. Would you please check your legal description again and send us a copy of the map you have used to obtain these descriptions. Perhaps the Forest Service has further information.

We will await hearing from you to continue processing this application and hope the delay has not caused problems.

Sincerely,

JAN GROVER
Senior Water Resource Agent

Dear Mr. & Mrs. Fenwick & Mr. & Mrs. Tabor:

We have received your application for permit and claim to a water right. However, we are in a quandary as to which form you need to file.

If this is a new use to be developed, then the permit application should be filed. If the use was developed and has been used prior to May 20, 1971, then the claim can be filed although it is not required.

On your filings you state that some cabins in the area get water from a different spring. Do your cabins also use water from this other spring. If so, it should also be shown on the filing.

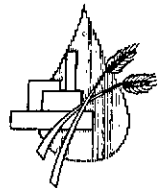

Please correspond with us as soon as possible concerning the above problems so that we can process your filing. If you have any questions, do not hesitate to contact us.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.
