Salmon River Lodge
Shoup, Idaho 83469

Dear Mr. Giles:

A representative of this Department has made an examination of the works covered by your Permit No. 77-7003 and has found the following:

Quantity of water diverted: 1.83 cfs Source: Butts Creek

Amount of water that can be recognized as beneficially used under Idaho law: 1.83 cfs

The maximum quantity diverted shall not exceed 10.7 acre feet per year.

Beneficial use: For domestic, power, stockwater, and irrigation
of 2 acres within the SE1/4, Sec. 1, Twp. 23 N, Rge. 14 E

Point of diversion: SE1/4, Sec. 1, Twp. 23 N, Rge. 14 E, R.M.

Priority date established: February 21, 1968

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Dear Mr. Ballou,

Department of Water Administration

I received your letter and the 18th of march would be OK.
Can you take a day or two to do some steelhead fishing? If you are
driving to Salmon you take hwy 93 north to North Park then turn
west and follow the Salmon River about 47 miles - the end of the
road is at Corn Creek. Just before you reach the end of the road
you will see a Salmon River Lodge sign on the left side of the road -
attached to the sign is a green box - the telephone is in that box its
call the Lodge - which you can see across the river - you should
figure on 2 1/2 hours from Salmon, to the Lodge. If you plan on
arriving in Salmon on Sunday it would be best for me if you
would leave Salmon 6: AM Monday morning so as to be here about
8:30 that will give us time to inspect the water system and
fish that day.. If you need Transportation from Salmon to the
Lodge - let me know and we will work out something.

Best Regards

Dave Giles

Re: Permit No. 77-7003

Dear Mr. Giles:

Your card arrived today and I am planning a trip into your area for the week of the 18th through the 22nd of March.

I plan to be in Salmon the 18th and would like to meet with you then. I've set this later date only for my convenience. If you feel we must completed the examination prior to March, please let me know, set a date, and I'll make the trip.

I will, however, need information prior to the trip on how to contact you for transportation to the lodge.

If you have any questions, please do not hesitate to contact this office. If, not, I'll see you in March.

Very truly yours,

Dear Mr. Giles:

One of the conditions of the approval of your permit
77-7003 was that proof of application of the water to
beneficial use be submitted to this office on or before May
1, 19 69.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

Dear Mr. Alfred

With reference to Permit 77-7003.

This application was approved subject to the installation of a measuring device of a type approved by the department. I have a weir in the creek which I think might suffice, at any rate I would like you to inspect it and give your recommendations. Is this possible?

The Steelhead are running - bring your pole. write or call so we can set a date.

Dear Mr. Giles:

In reply to your letter of April 17, 1968, we will accept any standard measuring device such as a rectangular, cipolletti or V-notch weir, an orifice, trapezoidal flume or any other special commercial type device in common use.

If you have questions as to any particular type that you might use, if you will give us the specifications we will make a decision as to whether or not we will approve such a device.

We are in the process of obtaining a booklet which will have standard drawings in tables, however, at this time we have nothing which would be suitable. If you contact the Soil Conservation Service or the University Extension Service, I am sure that they could assist you.

In answer to you question regarding the error in acreage, once a permit is issued the acreage cannot be expanded over that on the permit, however, if you wish to apply for a supplemental permit for the remaining acreage we would consider it. I am enclosing forms on which you may make proof of application of water to beneficial use. If we can be of further service, please contact us.

Very truly yours,

C. Stephen Allred, Assistant
State Reclamation Engineer

Dear Mr. Allred,

I recently received permit # 77-7003.
as you stated I should permanently install a
measuring device of a type approved by your
department. Do you have some drawings of measuring
devices which are approved, that I may have?

also what do I fill out to show proof of construction
of works and application of water to beneficial use?

I noticed I made an error on the application
with regard to the number of acres irrigated. I
showed $1\frac{3}{4}$ acres - actually I irrigate about 6 acres.
What should I do about this?

Thank you for your assistance.

Attention: Mr. David D. Giles

Gentlemen:

We are in receipt of your letter of January 30, 1968 and your check in the amount of \$45.00.

In reviewing your application, it is noted that we require one additional form prior to processing. Under the existing Idaho Statutes, an application for power must be accompanied by an affidavit verifying residence. We are enclosing the departments form for your use in this matter. You will note that the form is divided into individual ownership and corporation or association ownership. Inasmuch as your application has been submitted as Salmon River Lodge, possibly you would be required to fill out the corporation or association section. If not, we could change the name under which you have applied to include your name, or doing business as Salmon River Lodge.

Your assistance in clarifying this issue is appreciated.
