Dear Mr. Iverson:

On November 25, 1968 and January 8, 1969, we wrote you requesting information regarding your use of water under state water permits listed above. Since we have not received a reply I would propose that we issue the licenses based upon the following information:

Permit No.	Period of Use	Acre Feet Per Season
30941	April 1-October 31	1.0 acre feet
30943	April 1-October 31	0.4 acre feet
30944	Jan. 1-December 31	0.57 acre feet

Dear Mr. Iverson:

We are in the process of issuing licenses for all of the above numbered permits.

As a result of changes in our procedures, we need additional information in order to determine the annual water requirement for each of these permits. If you have any idea as to what the annual use might be for each of these permits this will be sufficient. You might advise us of the number of camping sites in the park and an estimated consumption rate for that camp site, on those permits which are to be used for campgrounds.

Re: Permit No. 31161
31162

Date: July 31, 1964

Regional Forester
Forest Service Building
Ogden, Utah

Dear Sir:

Under the terms of your Permit No. 31161
31162 you are required to make proofs of completion of works and application of water to beneficial use on or before October 16, 1964.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.
